IMPORTANCE.

Rapidly, Penetrating Into All Parts of the World

Though the automobile industry is Canada does not yet occupy the same attle man summed up: "Guv'nor, in relative position to general business in my profession you can't choose your the Dominion as the activity does in mates as you'd like to. I'm an engine to United States, it is nevertheless cleaner, I am, and no nonsense about one of fast growing importance and me. What I ought to 'ave told you, the production of automobiles has and I'd forgot it myself, is that my come to be a fairly significant factor mate was a conjuror." in appraising the general in lustrial situation. It is therefore gratifying to find that the industry was considerably more active in 1925 than in 1924, and that the tendency has been carried procuncedly into 1926.

In 1923 the automobile ranked sixth among the great industrial activities of the Dominion, and both capitalization and the value of production have increased since that time, for the in-dustry is continually expanding. Between the years 1920 and 1 24 the total capital employed in Canadian utomobile manufacture, overwhelm ingly from the United States, increased from \$53,906,506 to \$60,766,886, and ince 1917 the capital invested has been more than doubled. We the two exceptions in that period, due to the vaciliations of post-war influences, the yearly growth has been fairly steady. The Year's Production.

During the year 1925 Canala proluced 139,311 passenger automobiles and 22,075 motor trucks. In both these divisions the expansion is quite a considerable one over 1924, when profuction of 117,765 passenger cars and 17, cupboard. Both the hiving room and of this house should communicate with designed your local the exact figures of motor vericle rs, former having a large fireplace, and & Little, 273 Beaver Hall Square, would be believed. gistrations in Canada for 1925 are not the latter conveniently connected to Montreal, Que. known yet, it is definite that they the kitchen for leasy service. showed a substantial increment over those of 1924, when 652,121 were responded, an increase over 1923 of 65,271, vided. As the stairs land in the centre passenger cars showing an increase vided. As the stairs land in the centre of 58,798 and motor tricks 1,316. The apparent consumption of automobiles in Canada in 1924; was 6,203 freight automobiles, 62,575 passenger vehicles and 16,172 chassis,

Though Canada ranks second to the United States in the per capita owner-ship of automobiles, and a heavy replacement is necessary every year, the ering in the French Colonial style, the Canadian automobile industry has uninterrupted lines of the caves and the export trade, particularly in set the vertical lines of the group flued and lines that were chosen to make 250,002, in comparison with 12,772 cars 58,005 passenger autos worth \$27,794,dress opens at the centre front under 884, in comparison with 43,883 autos a row of buttons from neck to hem worth -22,080,232 in 1924 and auto and has a collar to be worn high or parts to the value of \$6,372, 728 as com-
