OWL-LAFFS

BY O. W. L. (On With Laughter)

Grandmither.

Ah, when I read of Scotland
The heather and the broom,
I think with gentle whimsy
Of Grandmither, to whom
There never was a fairer sight
Than Scottish braes in bloom.

For Grandmither was Scotland born
As she was Scotland bred;
Though to a distant land she came
To live when she was wed,
No other country could be home
To Grandmither, she said.

She sang to me old songs about
Glen Cameron's brave men;
Of pibroch sounding fro... ...ar
...ountain and in g...;
Of highland hills and lakes she loved
And should not see again.

Some day, it may be, there will come
The chance for me to roam—
View Pyramids, the Taj Mahal,
Many a famous dome,
Most I shall thrill at Scottish braes
Like Grandmither come home.

—Alice Lawry Gould.

The Lord Chancellor's Seat.

In the literal sense there is no "bar" in the House of Commons; it is but a brass rod set in the floor. Yet most people imagine it as a sort of waist-high barrier.

And the "woolsack" in the House of Lords—most people would declare it to be a figure of speech, and there was "each thing." Yet there is. It is a square sack filled with pure wool, and on it the Lord Chancellor, as Speaker of the Upper House, sits quite comfortably.

It was first placed in position in the reign of Edward III. In his reign the great national industries were the growing of woollens and the export of wool. Thus as a symbol of what wool meant to Britain a sack of wool was placed in the House of Lords as a seat for the most important officer of the State.

The custom has been maintained ever since, with the slight variation of making the sack square and covering it with a red cloth.

THE ONLY MEDICINE BABY HAS HAD

Is What Thousands of Mothers Say of Baby's Own Tablets.

Once a mother has used Baby's Own Tablets for her little ones she will use nothing else. Experience teaches her that they are without an equal for relieving baby of any of the many minor ailments which afflict it at one time or another. The Tablets never fail to be of benefit. They cannot possibly do harm as they are guaranteed to be free from all injurious drugs.

Concerning Baby's Own Tablets Mrs. Russel Hill, Norwood, Ont., says:—"I shall always have a good word to say for Baby's Own Tablets. I have given them to our baby girl. In fact they are the only medicine she has ever had and I am proud to say that she took second prize at our baby show. She is eleven months old and weighs 22 pounds. No mother whose child is peevish or ailing will make a mistake in giving Baby's Own Tablets."

Baby's Own Tablets are sold by medicine dealers or direct by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Equally Now!

William D. Munro in the Boston Atlantic Monthly: Philip of Macedonia was in the habit of boasting, twenty-two hundred years ago, that he could capture any city on earth by driving into it an ass laden with gold. To-day there are men who can capture city halls and state capitols with the same facility and in the same way—except that it is a "bagman" who now carries the coin. These bagmen have become an essential part of our invisible government.

Bettering Burbank.

"How do you put the water in the watermelons?" asked the village wit of the farmer.

"Oh, I plant the seeds in the spring!"

More Nourishment!

Made only from hard Western wheats, Purity Flour is rich in gluten — the energy giving and body building food. Purity Flour is best for all your baking and will supply extra nourishment to the children, in cakes, pies, buns and bread.

"Should be in every home" Says Mme. Villemaire

Three years of stomach and kidney disorders wrecked her health. Now fully recovered and feeling splendid, she thanks Tanlac

Mme. Eliza Villemaire lives at 432 St. Patrick Street, Ottawa. She is ruddy and robust, showing no signs of the distressing ordeal she went through for three years. "No words can express what I suffered," she said recently. "At times I thought my back must break, and I could not even stoop over to set the table.

"My stomach was just as bad, for food would lie there like a lump of lead. I used to bloat terribly, and at times could hardly catch my breath. Nervousness kept me awake half the night. I tried many remedies and treatments but though I spent a small fortune on them, nothing seemed to help me.

"I only wish I had taken Tanlac when my trouble first started for it certainly would have saved me a lot of suffering. The way my troubles disappeared after taking it was almost magical. It built me up and made me a new woman. Now my kidneys never bother me, I am free from all pain and my digestion is splendid. If I had my way I'd put Tanlac in every home in Canada. That's how much I think about it."

Don't neglect nature's warnings. At the first sign of trouble, take Tanlac, nature's own tonic, made from roots, herbs and barks. Your druggist has it; get a bottle today. Over 52 million bottles sold.

Blind Boy Musician Radio Star

Ronald — otherwise "Ronnie" — Matthews, blind from birth and possessing a natural talent for music which has been carefully nurtured, has become a welcome performer at special broadcasts over CNRV, the Vancouver, B.C., radio station of the Canadian National Railways. "Ronnie" chose the piano as his instrument of expression and the foundation of instruction has been so carefully prepared that he has already successfully passed two examinations under the auspices of the London Academy of Music.

Seeking for a medium to adequately present the boy's talent to the world at large, G. A. Wright, broadcasting manager, evolved a feature known as "the radio train," by which an imaginary train leaves CNRV and visits homes of kiddies in British Columbia, the neighboring provinces, Yukon, Alaska and the Pacific States. Of this "train" Master "Ronnie" is "conductor," acting as announcer and occasionally offering pianoforte selections. The feature has proven so successful that it has been made a permanent part of the season's programmes at CNRV.

The photographs show the "train" crew ready for the broadcast. From left to right: "Doug," the brakeman (Douglas Flowers, assistant radio inspector); "Millie," (Miss Millie Fuyarchok, of the station office staff), who is "passenger" and also the directing power for the bell—a special feature of all Canadian National Railways radio stations; "Aunt Emma," directress of children's programmes (Miss Mabel L. Tomer); "Conductor," "Ronnie" Matthews; "Cap" Roy (Roy M. Brown, broadcasting operator), who for the time being is the "whistle," and G. A. Wright, manager and chief announcer, "engineer" of the mythical "train," the mechanism held in his hand being the "train" operating noises.

In the lower photograph of "Ronnie" himself he is shown making an announcement over the microphone, reading from Braille characters.

Springtime.

Matthew Arnold was the son of the famous Thomas Arnold, the Head Master of Rugby School so finely depicted in "Tom Brown's Schooldays." He himself was for many years a school inspector, but he was, first and foremost, a great English poet. The following is from "Iseult's Tale":

They came to where the brushwood ceased, and day
Peered 'twixt the stems; and then the ground broke away.
In a sloped swaid, down to a brawling brook;
And up as high as where they stood to look
On the brook's farther side was clear, but then
The undergrowth and trees began again.
This open glen was studded thick with thorns
That white with blossom; and you saw the horns
Through last year's fern, of the shy fallow deer
Who come at noon down to the water here.
You saw the bright-eyed squirrels dart along
Under the thorns on the greensward strong;
The blackbird whistled from the dingle's nest,
And the weird chipping of the woodpecker
Rang lonesomely and sharp; the sky was fair,
And a fresh breath of spring stirr'd everywhere.
Upon the brow-top grew a horn, and here
The grass was dry and bossed, and you saw clear
Across the hollow; white anemones
Starred the cool turf, and clumps of primroses
Ran out from the dark and inward be- Kind—
No fairer resting place a man could find.

United States Crime Bill.

Crime, indirectly and directly, costs the United States approximately $13,000,000,000 a year, according to estimates made by Mr. Mark O. Prentiss, in the Manufacturers' Record.

Mr. Prentiss is organizer of the National Crime Commission, an unofficial body seeking to determine the causes of U. S. crime.

He points out that the yearly economic losses due to crime in the United States exceed the total of the European debt to the United States. The present criminal class in the United States, according to him, now numbers some 2,000,000 people.

If gambling, vice and violation of the Prohibition laws were counted in, he estimates that they would add another $5,000,000,000 to the total of $13,000,000,000.

An acid stomach caused by indigestion often creates rheumatic symptoms. Set your stomach right with Seigel's Syrup. Any drug store.

Ottawa to Have Largest Carillon.

London—The giant carillon which has been 18 months under construction for the Houses of Parliament at Ottawa, is now finished, and has been shipped to Canada. Kamiel LaFevre, of the Malines Cathedral, gave a recital upon them at the Croydon works.

The carillon is the largest in the world, comprising 53 bells upon a huge steel framework. It commemorates the 1918 peace.

Or Advertisements.

"How much better off we'd be if they put that sign on the mail box."

"What sign?"

"Post No Bills."

Water loses weight when the moon is overhead; the water directly under the moon rises higher; hence the tide. A man, too, loses weight when the moon is overhead; a 168-pound man weighs one thirty-two hundredths of an ounce less at such times.

SPRING IMPURITIES DUE TO POOR BLOOD

A Tonic Medicine a Necessity at This Season.

Dr. Williams' Pink Pills are an all-year-round tonic for the blood and nerves. But they are especially valuable in the Spring when the system is loaded with impurities as a result of the indoor life of the winter months. There is no other season when the blood is so much in need of purifying and enriching and every dose of these pills helps to enrich the blood. In the Spring one feels weak and tired—Dr. Williams' Pink Pills give strength. In the spring the appetite is often poor—Dr. Williams' Pink Pills develop the appetite, tone the stomach and rid weak digestion. It is in the spring that poisons in the blood find an outlet in disfiguring pimples, eruptions and boils—Dr. Williams' Pink Pills clear the skin because they go to the root of the trouble in the blood. In the spring, anaemia, rheumatism, indigestion, neuralgia and many other troubles are most persistent because of poor, weak blood, and it is at this time when all nature takes on new life that the blood most seriously needs attention. Some people dose themselves with purgatives at this season, but these only further weaken themselves. A purgative merely gallops through the system, emptying the bowels, but does not help the blood. On the other hand, Dr. Williams' Pink Pills enrich the blood which reaches every nerve and every organ in the body, bringing new strength and vigor to weak, easily tired men, women and children. Try Dr. Williams' Pink Pills this spring—they will not disappoint you.

You can get these pills through any medicine dealer or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Japanese Sea Quakes Drive Away Food Fish.

Continued earthquakes in Japan and the seas surrounding the island empire have frightened away many of the fish depended upon by the Japanese for most of their food supply, declare exporters on Pacific coast, who have received cable orders to rush canned, smoked and pickled herring, salmon and even whale meat to the Orient.

Catches of fish by Japanese fleets have fallen off this winter at an alarming rate, so much so as to cause the United States Government to suspect that the herds of fur seals harbored by Uncle Sam in the Bering Sea rookeries had something to do with the scarcity. But scientists believe it is not fish-eating seals but great earthquakes that have frightened away or killed the great varieties of Japanese fishes.

If trade is to be vitalized, traders must advertize.—Lord Mayor of London.

Mental Health.

Mental health means more than being free from mental disease. Freedom from insanity alone does not imply that a person's mental health is perfect. The strain of life as we live it today brings a good deal of wear and tear to our mental equipment, and it behooves us to preserve the health of our mind as well as the health of our body.

A mental breakdown is something none of us want, and the hopeful thing is that we can prevent it. George K. Pratt claims that if people would do the sensible thing, mental stress would be greatly lessened. Men and women can do much to protect their mental health, even though it is true that the foundations for "a sound mind in a sound body" are best laid during childhood.

His suggestions are the simplest and surest we have seen for a long time:

Face reality squarely; find out your difficulties and proceed to conquer them. No good ever came from denying or trying to escape unpleasant tasks or responsibility.

Learn to think with your intelligence, not with your emotions.

A married woman should not give up all outside interests when the first baby comes. They should keep up their music, or painting, or athletics, church societies and bridge clubs. The girl who drops her friends after marriage will live to be sorry; keep the friends who live in town and correspond regularly if not often with your distant friends.

Take an energetic attitude about worry. Find out definitely what is worrying you—then make an honest effort to remove the cause.

Avoid excessive day-dreaming. Wishing never yet proved a good substitute for doing. A busy life is the best antidote for day-dreaming.

Garnets in Canada.

The garnet is usually looked upon as a precious stone but the quantity used as gems is very small in comparison with that used for abrasive purposes, according to the Department of Mines, at Ottawa. There are several deposits of abrasive garnet in Canada. In Ontario, a good type of garnet is being produced from a rich vein near Bancroft, and a promising deposit of larger extent but lower garnet content at Parry Sound has been well prospected and will probably be an economic producer. Near Sudbury, there is another promising exposure about fifty feet wide and traceable for a considerable distance. At Chegoggin Point, near Yarmouth, Nova Scotia, a 35-foot dike with a garnet content of approximately 40 per cent outcrops on the sea shore and has been traced inland for several miles. All the above deposits are near rail or water transportation and should be of commercial importance. Several other deposits are known that are both rich, and suitable for abrasive purposes, but they are at present remote from transportation facilities.

Come Back.

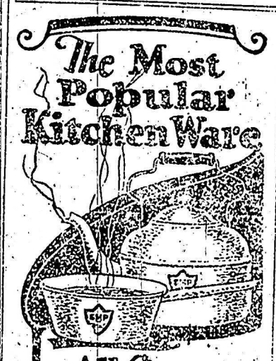
Tramp (after receiving food)—"Thank you, ma'am. Is there anything I can do in return?"

Housewife—"Don't."

Going fishing—take Minard's Liniment.

One of the bells still in use in Hailsham Parish Church, Sussex, dates back to 1193. The curfew has been rung at this church every night for over 700 years.

The Most Popular Kitchen Ware



In All Canada

You see it everywhere — the pearly gray, enameled ware that spells long service and real, old-fashioned satisfaction. This splendid kitchen ware, SMP Pearl Enameled Ware, defies wear and tear and its surface, like all SMP Enameled Ware, is so china-smooth and clean it harbors no taints or impurities.

You need no steel wool or special cleansers to keep SMP Pearl Ware sparkling clean. Soap and hot water do the trick in a jiffy. Made in every new handy shape and size by an old established Canadian industry.
