A Town's Best Booster

A writer in a current magazine observes: "If the newspaper is just a little better than its town, the latter is the gainer thereby." Towns and their newspapers usually lag or lead together. Progressive journalism is the untailing tonic of the lethargic community, but it is equally true that a lifeless newspaper can seriously retard the development of its community. There is no better community asset than a home newspaper equal to the needs of the community. While a poor newspaper is better than none to the individual reader, that does not hold true for the town. What can a good newspaper do for its community? It can serve as the town's best messenger to the outside world. It is the infallible line of communication between local government and citizen. It is the newspaper that all organizations turn for assistance in public improvements and without the assistance they face failure.

Bowes' Weather Forecasts

The strongest winds on the whole earth will be about Jan. 28, Feb. 15, March 1, 13, 22, July 19, August 20, Sept. 2, 10, 22 to 26, Oct. 20, Nov. 10, December 3.

The coming seasons will not be good ones for the farmer. The spring will come in fairly early. April and fore part of May very warm and dry. Latter portion of May heavy rains, winds and frosts. June very warm and dry. July mostly dry, fore part of August dry, latter cold and wet, Sept. very strong winds, cold and very wet, some severe frosts, October and November, extra warm and dry.

Owing to lack of our usual winds in June, July and part of August, air pockets have a good chance to develop, which is the first principal cause of our thunder storms, which are a link in the formation of cyclones and tornadoes. These thunder storms may be our savers from the otherwise extreme drouth.

Britain and the coast of British Columbia, which get a lot of their heat from the sea and ocean currents, will have a very cold winter and summer and very warm spring and fore-part of the fall months.

January—Quite mild and calm until the last week, then strong winds with snow and quite cold.

February—Very mild and calm. Coldest part of month about the 15th.

March—First, very strong winds and snow, stormy and very cold. This storm will last about a week. Then very mild. About the 13th, very cold winds with rain and snow. This cold spell will last until about the 20th, then very mild.

April—Very calm, warm and dry.

May—Very calm, warm and dry until the 19th, then strong winds with rain, frost and probably snow.

June—Divided [illegible] and dry and quite calm.

July—About [illegible] temperature the 18th. [illegible] rain, The [illegible] dry. [illegible] month, cold [illegible] and wet. [illegible] record [illegible] frost and [illegible] specially [illegible] 25th. [illegible] decidedly [illegible] and, rain [illegible] ion of [illegible] quite [illegible] rong, cold [illegible] probable [illegible] ry pro- [illegible] and [illegible] three [illegible] ck strong [illegible] balance of [illegible] old.
