British Families to Get Canadian Farms

London.—Five hundred British families who to be given farms in New Brunswick in the next six years, under the Anglo-Canadian agreement just made public. Advances up to £300 will be given to each family by the British Government, repayable to the Dominion Government over 25 years.

Restored to Health Through the Use of Dr. Williams' Pink Pills

"It is a pleasure," says Mrs. Ross Boulier, of Victoria, B.C., "to tell you of the new health and strength I got through the use of Dr. Williams' Pink Pills. Before taking the pills life was a burden to me. I was so badly run down that I did not know what to do. My blood seemed to have turned to water. I was very pale, could not get up stairs, and was losing flesh. It was a trial to attempt housework. Added to this I had a bad cough and my husband and friends thought I was going into consumption. The medical treatment I was taking did not appear to do me any good, and I had about given up hope when a friend urged me to try Dr. Williams' Pink Pills. I got six boxes and found so much benefit from them that I got six more boxes. Before these were all taken I was a new woman restored again to good health. I gained weight, the cough left me, my appetite returned and I once more had a good color. Better still, I was able to do my housework without fatigue. Needless to say I always recommend Dr. Williams' Pink Pills to all my friends, and I hope this will be the means of pointing the road to good health to some other sufferer."

Summer Complaints Kill Little Ones

At the first sign of illness during the hot weather give the little ones Baby's Own Tablets. In a few hours they may be beyond aid. These Tablets will prevent summer complaint if given occasionally to the well child; and will promptly relieve these troubles if they come on suddenly. Baby's Own Tablets should always be kept in every home where there are young children. There is no other medicine so good and the mother has the guarantee of a government analyst that they are absolutely safe. They are sold by all druggists and will be mailed to you for 25 cents per box by The Dr. Williams' Medicine Co., Brockville, Ont. A little booklet, "Care of the Baby in Health and Sickness," will be sent free to any member on request.

Women Settlers

London Times (Ind.).—(Women are occasionally deterred from settlement in the Dominions by the fact that they are invited by Dominion notices to undertake work as domestic servants or household workers. There is a new world offering almost boundless scope. It is, so to say, the way for the assistant settler to matriculate into the life of the Dominions. It is the field in which she gives her proofs that she can make a successful contribution to the common life of her new country. We can understand what seems at times the over-exacting attitude of Dominion officials when we remember that they are taking to their country the future mothers of their people.)

Teach Children Kindness

This teaching kindness to naturally may seem a simple thing; but the more one looks into its merits the more penetrating this spiritualizing influence proves to be, causing a change of conduct, inspiring justice and compassion in the place of selfishness and cruelty; training the mind to apprehend, and the heart to empathize with the needs of the lowly creatures who form the theoretical object-lesson of such surprising interest to the young; obviously the "protecting sympathy" which a child may be taught to feel towards its helpless dumb companion, may in after years inspire the life of the philanthropist.

Life Was a Burden

Restored to Health Through the Use of Dr. Williams' Pink Pills. "It is a pleasure," says Mrs. Ross Boulier, of Victoria, B.C., "to tell you of the new health and strength I got through the use of Dr. Williams' Pink Pills. Before taking the pills life was a burden to me. I was so badly run down that I did not know what to do. My blood seemed to have turned to water. I was very pale, could not get up stairs, and was losing flesh. It was a trial to attempt housework. Added to this I had a bad cough and my husband and friends thought I was going into consumption. The medical treatment I was taking did not appear to do me any good, and I had about given up hope when a friend urged me to try Dr. Williams' Pink Pills. I got six boxes and found so much benefit from them that I got six more boxes. Before these were all taken I was a new woman restored again to good health. I gained weight, the cough left me, my appetite returned and I once more had a good color. Better still, I was able to do my housework without fatigue. Needless to say I always recommend Dr. Williams' Pink Pills to all my friends, and I hope this will be the means of pointing the road to good health to some other sufferer."

The Catbird

"Yow, e-zow! squawk!" Such a grating, unmusical call! Surely the sound did not come from that graceful, dark gray bird there in the shrubbery? Watch a moment. There he sits, beautifully formed, bright-eyed, black-capped, blacktailed, his only enlivening color being the patch of bright chestnut under the tail coverts. His wings, some 2 inches shorter than his tail, are folded. His head is small and sleek. Hark! what song's that? A thrush, a mockingbird? No, it is our gray bird in the syzygia, who a few moments ago sounded true to his name. "Now his song swells forth melodiously. A pause—a short lull to the cedar hedge. There he slumps, head and tail drooping. "Me-ow, row!" he croaks dully.

Packed in the best packet yet found for tea—Aluminum.

Official Help

Geographic Society Will Co-operate With Byrd's Expedition. Washington.—Full cooperation will be extended by the National Geographic Society to Commander Richard E. Byrd in his proposed Antarctic flight and a contribution of \$25,000 from the society's exploration fund will be donated toward the scientific equipment of the expedition. In making this announcement recently it was said the society's trustees believed that a thorough exploration of the Antarctic region offered a rich field for collection of scientific data as conditions in the south territory were in marked contrast to those of the Arctic.
