## Scenes Along the Ferguson Highway from North Bay to Past Cochrane

NEW HIGHWAY STRETCHES THROUGH WILDERNESS

Connecting the vast rich areas of Northern Ontario with this wild and unsettled southern part of the province a good motor road has been laid through what was but a year or two ago a trackless wilderness. These views show different interesting spots on the new Ferguson highway. The TOP LEFT picture is a somewhat typical scene taken on the shores of Log Lake.

There are scores of beautiful little lakes in this great territory through which the new road passes.

which the road passes. Some more beautiful than Log Lake for they have not been burned so recently.

TOP LEFT is seen the big T.T.C. bus chartered by Scenic Motor Coach Tours Limited, which was the first motor coach to traverse the new highway between North Bay and Kirkland Lake mining district. It is the cabin of part of the construction gang who laid the road. The entire cabin, which is trimly finished in a manner which would make many city dwellers jealous, was made from materials cut in the forest close by.

When the cabin was built the road was not even prospected and it was necessary to bring all materials by canoe a distance of some twenty miles with a portage of some length thrown in.

On the Ferguson highway today every provision is made both for the safety of the timber and for the comfort of the tourist. Camping grounds with a supply of wood and fresh water are placed every few miles along the road.
