Macdonald - Grochofske
A quiet but pretty wedding was solemnized at the home of Mrs. Dorothy Grochofske on Wednesday, November the thirtieth, when her daughter, Myrtle Marie, became the bride of Mr. Gordon A. Macdonald, son of Mrs. Macdonald and the late A. Mackay Macdonald of Toronto. The Rev. W. A. MacWilliam officiated. The bride, who was given away by her mother, looked lovely in a dainty gown of blue bead crepe tulle, studded with rhinestones, carrying a shower bouquet of Ophelia roses. The wedding march was played by Mrs. Reginald Merriam, a fine young girl, who was given away by her mother. The ceremony being pretty decorated in pink and white. Later Mr. and Mrs. Macdonald left for New York, the bride travelling in a dress of monkey skin crepe with seal coat and smart hat to match. Upon their return they will reside at 22 Temple Ave., Toronto.

United Church Y.P.S. Held Delightful Meeting
The meeting of the Young People's Society on Monday evening reached the high-water mark. Literary night in the society always brings forth a fine program and this night kept up the reputation. The meeting was open to the adult members of the congregation and a number seized the opportunity for enjoyment and profit. The captivated and versatile Klipping was the subject of the evening. In keeping with the topic Miss Kathleen Penner read in admirable fashion her "The Duet," brilliantly given by Misses G. Breese and M. Black, was deservedly loudly applauded. Then came the piece de resistance. For more than forty minutes Miss Miller of Owen Sound waded a spell over the audience and held them fast in an interest that never flagged. By copious quotations and interpretation of Kipling which will not soon be forgotten. At the close a delightful lunch was served.

Luxuries Once But Necessities Now
PRACTICALLY any Canadian citizen may own today an automobile possessing elements of beauty, style, comfort and efficiency which no amount of wealth could have commanded a dozen years ago. For the automobile industry has outgrown its original function as a supplier of transportation, and has in an amazingly short time, brought about the refinements which are exemplified in the present-day General Motors car. Since its foundations first were laid sixty years ago, this institution has believed that every Canadian has a right to the best his country produces, has a right to satisfy his sense of beauty, his desire for comfort, his need for dependability. General Motors has at its command the master minds of the industry. It has the finest automotive research laboratories and the greatest automobile proving grounds in the world, wherein have been pioneered and developed some of the industry's most revolutionary advances. And General Motors has used its prosperity and success unstintingly in improving the quality and increasing the value of its products. It is thus that General Motors of Canada has played its part in translating once-inconceivable luxury into terms of every-day necessity.
