"Worth its weight in gold" Says Ottawa Matron

Mme. Beatrice Charlebois could not hold pen to write. Nerves completely shattered, health ruined. Now alert, vigorous and strong, she gives praise to Tanlac

The two-year ordeal which she passed through before Tanlac came to her permanent relief, was recently described by Mme. Beatrice Charlebois, of 22 Rose St., Ottawa.

"What I endured in that time could not be told," she said. "I was so weak I could hardly walk. My appetite was poor, and my stomach gave no end of trouble. Gas and pains would bring on fainting spells.

"My nerves were so completely shattered that I jumped in fright every time the doorbell rang. My hand trembled so that it could not hold the pen to write my name. Night after night I've gone without sleep, too nervous to lie still for even a few moments. Even my housework became too much for me.

"I tried all kinds of remedies in those two years, but can honestly say Tanlac gave me my first real relief. It built me up so that I've gained 11 lbs., eat and sleep fine and have nerves as

calm and steady as ever. Tanlac is worth its weight in gold."

Build up your health on Tanlac, nature's own tonic made from roots, herbs and barks. Your druggist has it. Over 52 million bottles sold.

DELIGHTLUF HOLIDAY LOCATION

Algonquin Park, in Ontario, is one of the Dominion's charming holiday spots, particularly for the lover of fishing, canoeing and other aquatic sports. Here a canoeist is shown making his way through the passage which leads into St. Andrew's Lake, one of the beauty spots of this delightful holiday resort.—Canadian National Railways photograph.

CANADA'S NEW INDUSTRY

Of interest in connection with the Canadian pulp and paper industry is the progress which is being made in the manufacture of rayon and other fabrics utilizing artificial silk, one of Canada's newest, but fast developing industries. According to report Canadian Celanese Limited, a large enterprise which was attracted to the Eastern Townships of Quebec in 1926 is just on the point of production. This company, registered in Canada last year, acquired the sole rights for the Dominion of Canada and its dependencies of the Dreyfus patents and process for the manufacture of cellulose acetate, artificial silks, etc. The factory has been in process of erection on a site of 170 acres at Drummondville, about sixty miles from Montreal.

Great interest has been exhibited in these fabrics in Canada. Artificial silk imports into Canada have been steadily rising. Total imports of this nature in the first nine months of the present fiscal year had a value of $4,075,436, as compared with $3,734,267 in the year before, and $2,542,562 in the year before that. A market for yarns has been opened principally with the cotton trade, with the result that already cotton mills in Canada are putting out large quantities of mixed cotton "celanese" fabrics. The Canadian knitting industry is likewise adopting "celanese." In the course of the past year the new company sold over $1,090,030 worth of fabrics and yarns in Canada, and the future is considered bright for the industry.

MISTAKES MOTHERS MAKE IN CARE OF LITTLE ONES

Many mothers give their children solid foods at too early an age and say proudly that their babies "eat everything that grown-up people do." Such a course is almost certain to bring on indigestion and lay the foundation of much ill-health for the little one.

Other mother administer harsh, nauseating purgatives which in reality irritate and injure the delicate stomach and bowels and at the same time cause the children to dread all medicine.

Absolutely no meat should be given to a child until it reaches the age of 18 months, and then only if approved by the doctor. For medicine, all strong, disagreeable oils and powders should be abandoned and Baby's Own Tablets given instead.

Baby's Own Tablets are especially made for little ones. They are pleasant to take and can be given with absolute safety to even the new-born babe. They quickly banish constipation and indigestion, break up colds and simple fevers and make the cutting of teeth easy. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

THIS GREAT TONIC RENEWS STRENGTH

Simply Because it Enriches and Builds Up the Blood

In no trouble is delay or neglect more dangerous than in anaemia, which means poverty of the blood. It is very common in young girls and in persons who are overworked, or confined within doors. It makes its approach in so stealthy a manner that it is often well developed before its presence is recognized. But taken in time there is a tonic that so enriches and purifies the blood that good health and strength soon comes to the former weak, anaemic sufferer. This tonic is Dr. Williams' Pink Pills, which for years have been the most successful blood-builder known, and have credit for restoring to good health thousands and thousands of people who have suffered from some of the many ailments that come through weak, watery blood.

The correction of anaemic conditions by Dr. Williams' Pink Pills is as certain as anything can be. As proof of this Miss Margaret A. Smith, Burgoyne, Ont., says: "After having a severe attack of jaundice I was left in a very weak and run-down condition. I was pale and my nerves on edge. I could not sleep at night and would toss and turn for hours at a time. I finally decided to try Dr. Williams' Pink Pills, and soon began to feel better, and after taking a few more boxes of the pills I felt as strong as ever, and could thoroughly enjoy my rest at night. Now, I always recommend these pills to any friends who may be ailing."

Better sleep, steady nerves, improved appetite, increased vigor: all these can be yours by taking Dr. Williams' Pink Pills. Begin them to-day. Sold by all medicine dealers, or by mail post paid at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

The Nation's Birthday

Ring out the joy bells! Once again,
With waving flags and rolling drums,
We greet the Nation's birthday, when,
In glorious majesty, it comes.
Ah, day of days! Alone it stands,
While, like a halo round it cast,
The radiant work of patriot hands,
Shines the bright record of the past.

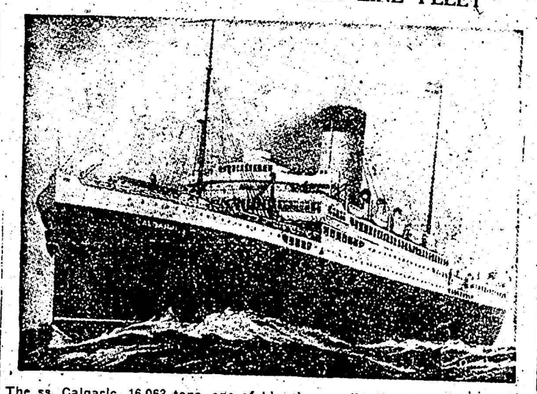
Among the nations of the earth,
What land hath story like our own?
No thought of conquest marked her birth;
No greed of power was ever shown
By those who crossed the ocean wild,
That they might plant upon her soil
A home for Peace and Virtue mild,
And altars rear to Freedom's Girl.

Mary E. Vandyne.

Nothing works out right. In a town where you can park as long as you want to there is no reason why you should want to.

Minard's Liniment for dandruff.

ADDED TO THE WHITE STAR LINE FLEET



The ss. Calgaric, 16,063 tons, one of the largest ships of the White Star Line Canadian Service, is the latest addition to the fleet of steamers recently added to the St. Lawrence route.

The Calgaric will be a binding link between Canada and Scotland because she will maintain a regular and direct service to Glasgow before completing her eastbound voyages at Liverpool.

The Calgaric has five decks including the boat deck. The public rooms are located on "A" deck which is glass enclosed thereby enabling passengers to enjoy daily exercise irrespective of the weather. The lounge, bulkheads, fire extinguishing apparatus are grouped on this promenade deck, for the smoke room and the verandah cafe tus, hairdresser's shop, a dark room for photographers, and a general shop.

Another lounge, and the gymnasium are on "B" deck, the accommodation on which also includes suites and a suit of which a number of staterooms all of which are equipped with beds instead of the steamer.

In addition the offices are on this deck, "C" deck is utilized for staterooms and the same applies to "D" deck with the exception that the dining saloon is on the latter.

One of the great features of the steamer is the elevator service connecting all decks. The steamer is fitted with wireless apparatus and submarine signalling apparatus, water tight bulkheads, emergency lighting plant, combined semaphore and Morse Signal apparatus, bilge keels, fireproof bulkheads, fire extinguishing apparatus, hairdresser's shop, a dark room for photographers, and a general shop.

Special attention has been given to the ventilation of all rooms as a result of which fresh air is carried to all parts of the steamer.

Beauty and the Spring Clean-Up.

"Oh, let's go round by Aylmer: I wouldn't miss those flowering shrubs for anything!"—That's what all the motorists say who travel the roads and highways within fifty miles of the little town in Elgin County. All because the town council and the householders have worked together to make the boulevards something more than a series of grass plots. They have planted spiren (bridal wreath) between the trees bordering the roadway, and when it blooms, the streets are a thing of beauty.

To be beautiful a town must, of course, be clean. And May is the month for the town clean-up. It is not a difficult task if everyone does his part, and it can mean big things for the town. A better town means better business and better health; a cleaner town means a better town for the children, and a more attractive town for the young people. Rubbish can mostly be burned, and the rest collected and buried in the town dump. Vacant lots can be turned from unsightly nuisances to garden plots by the school children in competitions promoted by business men or the horticultural society, the flowers made into weekly donations for the sick and shut-in at home or in hospitals, sanatoria, &c., while both flowers and vegetables can be entered for prizes at the school fair.

One objective of the clean-up, however, is to do away with every possible breeding-place for flies. The fly that looks so timid and harmless in May is the diarrhoea fly that carries death to the baby in July; it is the typhoid fly that spells serious sickness to hundreds during the summer season; so swat the fly in May. "Better kill one fly in May than a million in August." Covered garbage, fly-proof privies, and fly-traps, are the first shots in the campaign. Every man, woman and child can help by killing every fly they see especially in May and June.

1926 and Tobacco

Last year the tobacco growers in Western Ontario produced leaf to the value of $6,000,000 from a mere 30,000 acres. This is almost a quarter of the value of all wheat produced in the province. In the present year the tobacco acreage will likely run to 45,000, or double that devoted to the fragrant weed in 1925. Good tobacco land can still be bought in Essex and Kent counties for $150 to $200 per acre; but this opportunity may not last much longer as the stimulus of successful crops is already being felt.

Conservative and Liberal

Saskatoon Western Producer (Prog.): The visitor to Canada must have difficulty in understanding political names. Quebec has become the most Conservative province in the Dominion. She is developing her great natural resources by means of concessions and assistance to private corporations. Quebec, as a consequence, is becoming the paradise of the big financial interests.

For all pain—Minard's Liniment.

There is not a man or woman, however poor they may be, but have it in their power, by the grace of God, to leave behind them the grandest thing on earth, character; and their children might rise up after them and thank God that their mother was a pious woman, or their father a pious man.—Norman Macleod.

Firestone

Dips the Cords of the Carcass in a Rubber Solution!

Here you see one of the cords, highly magnified, from a Firestone Gum-Dipped Balloon Tire carcass. The end is unravelled into 15 smaller cords, composed of millions of cotton fibers. Firestone dips all the cords in a rubber solution. Every fiber is saturated and insulated with rubber, adding great strength and enabling the cords to flex with minimum friction.

Go to your nearest Firestone Dealer to-day. He will provide these "Better Tires" along with helpful service, which means extra mileage, safety and comfort.
