Walters Falls

Mr. and Mrs. Harvey Acheson and little son of Detroit spent the weekend at his parental home.

Mr. W. I. Seabrook returned home on Saturday from a few days visit in London.

Mrs. R. H. Olmstead accompanied her daughter home to Burford last Wednesday.

Rev. Mr. Forth of Meaford is to be in charge of the service in the United Church next Sunday evening.

Miss Agnes Caswell of Holland Centre spent a few days last week with her grandmother, Mrs. McQuaker.

Mr. Morwood, who has been running a cobbler's shop for the past three months in our village, has moved to Flesheron where he will open a shop. We wish him every success.

Mrs. Meek of the Department of Agriculture of Alton, addressed a number of ladies in the hall on Monday afternoon. Mrs. Meek is a very fluent speaker and speaks a great deal from practical experience.

Want Advs.

25 Words or under, 35 cents. One cent for each additional word from 25 words upwards.

Baseball League

At a meeting held in Flesheron on Thursday evening of last week the Centre Grey Baseball League was re-organized and officers were elected as follows:

President, Dr. H. G. Marshall of Dundalk.

1st. Vice-President, Mr. Russell Ellis of Kimberley.

2nd Vice-President, Mr. F. J. Thurston of Flesheron.

Secretary-Treasurer, Mr. H. I. Graham of Vandeleur.

Three teams, Dundalk, Flesheron and Kimberley, have signified their intention of playing this season. Vandeleur and Markdale have not yet made any move in connection with re-organization and unless they do so before Monday evening next, when the schedule of games will be drawn up, they will be out of it for this year.

Here and there... notes will be sent to you in the next issue of the Chatsworth Banner.

Canadian hold the record for eating stress. The average Canadian last year consumed 113 pounds of tobacco according to Dr. J. H. Gault, Deputy Minister of Agriculture.

Tobacco-growing is flourishing in Western Ontario, and this year the acreage will likely run to 45,000 or double that devoted to the production of this plant in 1925. The crop last year was valued at \$6,000,000.

One of the most powerful radio stations in Canada will be erected at Red Deer, Alberta, in the near future. Stations will be operated in Calgary and Edmonton by remote control to the main station.

New Zealand will be officially represented at the World's Poultry Congress at Ottawa, July 27 to August 4. R. W. Hawke, one of the Island Dominion's best known poultry breeders, will represent that country.

Besides the game fish hatchery which will be established by the Dominion Government in the Waterloo Lakes district in Southern Alberta, a commercial fish hatchery will be established in the north. The latter will also handle certain species of game fish suitable to lake waters.

The Canadian Pacific steamship passenger traffic through the port of Saint John during the winter season of 1926-7 was over 40 per cent. greater than that of the previous season, and it is expected that the summer traffic through the St. Lawrence port will show a still greater increase.

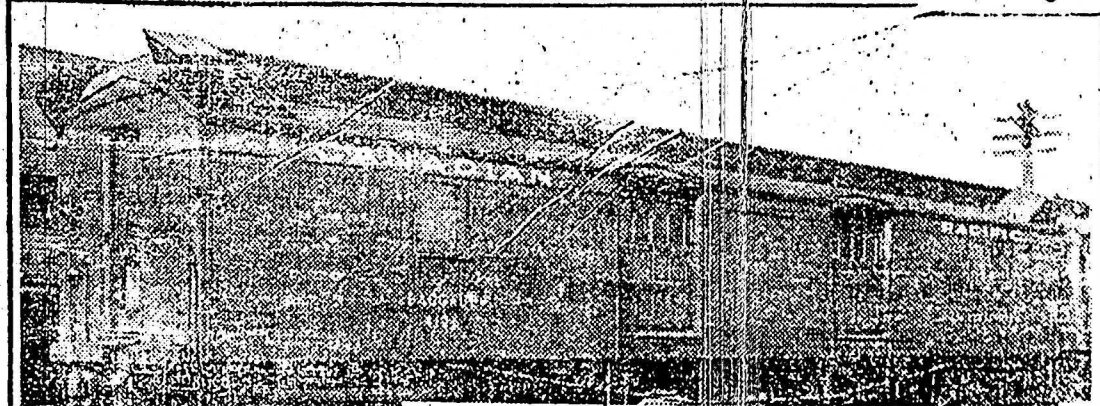

The last addition to the chain of Canadian Pacific hotels is the "Hotel Saskatchewan," located at Regina, opening on May 24. It is one of the finest of the chain of character in, keeping with the importance of the capital city of the Province which furnishes 50 per cent. of the Dominion's wheat output. The hotel is 12 stories, containing 216 bedrooms with bath, and many beautiful public rooms and administrative offices.

The Canadian Pacific Railway Company reports from Winnipeg the marketing of grain at the present rate of 180,000 bushels daily, as compared with 123,376 for the corresponding season of last year. Manitoba's 180,000 compares with Saskatchewan's 533,000 and Alberta's 366,827. Loadings are also above last year's record with 220 cars daily.

The greater portion of the bells forming the carillon to be installed in the Victory Tower, at Ottawa, were shipped from England on May 7 by the Canadian Pacific steamship "Alfour." The carillon, consisting of 33 bells, is regarded as the finest in the world, and have been cast at the famous bell foundry at Croydon. The bells are a portion of a national memorial to thousands of Canadians who laid down their lives in the Great War.

The Province of New Brunswick is rising in importance as a farming province. The report on the fur farms of Canada just issued by the Dominion Bureau of Statistics shows New Brunswick at the head of all the provinces in the matter of the yearly gain in the number of fur farms. These increased by exactly 100 in the year ending March, 1926, nearly doubling the number of the year before and standing in the later year at 206. Prince Edward Island still leads the Dominion in the number of farms, having 570 out of a Dominion total of 2,283, the latter figure comparing with 2,130 the year before. The provinces rank as follows: Prince Edward Island, 570; Ontario, 495; Quebec, 456; New Brunswick, 206; Nova Scotia, 192; Alberta and British Columbia, each 130; Manitoba, 58; Saskatchewan, 12, and the Yukon Territories, 20.

New C.P.R. Cold Storage Cars

Under old conditions there was always a certain amount of risk in shipping fruit. The entry of duty or cinders, or the high temperature of the car, was frequently the cause of fruit becoming spoiled during transit. But under present conditions, fruit not only retains its coloring, freshness and firmness when it is shipped from one point to another, but it is actually improved. For many months officials of the Canadian Pacific Railway and the Dominion Express have been carrying on experimental work with a new type of ventilated express car to be used in the handling of soft fruits by express to prairie points, and they have recently arrived at an entirely new method of ventilating express equipment, which is known as the "B. G. Ventilator."

This device allows the air to be received into the car through two spacious intakes located at the ends of the car at the roof, carried to the floor without decreasing in velocity and effectively distributed through the lower sections of the car. Three times a minute there is a complete change of air, 10,270 cubic feet of air per minute being recorded through the intakes and 9,522 through the exhausts. The new type of ventilator was tested out under full load conditions
