This story was current in Scotland

Outlook. Favorable.

Sir Herbert Holt, President, in his statement, Mr. Neill referred at address, dealt more particularly with length to the importance of call general conditions throughout the loans, which represent loans against In commenting on the annual country but touched on many devel-opments of great importance, more of the Royal Bank, but of all banks. especially from the standpoint of He pointed out that this was indicative of three things:

C. E. Neill, General Manager, re-viewed the growth of the Bank to the curities available to investors. "1. Increase in the number of seforemost position it now occupies of securities. "2. Increase lu the market value

2. Increase in speculation.
"In a growing country the develteresting insight into the part the bank is playing in all centres in opment of its resources produces new securities. Prosperous times result in the enhancement in value of Sir Horbert referred to the year's clear that the two first mentioned developments in industry, trade and causes for the increase in Call Loans developments in industry, trade and causes for the increase in can tour finance as generally satisfactory, are at least to some extent justified. The foundation for the development As to the third, it is obvious that which has taken place is sound. Sir speculation has reached a dangerous stage. The best-informed financial and brokerage firms are already operating on an unusually conservative commercial inflation. Production is orating on an unusually conservative not expanding to a point unwarrant-ed by growth and demand and it is gins, by declining to open new acnoteworthy fact that the whole ex- counts and by restricting the liability pansion has taken place during a of their customers to reasonable period characterized by moderately amounts. In times of excessive declining prices. On the whole the ineculation, the lure of easy profits financial situation in agriculture, in-cannot be denied, but speculation can dustry and commerce is more settled be checked and held within reasonthan at the beginning of the period.
