Railway Ads. Wins Prize A signal tribute has been paid by Harvard University to the quality of Canadian advertising by the selection of the Diamond Jubilee Compaign of the Canadian Pacific Railway as the best institutional campaign in North America for the year 1927.

An award of this nature is made each year by the Harvard Business School with the object of raising the standard of advertising and includes a cheque of two thousand dollars to the advertising agency which handles the campaign. The fortunate winner in this case is Mr. W. P. Tuttle, President of the Ronalds Advertising Agency of Montreal. This is the first occasion in which a Canadian campaign has been so honored. The announdement was made at a banquet held recently at the Faculty Club of Harvard. The Canadian Pacific Campaign was unique in the fact that it was bi-lingual, the advertisements being in both French and English. It illustrated and described the part played by the railway in helping to build up the Dominion of Canada during the sixty years of Confederation, and was cleverly built up on the idea o the open pages of a book. A sample of this advertising is reproduced above, clearly depicting trans

portation methods of Canada's childhood and that of to-day.
