(ON WITH LAUGHTER)

Of the high cost of living I hear men  
complain  
I cannot refrain from replying:  
"It is still somewhat cheaper on earth  
to remain."  
For just think of the high cost of  
dying.

If a man will talk, you can size him  
up quickly.  
Johnnie Rupp gazed delightedly at  
his stunning date, as she gracefully  
descended the stairway. His heart  
beated violently as he realized that all  
this beauty was his. Charmingly, she  
stood before him and whispered,  
"How do I look, dearest?"  
"Sweetheart," he murmured, as he  
took her in his arms, "you look mighty  
good to me."  
"Don't let your impressions mislead  
you," she breathed, smugly closer.

Jim: "Knowledge is better than  
wealth."  
Tom: "Yes, I know, but I'd rather  
have the inferior article."

"A forty-dollar saddle on a twenty-  
dollar horse" looked silly; and that  
may explain why a college boy doesn't  
wear a hat.

If a fellow stays more than ten min-  
utes in a phone booth while others  
are waiting, he deserves the wrong  
numbers he gets.

**Their Strange Habits**

Spring, summer, autumn and winter  
more or less come and go every  
year.  
Not only in Springfield, Massachusetts  
but all over the country, we  
hear:  
—Springfield, Mass., Union.  
Spring, summer, autumn and winter  
come each year, to practically  
all of the States, but out here in Newark, Ohio, we now  
and then feel that they are  
mixed their rates.

—Newark, Ohio, Advocate.

Spring, summer, autumn and winter  
come by and visit us every year  
as a rule.  
And we say without fear of successful  
contradiction the latter part of  
June is quite cool.

**Edward VII. Tale**

There is a fault in everything. No  
throne can fly so high that it doesn't  
have to come back to the ground for  
casualty.

An angry denial is often a confes-  
sion of guilt.

"Customer: "Well, it looks like rain."  
Milkman: "Mebbe so, but it's milk."

No, Maude, if you found a woman's  
judgment, just look at some of the  
husbands they pick.

If husbands went every place their  
wives told them to go there would be  
fewer divorces but more widows.

**A NEW ERA**

Shanghai. That a new era in the  
relations between foreigners in China  
and the Chinese actually has begun,  
in which the Chinese are being ad-  
mitted to participation in functions  
from which they hitherto have been  
excluded, was shown by several re-  
cent events.

It is known that four Chinese em-  
ployees in the maritime customs ser-  
vice had been appointed deputy com-  
missioners, from which rank they pre-  
viously had been debarred. This  
marks a breakdown of the rigid foreign  
deadline in the customs service that  
endured for more than forty years and  
is an entering wedge to Chinese con-  
trol of China's fiscal affairs.

**Equally Given Chinese**

At a meeting of foreign ratepayers  
in the British concession at Tientsin  
there was unanimously adopted a re-  
solution conferring absolute equality  
on Chinese residents and giving the  
Chinese equal membership in the  
Municipal Council.

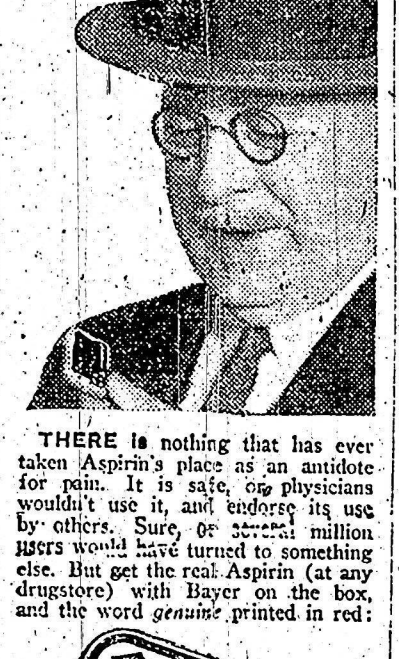

In Shanghai the Chinese ratepayers  
have elected three members of the  
Municipal Council of the international  
settlement and six members of a com-  
mittee who will take office on April  
19, the day following the annual  
foreign ratepayers' meeting.

Another innovation will be that  
Chinese will be permitted to attend  
the annual ratepayers' meeting this  
year, a position, one section of the  
Town Hall being reserved for them.  
The principle of equality before the  
meeting will be to admit the Chinese  
to admission to the public parks in the  
international settlement on the same  
conditions as those on which foreign-  
ers are admitted.

**Will Relieve Grievance**

be adopted, will remove a long-stand-  
ing grievance. The foreign class here  
seems to realize that the hour has  
struck for the old-time privileges.

**Dutch Religious Body Asserts  
Atmosphere of Games is  
Not Conducive to  
Prayer**

Amsterdam.—Hostility to the forth-  
coming Olympic Games has arisen in  
Dutch religious circles and is reported  
by seven Amsterdam  
clergymen has been made public.

The report, adopted at a recent  
meeting of the members of the Dutch  
Reformed Church of Amsterdam,  
which must not be confused with the  
better known and older Dutch Re-  
formed (Hervormde) Church, says:  
"Taking all things into considera-  
tion there appears to us to be ample  
justification for decisively opposing  
the forthcoming Olympic Games, every-  
thing is opposed to the principle  
of loving God above all else and lov-  
ing one's neighbor as oneself. The  
strongest being is here the most ex-  
alted and is raised to the place which  
God alone should occupy. The neigh-  
bor is treated as a mere means to an  
end, and the individual and personal  
dedication allows himself to be  
exploited in order to satisfy the  
craving of the masses for sensation  
and emotion."  
"Not only the character of the  
games, but also everything connected  
with them, and especially with all  
the circumstances of our community,  
are a warning and strengthening warn-  
ing against this glorification of man,  
against this cult of the herd, which  
is opposed to practically all God's  
commandments. That in such a  
spirit the religious and the secular  
life of the Netherlands can be carried  
on, needs, after what has already  
been said, no further demonstration.  
It, therefore, appears to us to be de-  
sirable that the Church councils  
should, before the opening of the  
Olympic games, address to the con-  
gregation from the pulpit a warning  
and admonition. In this con-  
nection it also appears to be desirable  
to entrust to the servants of God the  
task of drafting an appeal to the  
congregation."  
The appeal is a spiritual appeal and  
has been formed by the religious deno-  
mination with the task of undertaking  
an evangelistic campaign in Amster-  
dam during the games. A number of  
propaganda meetings already have  
been arranged and a huge tent, cap-  
able of housing 1,500 people, has  
been acquired for the holding of  
afternoon and evening meetings in the  
vicinity of the stadium. The mem-  
bers of this church also have been  
urged not to offer accommodation to  
foreign visitors to the games.

torture your little ones by forcing them  
to take ill-tasting oils when they need

Baby's Own Tablets are the perfect  
substitute for these nauseous

the child requires and are so pleasant  
to take that they are as easy to admin-

the perfect remedy for all the minor  
ailments of little ones, being abso-

drugs.

Baby's Own Tablets accomplish all  
that castor oil and other 'bad-tasting'  
remedies can do. In fact they accom-

child exhausted from its struggle  
against taking medicine. They abso-

and simple fevers and promote health-  
ful, refreshing sleep. They are sold  
by medicine dealers or by mail at 25c

"Now be careful, these canoes tip

**Norwegians Aid Canada's Development**

1. A group of Norwegians photographed  
after having spent a few years in Canada.  
2. Young girl dressed in the costume  
typical of her native country.

By introducing into Canada such  
wonderful talent as that of the Nelson  
brothers in adding and others in  
figure skating, Norwegians have won  
much favor and esteem in the eyes of  
Canadians.

Nels Nelson, C.P.R. brakeman,  
created a world's record in 1926 at  
Beverly Hills, Cal., in making a success-  
ful run down the mountain side in  
240 feet, a distance that has not yet  
been surpassed. His brother, Ivid  
Nelson, created the record for the  
Quebec jump this winter in making  
114 feet a highly creditable perfor-  
mance at the Quebec winter sports.  
At Bath and Quebec and other win-  
ter sport centres in Canada, Nor-  
wegians, as amateurs and profession-  
als, have contributed much to native  
figure skating talent. They have un-  
doubtedly shared in the training of  
the outstanding Canadian skaters,  
many of whom have won great distinc-  
tion in international and world com-  
petitions.

Out of Canada's population of 9,  
500,000 roughly 60,000 are of Norwe-  
gian origin. The annual average im-  
flux of immigrants from Norwegian  
ports is 5,000, the majority travelling  
by Canadian Pacific ships to Quebec  
and Montreal in the summer, and St.  
John, N.B., in the winter. These ves-  
sels are splendidly equipped for this  
purpose and carry as many as 500  
immigrant passengers at a time, con-  
siderably exceeding the capacity of  
other lines.

The settlers travel from Oslo and  
Christiania by the weekly service  
maintained by the Eilemann Wilson  
Steamship Line, to Hull, across Eng-  
land by the London and North Eastern  
Railway, and embark at Liverpool.  
Special C.P.R. trains run from Quebec  
westward to Winnipeg for distribution  
of the immigrants throughout western  
Canada.

The Canadian Pacific maintains  
agencies for the service of prospective  
Norwegian immigrants at Alesund,  
Bergen, Oslo, Stavanger and  
Tromsø.

Out of Baby**  
—Babies Have Nerves—  
By RUTH BRITAIN

Much of the nervousness in older  
children can be traced to the over-

regarding baby as a sort of animated

played with, but not for more than a  
quarter of an hour to an hour daily,  
beyond that being handled, tickled,  
kissed or hugged for a few drops of  
tears and smiles. Baby may be  
talked to, but not for more than a  
quarter of an hour to an hour daily,
