OWL LAFFS
BY O.W.L.
(ON WITH LAUGHTER)

Of the high cost of living I hear men complain
I cannot refrain from replying:
It is still somewhat cheaper on earth to remain,
For just think of the high cost of dying."

If a man will talk, you can size him up quickly.

Johnnie Rapp gazed delightedly at his stunning date, as she gracefully descended the stairway. His heart beat violently as he realized that all this beauty was his. Charmingly, she stood before him and whispered, "How do I look, dearest?"

"Sweetheart," he murmured, as he took her in his arms, "you look mighty good to me."

"Don't let your impressions mislead you," she breathed, snuggling closer.

Jim: "Knowledge is better than wealth."

Tom: "Yes, I know, but I'd rather have the inferior article."

"A forty-dollar saddle on a twenty-dollar hoss" looked silly; and that may explain why a college boy doesn't wear a hat.

If a fellow stays more than ten minutes in a phone booth while others are waiting he deserves the wrong numbers he gets.

Their Strange Habits.

Spring, summer, autumn and winter more or less come and go every year,
Not only in Springfield, Massachusetts but all over the country, we hear
Springfield, Mass., Union.

Spring, summer, autumn and winter come each year to practically all of the States,
But here in Newark, Ohio, we now and then feel that they have mixed their dates.
Newark, Ohio, Advocate.

Spring, summer, autumn and winter come by and visit us every year as a rule,
And we say without fear of successful contradiction the latter part of June is quite cool.

There is a limit to everything. No airplane can fly so high that it doesn't have to come back to the ground for gasoline.

A hasty denial is often a confession of guilt.

Customer: "Well, it looks like rain."
Milkman: "Mebbe so, but it's milk."

Maude, if you doubt a woman's judgment, just look at some of the fellows they pick.

Husbands went every place their wives told them to go there would be fewer divorces but more widows.

Once on a time a minister told a story like this: "On one occasion I preached to a congregation where there were fifty-seven women and four men present. This was a prayer meeting. On another occasion I preached to 326 men and three women this was in the state penitentiary."

Many a man who wouldn't take "no" for an answer is writing cheques for money.

"Is Edna dumb?"
"Is she dumb? She tried to slap the doctor when he told her she had acute dyspepsia."

THERE is nothing that has ever taken Aspirin's place as an antidote for pain. It is safe, or physicians wouldn't use it, and endorse its use by others. Sure, or several million users would have turned to something else. But get the real Aspirin (at any drugstore) with Bayer on the box, and the word *genuine* printed in red:

Aspirin
is the trade mark
(registered in Canada)
indicating Bayer Manufacture. While it is well known that Aspirin means Bayer manufacture, to assure the public against imitations, the Tablets will be stamped with their "Bayer Cross" trade mark.

London Hospitals Bar Women From Medical Careers

Number of Applicants Dwindles as Reports of Poor Practice Are Circulated

London.—London hospitals are closing their doors to women who wish to become physicians.

During the World War several of the big London hospitals opened their classes freely to young women and the opportunity was quickly seized by many girls looking for a new career.

The successful ones went out into the world with their diplomas and many set up as private practitioners. People took some time to get used to "Miss Ethel Jones, M.D.," but the novelty wore off and the woman practitioner came to be taken for granted.

But before long it became a matter of common report that some of these women doctors found themselves unable to get enough patients to make a living and had to turn to some other occupation.

As an example of what women can do in the field of medicine, the career of Dr. Mary Scharlieb, who at eighty-three years old is a prominent Harley Street physician, is being cited. Dr. Scharlieb, who is a Dame of the British Empire, keeps regular office hours and has a large practice. She is the leading woman doctor in the British Empire.

But other women who aspire to medical honors are finding their paths harder than ever, for some of the hospitals are refusing to admit and train any more students, and it seems that soon there will be only three hospitals in London open to girls for the purpose of training, one being the Royal Free Hospital for Women, where the students are all women.

Officials of the Charing Cross Hospital, one of those which is shutting its doors on the young women, say that the number of applicants has so greatly dwindled in the last two years that, as far as this particular hospital is concerned, the question is solving itself. But anyway, these officers say, the profession is overcrowded.

To this the women reply that they have proved themselves as capable as men in many branches both of medicine, and surgery, so why not divide the openings between men and women.

The cause of the women students has been taken up by the National Union of Societies for Equal Citizenship which has decided to advise its supporters to subscribe only to hospitals whose schools are open to both sexes. The union also declares that, far from women being unable to succeed as doctors, there is now a bigger demand for their services than ever before.

John Chinaman Gets More Privileges

New Jobs Are Given To Natives in Shanghai From Which Formerly They Were Debarred

A NEW ERA

Shanghai That a new era in the relations between foreigners in China and the Chinese actually has begun, in which the Chinese are being admitted to participation in functions from which they hitherto have been excluded, was shown by recent events.

It is known that four Chinese employees in the maritime customs service had been appointed deputy commissioners, from which rank they previously had been debarred. This marks a breakdown of the rigid foreign deadline in the customs service that endured for more than forty years and is an entering wedge to Chinese control of China's fiscal affairs.

Equally Given Chinese

At a meeting of foreign ratepayers in the British concession at Tientsin there was unanimously adopted a resolution conferring absolute equality on Chinese residents and giving the Chinese equal membership in the Municipal Council.

In Shanghai the Chinese ratepayers have elected three members of the Municipal Council of the international settlement and six members of a committee who will take office on April 19, the day following the annual foreign ratepayers' meeting.

Another innovation will be that Chinese will be permitted to attend the annual ratepayers' meeting this year as spectators, one section of the Town Hall being reserved for them. The principal resolution before the meeting will be to admit the Chinese to admission to the public parks in the international settlement on the same conditions as those on which foreigners are admitted.

Will Relieve Grievance

This resolution, which is certain to be adopted, will remove a long-standing grievance. The foreign class here seems to realize that the hour has struck for the old-time privileges.

The northern military situation is uncertain, although no reliable news is available. The best information indicates that only minor clashes have occurred, the expected general offensive not having been started.

Bow ties are artistic, we are told, and show a man's natural bent. Though they are not artistic, so do

Norwegians Aid Canada's Development

1. A group of Norwegians photographed after having spent a few years in Canada.
2. Young girl dressed in the costume typical of her native country.

By introducing into Canada such winter sport talent as that of the Nelson brothers in ski-jumping, and others in figure skating, Norwegians have won much favor and esteem in the eyes of Canadians.

Nels Nelsen, C.P.R. brakeman, created a world's record in 1925 at Revelstoke, B.C., in making a successful leap down the mountain side of 240 feet, a distance that has not yet been surpassed. His brother, Ivind Nelsen, created the record for the Quebec jump this winter in making 114 feet, a highly creditable performance on that particular jump.

At Banff and Quebec and other winter sport centres in Canada, Norwegians, as amateurs and professionals, have contributed much to native figure skating talent. They have undoubtedly shared in the training of the outstanding Canadian skaters, many of whom have won great distinction in international and world competitions.

Out of Canada's population of 9,500,000 roughly 69,000 are of Norwegian origin. The annual average influx of immigrants from Norwegian ports is 5,000, the majority travelling by Canadian Pacific ships to Quebec and Montreal in the summer, and St. John, N.B., in the winter. These vessels are splendidly equipped for this purpose and carry as many as 900 immigrant passengers at a time, considerably exceeding the capacity of other lines.

The settlers travel from Oslo and Christiania by the weekly service maintained by the Elleman Wilson Steamship Line to Hull, across England by the London and North Eastern Railway, and embark at Liverpool. Special C.P.R. trains run from Quebec through to Winnipeg for distribution of the immigrants throughout western Canada.

The Canadian Pacific maintains agencies for the service of prospective Norwegian immigrants at Aalesund, Bergen, Oslo, Stavanger and Trondhjem.

Dutch Clergy Condemn Olympics

Dutch Religious Body Asserts Atmosphere of Games is Not Conducive to Prayer

Amsterdam.—Hostility to the forthcoming Olympic Games has arisen in Dutch religious circles and a report on the subject by seven Amsterdam clergymen has been made public.

The report, adopted at a recent meeting of the council of the Dutch Gereformeerde Church of Amsterdam, which must not be confused with the better known and older Dutch Reformed (Herforme) Church, says:

"Taking all things into consideration there appears to us to be ample justification for decisively opposing the forthcoming Olympic Games. Here everything is opposed to the principle of loving God above all else and loving one's neighbor as oneself. The strongest being is here the most exalted and is raised to the place which God alone should occupy. The neighbor, by craving for notoriety and personal glorification, allows himself to be exploited in order to satisfy the craving of the masses for sensation and emotion.

"Not only the character of the games, but also everything connected with them must compel us with all the earnestness at our command to issue a warning and strengthening word against this glorification of man, against this cult of the herd, which is opposed to practically all God's sacred commands. That in such a sphere the prayer that the Saviour taught his disciples cannot be sent above, needs, after what has already been said, no further demonstration. It, therefore, appears to us to be desirable that the Church councils should, before the opening of the Olympic games, address to the congregations from the pulpits a word of warning and admonition. In this connection it also appears to be desirable to entrust to the servants of God the task of drafting an appeal for submission to, and approval of, the Church councils."

Meanwhile a special committee has been formed by the religious denomination with the task of undertaking an evangelistic campaign in Amsterdam during the games. A number of propaganda meetings already have been arranged and a huge tent, capable of accommodating 1,500 people, has been acquired for the holding of afternoon and evening meetings in the vicinity of the stadium. The members of this church also have been urged not to offer accommodation to foreign visitors to the games.

WHY TORTURE THE LITTLE ONES

Mothers, do you think it fair to torture your little ones by forcing them to take ill-tasting oils when they need a laxative medicine Don't you find that the child's dread of these medicines often do more harm than good?

Baby's Own Tablets are the modern substitute for these nauseous doses. They are the very medicine the child requires and are so pleasant to take that they are as easy to administer as a glass of water. They are the perfect remedy for all the minor ailments of little ones, being absolutely guaranteed free from injurious drugs.

Baby's Own Tablets accomplish all that castor oil and other bad-tasting remedies can do. In fact they accomplish more as they do not leave the child exhausted from its struggle against taking medicine. They relieve teething pains, banish indigestion and constipation, break up colds and simple fevers and promote healthful, refreshing sleep. They are sold by medicine dealers or by mail at 25c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

"Now be careful, these canoes tip over very easily." "Would it be safe," began the girl timidly, "to—to—" "Yes?" "To shift my caramel to the other side of my mouth"

Keep Minard's Liniment handy.

NEW STRENGTH FOR WEAK STOMACHS

Indigestion Disappears When the Blood is Enriched

The most urgent need of all who suffer from any form of indigestion is a tonic to enrich the blood. Pain and distress after eating is the way the stomach shows that it is too weak to perform the work of digesting the food it takes. New strength is given to weak stomachs by Dr. Williams' Pink Pills because they purify and enrich the blood. This accounts for the speedy relief in stomach disorders that follows the use of this medicine. The value of this medicine in cases of indigestion is shown by the case of Mrs. George W. Johnson, Lequille, N.S., who says:—"I have no hesitation in recommending Dr. Williams' Pink Pills. I was greatly distressed with indigestion. Always after eating I suffered from pains in the stomach and other distressing symptoms. I tried different remedies, but without getting relief. I was advised by a friend to try Dr. Williams' Pink Pills, which I readily did, and I am feeling very grateful ever since to the person who gave me the advice. The very first box helped me and before I had taken a half dozen boxes I was restored to my former good health and all traces of this distressing trouble disappeared. It is now about a year since I took the pills, and I have not been troubled with indigestion since. I have taken every occasion to recommend Dr. Williams' Pink Pills to those in need of a medicine and shall continue to do so."

A little booklet, "What to Eat and How to Eat," will be sent free to anyone asking for it. You can get the pills from any medicine dealer or by mail at 50c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Franco-German Collaboration Factor in Peace

M. Laurent Tells of Gigantic Enterprises Which French People Have Begun

Paris.—The Franco-German economic collaboration ha salready produced astonishing results. In consequence of the German payments in kind and cash France has been encouraged to begin gigantic enterprises which other wise would have remained untouched. Therefore, though it is true that France was compelled largely to finance the reconstruction of the northern regions, nevertheless other work was undertaken only because of German aid. So declares the Labor leader, Marcel Laurent.

Big national schemes are due to this contribution, not because the contribution covers the costs but because it stimulates and forces the authorities to prepare plans. Thus it is pointed out that vast port improvements have now begun at Dunkirk, Boulogne, Leitavre, St. Nazaire, and Larochelle and plans are drawn up for improvements at Marseilles. Hydro-electric works have been erected on many waterways, notably on the canal from Strassburg to Basle and on the River Truyere.

M. Laurent further enumerates the electrical works established by waterfalls in the Alps and the electrification of railways in the south. Paris itself benefits by far-reaching housing schemes. The colonies, especially in North Africa, also share in this extraordinary awakening of official enterprise.

It would not have been possible, asserts M. Laurent, had there not been a forced Franco-German economic collaboration. It is of a compulsory character, and should, when possible, be abandoned.

Nevertheless, M. Laurent; though regarded as advanced, argues strongly against any abolition of reparations, because it is raparations which have transformed France, and by a curious paradox have hastened the Franco-German political as well as economic rapprochement, which is a condition of European peace.

Don't Make a Toy Out of Baby —Babies Have Nerves

By RUTH BRITTAIN

Much of the nervousness in older children can be traced to the over-stimulation during infancy, caused by regarding baby as a sort of animated toy for the amusement of parents, relatives and friends. Baby may be played with, but not for more than a quarter of an hour to an hour daily. Beyond that, being handled, tickled, caused to laugh or even scream, will sometimes result in vomiting, and invariably causes irritability, crying or sleeplessness.

Fretfulness, crying and sleeplessness from this cause can easily be avoided by treating baby with more consideration, but when you just can't see what is making baby restless or upset, better give him a few drops of pure, harmless Castoria. It's amazing to see how quickly it calms baby's nerves and soothes him to sleep; yet it contains no drugs or opiates. It is purely vegetable—the recipe is on the wrapped. Leading physicians prescribe it for colic, cholera, diarrhea, constipation, gas on stomach and bowels, feverishness, loss of sleep and all other "upsets" of babyhood. Over 25 million bottles used a year shows its overwhelming popularity.

With each bottle of Castoria, you get a book on Motherhood, worth its weight in gold. Look for Chas. H. Fletcher's signature on the package so you'll get genuine Castoria. There are many imitations.

16 Rules of Health?

1—Ventilate every room you occupy.
2—Wear light, loose and porous clothes.
3—Seek out-of-door occupations and recreations.
4—Sleep out-of-doors if you can.
5—Avoid overeating and overweight.
6—Avoid excess of high protein foods, such as meat, fresh foods, eggs; also excess of salt and highly-seasoned foods.
7—Eat some hard, some bulky, some raw foods daily.
8—Eat slowly and taste your food.
9—Use sufficient water internally and externally.
10—Secure thorough intestinal elimination daily.
11—Stand, sit and walk erect.
12—Do not allow poisons and infections to enter the body.
13—Keep the teeth, gums and tongue clean.
14—Work, play, rest, and sleep in moderation.
15—Breathe deeply; take deep-breathing exercises several times a day.
16—Keep serene and whole-hearted.

Bobby (to his sister's beau)—"Say, Mr. Hangoff, ain't you afraid o' Lil?" Mr. Hangoff—"Why, no. Whatever put such an idea in your head?" Bobby—"Pa did. I heard his say to Ma a little while ago, 'I guess Lil'll get his scalp to-night. She's gone up t'put her war paint on.'"

Grrrah! The train drew up with a mighty crash and shock between stations. "Some one pulled the communication-cord!" said the guard. The express has knocked our last car off the rails. Take us four hours before the track is clear!" "Great Scott! Four hours! I am supposed to be married to-day!" groaned a passenger. The guard, a bigoted bachelor, raised his eyebrows suspiciously. "Look here!" he ejaculated, "I belive you are the chap who pulled that cord!"

Ask Equal Honors

Freedom League Contends More Women Are Entitled to Knighthood and Peerage

British women, a great number of whom rose to distinction in 19— are asking for more honors of knighthood and peerage as public recognition of their work.

Out of 193 honors granted by King George V. at the beginning of 1928 only twenty-five were conferred on women, and these were of the low order. The Women's Freedom League, in view of women's records of service to the establishment, considers this an unfair reflection on their public activities.

"Peerages have been given to many Conservative members of Parliament and a former Governor of Nigeria," the league declared in a formal statement. "Why was the Duchess of Atholl, the parliamentary secretary to the Board of Education, not given a similar distinction?"

Of thirty men who won knighthood twelve, according to Miss Frances Underwood, secretary of the league, were granted it for political and public services; two of the men were distinguished surgeons and one a journalist; but no woman in these spheres was given an equivalent honor.

"There are a great many women just as deserving as men, and we particularly think that women should be made privy councillors," Miss Underwood said. "I do not see why women should not be given peerages, baronetcies and knighthoods. There should be no distinction whatever now between men and women are doing the same work.

"It is the privy council which has decided that women should not be admitted to the diplomatic and consular and Indian civil services and if women went on the council I think this would be altered."

British women have past had an exceptionally successful year. More women were chosen for the office of Mayor than in any other year. The election of Lady Iveagh brought the number of women members of Parliament to seven.

Miss Elizabeth Scott, the woman architect, won the attention of the artistic world by her success in designing the winning plans for the Shakespeare Memorial Theatre. Miss Bailey was coupled with Lindbergh for the awards in the field of aviation. She created a height record for women in a light plane.

Miss Sackville-West gained the Hawthornden prize for her poem "Land." Miss Gertrude Trevelyan won the Newdigate prize; Miss Helena Harrison, the Earl Grey fellowship for work in botany, and Miss C. Elam, the Robert Madfield scholarship to the Second Empire Mining and Metallurgical Congress in Canada.

An Unsightly Skin Needs This Corrective

"It is working marvels with me," wrote a grateful man who, suffering from painful and disfiguring eczema, got complete relief, and regained a clear and healthy skin, by using TRU-BLOOD.

As its name implies, TRU-BLOOD is a true blood tonic. It removes the underlying cause of eczema, pimples, blackheads, itching rashes, boils, carbuncles and every other skin trouble due to impure or impoverished blood.

So many have benefitted from taking TRU-BLOOD, *you* should try it. Get a dollar bottle at your druggist's today, and *prove*, for yourself, its worth.

Buckley's OINTMENT is highly recommended for speeding up the healing and softening of the skin. TRU-BLOOD drives out the poisons—the ointment heals magically. Try the combination treatment.

Tones the Blood
TRU-BLOOD
Clears the Skin

Many people, two hours after eating, suffer indigestion as they call it. It is usually excess acid. "Correct it with an alkali. The best way, the quick, harmless and efficient way, is Phillips' Milk of Magnesia. It has remained for 50 years the standard with physicians. One spoonful in water neutralizes many times its volume of stomach acids, and at once. The symptoms disappear in five minutes.

WOMAN COULD HARDLY WALK

Mrs. Horn Tells how Lydia E. Pinkham's Vegetable Compound Restored Her Health

Hamilton, Ont. "I have taken Lydia E. Pinkham's Vegetable Compound and would not be without it now. I had a female trouble so badly I could hardly walk and I was all run down and could hardly get around to do my housework. I would be in bed three or four days at a time. I was told by a friend to try your Vegetable Compound. I did, and by the time I took two bottles I was beginning to get around again. I took ten bottles in all, and now I am well right again and doing my own work. I have six grown-up children and I have plenty to do. I also used Lydia E. Pinkham's Sanative Wash, and I think it is good. But I owe my health to the Vegetable Compound, and I think if more of it was used women would be better off. I would not be without it if it cost much more." Mrs. NELLIE JAMESON, 558 East Cannon Street, Hamilton, Ontario.

Do you feel broken down, nervous and weak sometimes? Lydia E. Pinkham's Vegetable Compound is excellent to take at such a time. It always helps, and if taken regularly and persistently, will relieve this condition.

Too Much ACID
