Don't Make a Toy Out of Baby —Babies Have Nerves— By RUTH BRITAIN

Much of the nervousness in older children can be traced to the overstimulation during infancy caused by the baby being treated as a sort of animated toy for the amusement of parents, relatives and friends. Baby may be played with, but not for more than a quarter of an hour to an hour daily. Beyond that, being handled, tickled, coaxed to laugh or even scream, will invariably cause irritability, crying or sleeplessness.

With each bottle of Castoria, you get a book on Motherhood, worth its weight in gold. Look for Chas. H. Eckhoff's signature on the package to tell you genuine Castoria. There are many imitations.

Minard's Liniment for Insect Bites. In Mexican campaigns the women always accompany their husbands in the army; so the soldiers are always kept in fighting trim.

Gum-Dipped Tires Save You Money. Gum-dipping is an exclusive Firestone process. It insulates and impregnates every fibre of every cord with rubber and prevents the cords from chafing against each other.

These better tires cost you no more, yet they give thousands of extra miles. See your nearest Firestone Dealer. FIRESTONE TIRE & RUBBER CO. OF CANADA LIMITED. Hamilton, Ontario. MOST MILES PER DOLLAR. Firestone Builds the Only GUM-DIPPED TIRES.

When Pain Comes. What many people call indigestion very often means excess acid in the stomach. The stomach nerves have been overstimulated, and food hours. The corrective is an alkali which neutralizes acids instantly. And the best alkali known to medical science is Phillips' Milk of Magnesia. It has remained the standard with physicians for 50 years since its invention. One spoonful of this harmless, taste-

OWL LAFFS By OWL (ON WITH LAUGHTER)

There once was a man not unique who imagined himself quite a shique. But the girls didn't fall. For the fellow at all—made only twenty a wique.

The following is said to come from Albert: "I met my friend Sandy in the street. 'Sandy,' he said, 'I wonder if you could oblige me with a cigarette?' But I thought you said you'd stop smoking," said Sandy. 'No, weel,' replied Jack. 'I've reached the first stage, I stopp't buying.'

Number will probably never again be cheap enough to use for anything but breakfast food.

"I have a chair," said the polite warrior, as the murderer was led in to be executed.

Prince of Wales May Visit East Africa. The Prince of Wales, it is announced, contemplates a tour in the autumn of this year, and is likely to be accompanied by his younger brother, the Duke of Gloucester.

When Capt. Malcom Campbell completed his world's record automobile drive at Daytona Beach, his first request was for a cup of "good, strong tea." The courageous Captain would have enjoyed Red Rose Tea because it is a blend of choicest Assam and Ceylon teas, whose characteristics above all others are strength and flavor, packed by men trained in the London tea markets. Sold by your grocer in clean, bright aluminum packages.

Sir Charles Spies, former coalition Liberal member of the British House of Commons, is concerned over foreign competition and its effects on British trades. "Drastic remedies are required," he said on arrival in Canada a few days ago on the White Star line Regina, "if Great Britain is to be restored to that position in the world which she formerly held."

NEGLECTED ANAEMIA Often Leads to the Most Serious Consequences.

In no disorder is delay or neglect more dangerous than in anaemia. Usually the first noticeable signs are pale lips and cheeks, dark warts under the eyes and a feeling of weariness. Then follow headaches, backaches, palpitation and breathlessness. The only way that anaemia can be overcome is to enrich the blood, and it is because of their wonderful blood-enriching and blood-making properties that Dr. Williams' Pink Pills have won such success in the treatment of this often most stubborn disease.

Thousands of young girls who were in an anaemic condition owe their present good health to Dr. Williams' Pink Pills. One of these, Miss Katie McKeehen, Port Hood, N.S., says: "I praise the day I began the use of Dr. Williams' Pink Pills. I had not been feeling well for some time. I was very pale, had severe headaches, dizzy spells, and occasional fainting spells. The best portion would leave me tired and breathless. In this condition I began taking Dr. Williams' Pink Pills. I continued their use until I had taken six boxes, by which time I was again enjoying good health. I hope my experience will lead other sufferers to give this medicine a fair trial."

If you are at all run-down, or weak, you should begin at once to take Dr. Williams' Pink Pills and you will soon be well and strong. These pills are sold by all medicine dealers or will be sent by mail at 50 cents a box by The Dr. Williams' Medicine Co., Brockville, Ont.

Auto Production in Canada Gains April Output 39 Per Cent. Higher Than in March

Ottawa—Automobiles produced in Canada during the month of April numbered 24,240, marking an increase of 39 per cent over the 17,473 cars produced in March, but slightly under the 24,611 cars produced in April last year. The advance in April over March was general in all types of cars; open model passenger cars rose to 3,137 from 1,445; closed model passenger cars to 5,423 from 2,967; and trucks to 292 from 237. No taxicabs or buses were made in April as against 4 in the preceding month. The 24,240 cars produced in the month under review were valued at \$16,588,420, f.o.b. factory, and of this total 12,552 cars worth \$13,713,905 were intended for sale in Canada and the balance, or 6,678 cars valued at \$2,874,515, were made for export.

Customs records show that 6,150 cars were imported into Canada during April as compared with 6,114 in the previous four months and 4,917 in April of a year ago. Exports cleared from Canadian ports during April showed 3,656 cars as against 3,592 in March and 4,687 in April, 1927. A calculation of the number of cars made available for distribution in Canada during April, made by adding the imports of 6,150 cars to the 17,562 made for sale in Canada, gives a total of 22,712 cars. For the first four months of the year the number of cars made available in Canada, thus computed, totalled 60,935.

For the four months ending April, 1928, the cumulative production numbered 662,655 cars having a total value, f.o.b. plant, of \$43,200,132. While this output was 23 per cent less than the figures for the corresponding period of last year and the value was 15 per cent lower, conditions generally in the industry were nevertheless much improved in April.

FIGHTING FOR BABY'S HEALTH Is the Constant Care of Every Young Mother.

The young mother has a constant care in looking after the welfare of her little ones. Childhood ailments come so suddenly—sometimes within a minute's warning—the mother may have a very sick baby on her hands before help can be obtained. That is unless she has a remedy in the house which she can give at once to the baby for any of the many minor ailments of babyhood and childhood.

Such a remedy is found in Baby's Own Tablets. Thousands of mothers throughout the country always keep a box of the Tablets on hand and they proclaim them to be without an equal for sweetening baby's stomach; regulating his bowels, and thus driving out constipation and indigestion, colds and simple fevers, and making the dreaded teething period easy.

Baby's Own Tablets are an absolutely safe remedy. They are guaranteed to be free from opiates, or any other narcotic drug which are so harmful to the future welfare of the child. Mothers who give him Baby's Own Tablets when he is ill, or better still give him an occasional dose of the Tablets to ward off illness. The Tablets are sold by medicine dealers or will be sent to any address, post-paid at 25 cents a box by addressing The Dr. Williams' Medicine Co., Brockville, Ont.

Old-Time Ships 1500-Year-Old Swedish Craft Shed New Light on Seaman'ship

Stockholm—Two pre-Viking ships, 1,500 years old, and one car estimated to be 5,000 years old, have been found in Sweden, shedding new light upon ancient Swedish seafaring and seaman'ship. The car, made for paddling, was found deep down in a bog in Dalecarlia, and the wreck of the historical museum in Stockholm estimated its age to the pollen test. This test consists in examining a piece of the soil where the object was found and where pollen abounds. The geologists have drawn up immigration maps for various plants, saying the age of their existence in Sweden. On this special occasion they found no pine pollen in the mud examined, and knowing that the pine entered Dalecarlia some time after 3,000 years B.C., they accordingly dated the car as belonging to an earlier period.

This pollen analysis discovered by the Swedish botanist Lagerholm and perfected by another Swedish ecologist, Von Post, is looked upon as a revolutionizing method of investigation of early geological periods. The ancient ships were found on the western shore of Sweden in the province of Halland. They had a main mast of oak timber and fourteen meters long, four meters wide and built on ribs and nailed together by wooden pegs. They were comparatively well preserved.
