Bite in a Baby
Awful at Three
And It's Dangerous
in Each Britain

Snacking does not seem in a
habit of disgusting in the three
and sometimes it hangs on
for sixteen! The habit
is an ill-formed mouth and
it always interests
pinching the hand, attacking mit-
tens, or cardhouse cuts,
or bending the arms at
the wrists are some of the ways to
this habit.

This habit—regularly in
and responsible for weak
and constipation in babies,
and they hardly ever
get away from it. This
habit must be stopped
as soon as possible. Every mother should keep a
bottle of hand oil to use in case of
cough, diarrhea, gas on stomach and bowels, constipation, loss of
sleep, or when baby is cross and
restless. It gives a sense of security over
baby's system enables him to get full
nourishment from his food helps him
grow, strengthens his bones.

Castoria is purely vegetable and
juiceless—the recipe is on the wrap-
per. Physicians have prescribed it
for over 20 years. With each pack-
age, you get a valuable book on
Motherhood. Look for Mrs. H.
Fletcher's signature on the wrapper
so you'll get the genuine.

ISSUE NO. 21—28

OWL LAFFS (ON WITH LAUGHTER)

Dick—if I mailed a letter addressed to "the dumbest man in town," I wonder who they'd deliver it to?

Oswald: (innocently)—They probably return it to the sender.

Lady of the House—Well, I'm sorry to lose you, Kate, but I suppose you are leaving for a better place.

Departing Cook—Oh, no, ma'am; I'm leaving to get married.

Custumer to Waitress—is your apple pie fresh?

Waitress—I don't know. I've only been here two weeks.

A bank advertising in an exchange says there is one commodity in which it pays to be extravagant—courtesy.

Mrs. Hicks: "I don't take any stock in these fathoms cures brought about by the laying on of hands."

Mrs. Wicks: "Well, I do; I cured my little boy of the cigarette habit that way."

"Even if she does rouge nicely, find out if she can cook. Two can't live on rouge."

Married men have one advantage over bachelors. The meek shall inherit the earth.

Bride: "What happened in court, dear?"

Groom: "The Judge gave me ten dollars or ten days."

Bride: "I hope you took the money."

Teacher (helping child unfasten coat): Did your mother hood this coat for you?

"No," was the astonishing reply, "she bought it."

Woman wants but little here below but she wants a long time in which to put it on.

Troubles never come singly; they come in droves.

Eager youth—One kiss from you and I could die happily."

Bored—"Well, here's your kiss."

Willie: "Ma, if the baby was to eat tadpoles, would it give him a bass voice like a frog?"

Mother: "Good gracious, no!" They'd kill him."

Willie: "Well, they didn't."

This is a funny world." A business man 35 years old is a "kid," while a ball player is an "old man" at that age.

AH, FAME.

I'd like to win my share of fame but I can not, to save my soul, ...

Swim channels, win at any game, Or sit forever on a pole.

New 40 oranges I can't eat;

No wonder Fortune's son won't heat Down on me with her smile.

Hello, Jones, where did you get that black eye?"

"Oh, it was only a sweetheart's quarrel."

Sweetheart quarrel? Why, your girl didn't give you that, did she?"

No! It was her other sweetheart."

We're so suspicious nowadays," said a man. "We never know when our wife kisses us when we come in the house, whether it is done for affection or investigation."

The heavy penalties were imposed after Judge Pickett discovered that the two women had deliberately lied to the witness stand while giving testimony. New Haven Register.

Some people won't stop at anything to get out of court room duty.

First Man—Do you belong to a farm organization?

Second, I do. I'm married.

Third—It is a strange thing, but true, that the biggest fools have the most beautiful wives.

Wife (pleased)—Oh, you flatten.

"I can't stand anything but bonded stuff," said the stenographer as she reached for another sheet of paper.

It is well to recognize that the winner in an ornament race can be named in advance—Nobody.

Still, the fellow who believes in predestination jumps just as far at the pound of a—a honk—Schenectady Gazette.

Snacking does not seem in a habit of disgusting in the three and sometimes it hangs on for sixteen! The habit is an ill-formed mouth and it always interests pinching the hand, attacking mittens, or cardhouse cuts, or bending the arms at the wrists are some of the ways to this habit.

Minard's Liniment for Insect Bites.

Lake Dropped Two Inches

An excellent official opening of the western lakes and rivers was made this Spring when several guests of the Banff Springs Hotel commenced a big motor bus, for the five-mile journey to Lake Minnewanka, were several good catches were made.

The best sport fell to G. Andrews, of Banff, who captured a thirty-pound trout after a long struggle. He practically swears that the water dropped two inches when the trout had been landed.

Straw Hats Made Compulsory For Fascist Students in Italy

Florence, Italy. The "varsity straw" will be compulsory headgear for Italian college youths this summer.

Of a special model of "sober and elegant" lines, it will be incumbent upon all university undergraduates belonging to the Fascist groups to wear it. After the manner of Greek letter fraternity hats worn by many American students, the Fascist hats will have the bands of the colors of the students' particular faculty—medicine, science, literature, law or philosophy.

To tell what particular university a lad belongs to, however, it will be necessary for him to take off his hat. The university or college color will be worn as lining.

One dealer in every varsity town will be allowed to stock the "negligent university" and he must give assurance to the local Fascist authorities that he will sell the hats only to students with proper credentials, an engagement which is taken by post dealers in fraternal fraternities and cravats in America.

The object of this, of course, is to boom the national straw hat industry, which has suffered in recent years from the fad of going hatless in the summer. Deputy Turati, secretary of the Fascist party, conceived the idea and gave orders for its application.

Monument to Heroic War Nurse

THOMAS ARKLE CLARK, DEAN OF ILLINOIS UNIVERSITY, PAYS TRIBUTE TO CANADIAN MEMORIAL

Mount Edith Cavell was named in given much honor to the man who won distinction or gave his life in war and a visit to Jasper National Park inspired the following article by Thomas Arkle Clark, Dean of Men, University of Illinois, which was reprinted in the Chicago Daily News.

"When Simon Garvey died—that was a good many years ago—he left a considerable sum of money to put up a monument to his memory. It was an iron structure, as monuments went, in the middle of a busy London. But the memory was glorious as they lived soon forgotten and tawdry when compared with the monument which the Canadians have dedicated to a woman—Edith Cavell.

"I saw it a few weeks ago when I visited the cemetery. Time has ravished it. Rain and hail and frost have eaten into it, and the foundations, none too firm at the beginning, are gradually crumbling. Fifty years more, and it will be a wreck, and Simon Garvey's name will have been forgotten."

"Every normal human being cherishes the thought that he will do something during his lifetime that will cause him to be remembered."

"Our friends have the same feeling about us, and it is that feeling which fills cemeteries with monuments to the dead."

Mount Edith Cavell, in Jasper National Park, which will be visited by Canadian Weekly Newspaper editors and their wives after their Edmonton convention is one of the most strikingly beautiful peaks within easy reach of Jasper Park Lodge, and it is most visited by means of the Cavell motor highway, which skirts the lake shore, leading from the Athabasca Valley to the very foot of the Glacier of the Angels.

"Some of the most beautiful and wonderful structures of the world have been built by individuals—the Taj Mahal in India, the pyramids in Egypt, and the tomb of Victor Emmanuel in Rome, and the most beautiful monument in our own country, the memorial to Lincoln at Washington."

"In modern times, at least, we have

Irwin Meteorplane Has Wingspread of 14 Feet

The Irwin racing meteorplane is one of the smallest standard airplanes ever turned out in the United States. Built in California, this tiny ship has a wingspread of only fourteen feet. A special air-cooled motor has been built to power the plane. The engine is so light that it can be handled with ease by one person. It develops twenty horsepower and has a high speed of 120 miles an hour.

Despite its small wingspread, pilots report that the meteorplane is extremely easy to fly. The plane has a landing speed of twenty-six miles an hour, a cruising speed of seventy-five miles an hour, and a range of 350 miles.

Despite its small wingspread, pilots report that the meteorplane is extremely easy to fly. The plane has a landing speed of twenty-six miles an hour, a cruising speed of seventy-five miles an hour, and a range of 350 miles.

AVOID THE PAINS OF RHEUMATISM

This Trouble Comes Through Weak, Watery Blood.

Many people suffer rheumatism that could be avoided by building up the blood. Rheumatism comes with thin, watery blood, and can only be driven out of the system by enriching and purifying the blood. To make rich, red blood, no medicine equals Dr. Williams' Pink Pills. These pills actually make new blood, driving out all poisonous secretions, and creating a condition of robust health. Thousands of rheumatic sufferers can testify to the value of Dr. Williams' Pink Pills. Among them is Mr. Joe A. Tully, Bobcaygeon, Ont., who says: "As a worker in the woods for years I was exposed to all kinds of rough winter weather. The result was that I was finally laid up with rheumatism. I couldn't hardly stir, and was confined to bed. Medicine seemed to have little or no effect and the best encouragement I could get from the doctor gave me was that with the coming of warm weather I would be better. But instead of getting better, I grew worse. My joints were badly swollen, and my legs so stiff they would hardly support my body. At this time I read that Dr. Williams' Pink Pills were recommended for rheumatism and decided to try them. The results were beyond my expectations. After a few weeks the swelling had disappeared, and the stiffness gradually went away, and much sooner than I expected all traces of rheumatism had disappeared. The next winter when I went into the wood I took a supply of Dr. Williams' Pink Pills with me, and they kept me in the best of condition. My experience should give encouragement to other rheumatic sufferers."

You can get these pills through a dealer in medicine, or by mail at 50¢ a box from The Dr. Williams' Medicine Co., Brockville, Ont.

A model marriage is one in which the wife is a treasure and the husband a treasury. Dallas News.

After all, it would surprise me one day that Germany is now in favor of world peace. Des Moines Register.

THE HARLEY-DAVIDSON MOTOR CYCLE AND SIDECAIR

Hamburg Gas Tragedy Was Pure Accident

Official Whitewashing Report States No Laws Were Violated and No Safety Precautions Were Neglected

Berlin.—The Hamburg poison gas tragedy was a pure accident, the same as floods, storms and other acts of God, states the report on the investigation made by the Ministry of Trade. Their finding has received the stamp of approval of the Government also. In whitewashing all connected with the catastrophe, which cost eleven lives and probably caused chronic injuries to a score or more, the investigators stated that no laws were violated and no safety precautions were neglected.

The cause of the explosion of the phenogen container of 3,400 gallons capacity, the report states, was probably defective seam welding, which was not able to stand the high pressure within the vat; when it was suddenly released for some unknown reason. The tank was tested in 1924 and in 1927 under twenty-two atmospheres and shortly before the accident the gauge showed only 1.08 atmospheres of phenogen yearly in the manufacture of tires.

The destruction of the remainder of the gas has nearly been completed by a Reichenbach company, which was given the job of transferring the poison stuff to old torpedoes and sinking them in the sea.

"One cannot keep his eyes off it. There are other beautiful peaks near by, but always one comes back to Edith Cavell. As long as
