What many people call indigestion
 very often means excess acid in the
 stomach. The stomach nerves have
 been over-stimulated, and food sour.
 The corrective is an alkali, which
 neutralizes acids instantly. And the
 best alkali known to medical science
 is Phillips' Milk of Magnesia. It has
 remained the standard with phys-
 cians in the 50 years since its in-
 vention.

One spoonful of this harmless, taste-
 less alkali in water will neutralize in-
 stantly many times as much acid, and
 the symptoms disappear at once. You
 will never use crude methods when
 you learn the efficiency of this.
 Go get a small bottle to try.
 Be sure to get the genuine Phillips'
 Milk of Magnesia prescribed by phys-
 cians for 50 years in correcting excess
 acids. Each bottle contains full direc-
 tions—any drugstore.

OWL LAFFS
 (ON WITH LAUGHTER)
 SANS EYES, SANS NOSE
 The farmer is a lucky man;
 He sweats upon the land,
 And then to pay the mortgage of
 He runs a hot dog stand.

And the city man who buys a car
 Has a problem on his hands;
 For just to keep the payments up,
 He dines at hot dog stands.

And lives of all the hot dog men
 Are not all cream and custard;
 For when they start to make some
 yen,

Up goes the price of mustard.

Mrs. I won't be long, dear. I'll be
 ready in a minute.
 Mr. Well, for goodness sake do
 pick out a minute that's not more
 than half an hour away.

If you're not having a little fun
 every day, you're missing something.

Can anyone imagine an experience
 more embarrassing than to wake up
 and hear burglars singing in the
 cellar?

"How much do you think I made
 in commissions last week?" said one
 drummer to another.

"Half."

"What do you mean by half?"
 "Half of what you're going to tell
 me," was the knowing reply.

A pretty quotation contributed by
 W.E.H.

Men are oaks.
 Women are vines.
 Children are flowers.

So when the ship was sinking, Mrs.
 Brown declared she was going to stay
 by her husband's side?
 Yes, she thought it would be just
 his luck to be shipwrecked on some
 island with a beautiful girl.

MEMORIAM
 Take her up carefully.
 Lay her to rest,
 Tenderly, prayerfully,
 God knoweth best.

Angel, most beautiful,
 Emblem of love,
 Came from the Heavenly
 Realm above.

The disrepute into which corsets
 have fallen was well illustrated at a
 recent college dance.

Speaking of the one girl in the
 place who wore them, one young man
 said: "Well, I'm going over and
 dance with Old Ironsides now."

When we write the truth it isn't
 so necessary to keep a carbon copy.

Judging by the smiles of the two Roumanian delegates to the Baptist World Congress held in Toronto recently, soup tastes the same in any language. The picture was taken in mid-Atlantic on the Canadian Pacific liner "Montreal" which was chartered by delegates to the Congress from Europe. There were thirty-eight different nationalities in the party.

A TIRED-OUT FEELING Canada's Great Use of the Air
 Is a Sure Sign That the Blood is Thin and Watery.

"I am glad to have an opportunity of testifying to the benefits I derived from the use of Dr. Williams' Pink Pills," writes Mrs. Lawrence Kennedy, St. Joseph, N.B. She further says:—"Some years ago I was working as a stenographer, and became badly run-down. I always had a tired-out feeling, had no appetite and suffered terribly from backache. Almost every month I had to remain from the office for a day or two. I was advised to try Dr. Williams' Pink Pills, and I have reason to be glad that I followed this advice. Before I began to feel much better. Continuing their use my strength came back, I regained my appetite and the terrible backache from which I had suffered disappeared. I have been married some years now and have two fine healthy children, a girl and a boy, and am in the best of health. All this I owe to Dr. Williams' famous Pink Pills, and I trust that these few lines may help some other weak, run-down person."

All weak, run-down people who will give this blood-building tonic a fair trial, will find through its use new health and strength. You can get the pills from any dealer in medicine, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Mice and Turtle Pets
 Healthiest Cat and Dog in List of Prize Winners

New York showed what it thought of its pets when 200 children brought dogs, cats, rabbits, mice and a turtle to the pet show held at the Bellevue-Yorkville Health Centre.

The healthiest pet and the cleanest cat and dog won prizes for their owners. Ruth Scholtz, who owns Murgatroyd the turtle, felt a little hurt from Murgatroyd didn't get the prize for the healthiest pet, and the judges, at a loss to know how to tell which was sturdier, a healthy dog or a healthy turtle, gave her a consolation prize for the sturdiest pet.

The other prize-winners were, for the cleanest dog, Nicholas DeCarlo; for the cleanest cat, Geraldine Halford; for the healthiest pet, a cat, Irene McCormack, and for the best all-round rabbit, Lorettin Barns. The winners each got a bathing suit, and every entrant received a pencil box.

The show was a feature of the Bellevue-Yorkville health demonstration's safety and health campaign that is being conducted through July and August. Each week the children present a stunt which teaches some form of health or safety lesson. Among the judges were "Uncle Robert" Correy, radio entertainer, and Mrs. George Adams, of the New York Women's League for Animals. Dr. Leverett D. Bristol is in charge of the demonstration.

When Pain Comes

What many people call indigestion very often means excess acid in the stomach. The stomach nerves have been over-stimulated, and food sour. The corrective is an alkali, which neutralizes acids instantly. And the best alkali known to medical science is Phillips' Milk of Magnesia. It has remained the standard with physicians in the 50 years since its invention.

One spoonful of this harmless, tasteless alkali in water will neutralize instantly many times as much acid, and the symptoms disappear at once. You will never use crude methods when you learn the efficiency of this. Go get a small bottle to try. Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.

Assam teas are known by experts as the finest tea grown—a fact which explains why Red Rose Orange Pekoe has become so deservedly popular in Canada. For Red Rose Orange Pekoe is chiefly composed of Assam teas, which accounts for its distinctive quality and value. Every package guaranteed.

Canadian National Exhibition Toronto Ontario
 Aug 24 to Sept 8 1928

The world's largest spectacle; attracting more people than any fair or exposition; displaying almost every known product; costing annually to stage over \$1,000,000; and representing a land and building value of \$15,000,000.

AT THE 1928 Canadian National Exhibition, everyone will witness the most entertaining and diversified programme of all time to fittingly mark this 50th Anniversary year.

Here are a few of the hundreds of features: H. M. Royal Air Force Band (England) and other noted musical organizations; 1,400 performers on world's largest stage; Famed 2,200 Voice Exhibition Chorus; First showing 1929 Motor Cars; First International Air Craft Display; Exhibits from 35 world over; and the outstanding Sporting Event of the year.

The Third Wrigley Marathon Swim
 for the World Championship, and \$50,000 purse; and an Amateur Sports Programme rivaling an Olympic.

Hedin Plans Two More Years in Wastes of Asia
 Sweden's Foremost Explorer Returns to Stockholm to Replenish His Equipment

Stockholm.—After more than a year and a half of hardships and adventures in the interior of China, Sven Hedin, Sweden's foremost living explorer, has just returned to Stockholm for a brief visit. While in Sweden he will add more members to his expedition, purchase new instruments and a number of motor cars which he has been commissioned to buy for Governor Yang, of the Mongolian Province of Hsin-sichang, and also make arrangements for airplanes to carry him further into the uncharted wastes of Asia.

Dr. Hedin, who is a member of the Swedish Academy, is determined to continue his scientific researches for another two years. He has left all the members of his expedition in or about Urumchi, the capital of the Province of Hsin-sichang, and during his absence the explorations and compiling of data continue.

Aside from Dr. Hedin, the members of the party comprise Swedish, Danish, German, Chinese and Mongolian scientists. About 6,177 square miles, which previously were white spots on the map, have been carefully charted and 52,480 feet of film have been taken. A collection of some 18,600 numbers, consisting of aneroid readings, hammer, and other paraphernalia, has been found.

Due to the friendly assistance of Governor Yang, the expedition was allowed to proceed unimpeded.

Yang, said Dr. Hedin, rules his province with an autocratic hand and has managed to stay out of the strife between the other warring lords. His regard for the Swedish scientists was heightened by an operation which Dr. Hedin, the physician of the party, performed on him. In Urumchi a house was given over to the expedition to be used as headquarters, and in many other ways the Mongolian ruler showed his interest in the venture.

The success of the expedition is due to the large assistance of E. A. Larsson, business manager and caravan leader. Larsson, who is a resident of Mongolia and for many years has been an adviser to the Chinese Government on Mongolian affairs, has had conferred upon him the popular title of "Duke of Mongolia."

Minard's Liniment heals cuts, bruises, sores, etc.

GUARD BABY'S HEALTH IN THE SUMMER

The summer months are the most dangerous to children. The complaints of that season, which are cholera infantum, colic, diarrhoea and dysentery, come on so quickly that often a little one is beyond aid, before the mother realizes he is ill. The mother must be on her guard to prevent these troubles, or if they do come on, suddenly to banish them. No other medicine is of such aid to mothers during hot weather as Baby's Own Tablets. They regulate the stomach and bowels and are absolutely safe. Sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Cute in a Baby—Awful at Three—and It's Dangerous
 by Ruth Brittain

Thumb sucking does look sweet in a baby, but it is disgusting in the three-year-old and sometimes it hangs on until fifteen or sixteen! The habit may cause an ill-formed mouth or induce adenoids, and it always interferes with digestion. Pinning the sleeve over the hand; attaching mittens, or putting on cardboard cuffs, which prevent bending the arms at the elbows, are some of the ways to stop the habit.

Another bad habit—irregularity in bowel action—is responsible for weak bowels and constipation in babies. Give the tiny bowels an opportunity to act in regular periods each day. If they do not, at first a little Fletcher's Castoria will soon regulate them. Every mother should keep a bottle of it handy to use in case of colic, cholera, diarrhoea, gas on stomach and bowels, constipation, teething, or when baby is cross and baby's system enables him to get full nourishment from his food, helps him gain, strengthens his bowels.

Castoria is purely vegetable and harmless—the recipe is given on the wrapper. Physicians have prescribed it for over 30 years. With each package, you get a valuable book on Motherhood. Look for Chas. E. Fletcher's signature on the wrapper so you'll get the genuine.

Canadian Studebaker Reorganized

The new Studebaker Corporation of Canada, Ltd., recently separated from the parent company, will be directed by D. R. Grossman, formerly sales manager for Studebaker in the Dominion. Having been associated with Studebaker in Canada for the past six years, Mr. Grossman is well known to the Dominion's automotive leaders.

"The motive behind the reorganization is to be found in our desire to build Canadian automobiles for Canada," says a statement. "The Studebaker Corporation of Canada, Ltd., is Canadian. We will use more and more of Canada's great supplies of raw materials. Not only will our consumption of these commodities be increased, but new commodities will be added to our purchasing agent's order lists.

"The expansion of the Walkerville plant is a further step towards the Canadianization of Studebaker in the Dominion. We will hire more skilled and more unskilled labor. We hope to build and sell more automobiles than we have in the past. Directly, this plan contributes to a greater Canadian prosperity by reason of increased employment given Canadians in the Walkerville factories. Indirectly, many others in Canada will benefit by reason of more extensive purchases of materials and equipment produced in Canada, to be used in the Walkerville factories.

"The expansion of our manufacturing program in Canada will also include a considerable increase in export shipments from the Walkerville plants. With the accumulation of more Canadian element in our Walkerville built cars, we will be enabled to ship automobiles to Great Britain under the preferential tariff, as well as to New Zealand and certain other British possessions overseas. On export shipments from Canada into British possessions giving a preferential duty on Canadian built cars, owners in these countries profit directly by the increase of Canadian element in the cars.

"This move is a result of Studebaker's faith in Canada," said Mr. Grossman. "We believe there will be wonderful developments in this country and through this expansion program, we will naturally become a part of those developments.

England's Landmarks

The damage which fine old buildings in the City of London suffer appears to increase each year, according to a report presented to the Society for the Protection of Ancient Buildings, which held its fifty-first annual meeting recently. The report contained a note of warning, according to a London dispatch to The Manchester Guardian, which says it is often thought that the cause for which William Morris founded the society fifty years ago has been won. Although declaring that this is not the case, the Guardian dispatch quotes the report as saying: "The need for the society is as great as it ever was, and the possibilities for usefulness are unlimited. Owing to the rapidly increasing traffic facilities, the country side is taking on an appearance which before the war was confined to the suburbs of great towns. The widening of roads, as well as the making of new ones, causes the disappearance of buildings to which we have become accustomed, and which for long years have been half-consciously admired as fine features of the landscape. Where these are not entirely destroyed, they are often left isolated and stark among the new, crude and unfriendly neighbors."

"There has never been such a time," it was pointed out at the meeting by G. R. Peers, Chief Inspector of Ancient Monuments, "for the destruction of roads, railways and electric and water supply systems. One of our most serious problems is the relation of the new roads to the old bridges. A considerable number of old and beautiful bridges, when preserved and widened, will be left with little of their ancient fabric in tact. Unfortunately, the construction of alternative bridges is not always possible."

The necessity for some central authority is urged by Mr. Peers. "There are streets in some of our country towns in which every house is worthy of preservation," he said. "Such things are national monuments, but they are at the mercy of municipal authorities. Local government in these matters is better in theory than in practice, and it must be more closely linked with a central authority before it can be trusted."

Now it appears what is needed is a rescue party to rescue rescue parties that got lost trying to rescue rescue parties.—Macon Telegraph.

Folk's Ignorance Saddens Bermuda

World Appears to Know Nothing of Island's Ban on Autos

Hamilton, Bermuda.—Local residents are somewhat downcast over what they consider the amazing ignorance of others regarding Bermuda's prohibition of motor cars.

Every now and then someone writes a letter to The Bermuda Trade Development Board, asking about automobile roads, the cost of gasoline, and whether cars have to be crated for shipment to the island paradise.

Bermuda has always forbidden automobiles, motorcycles, railways, and street cars, following a very brief period during which a single automobile, known as "The Scarlet Runner," appeared on the roads and struck a sensation into the hearts of the inhabitants. That was in 1907, and no cars have been allowed in Bermuda since then.

The latest evidence of dense ignorance concerning Bermuda is revealed by a letter received by the Chief of Police of Bermuda offering \$500 reward for recovery of a 1926 Ford touring car taken by the wife of the man who wrote the letter.

During the summer, especially, visitors express themselves as bemused with Bermuda's ban on automobiles, because at home during the summer when windows are open, the noise of passing automobiles is even more annoying than at other seasons. Bermuda is enjoying its largest summer season.

French Airwoman Beats World's Light Plane Record

Paris—Mlle. Maryse Herry, one of France's few airwomen, recently became the world's distance record for light craft, flying from Le Bourget to Treport in Pomerania, a distance of 1,270 kilometers (788.67 miles) in eleven hours.

Mlle. Herry had as a passenger Maurice Dronthe, who will pilot Cousin's Halibut in the proposed transatlantic flight. He gave Mlle. Herry her first lessons in flying.

During the flight she used a Canadian plane with a 40-horsepower Salmon engine.

"They separated on account of incompatibility didn't they?" "Yes, he never would get angry when she was never."

Sunburn? Use Minard's Liniment.

"That's a good idea," said the new servant to her mistress, "to have soda and water in their squirters. It's done out the scullery floor in no time, and there's still four left out of the dozen."

Woman Praises Lydia E. Pinkham's Vegetable Compound

Sarnia, Ont.—"I am writing to answer letters from other women, to tell them the wonderful good Lydia E. Pinkham's Vegetable Compound has done for me. I cannot be thankful enough for the benefits I received during the Change of Life. I do household work and my troubles made me unfit to work. A friend advised me to try the Vegetable Compound. I felt great relief as once began to regain my appetite, and my nerves got better. I will recommend your medicine to all with troubles like I had."—Mrs. JOHN DUNSON, 162 N. Christina St., Sarnia, Ontario.
