## Are You Ready?

## When your Children Cry for It

Baby has little upsets at times. All your care cannot prevent them. But you can be prepared. Then you can do what any experienced nurse would do—what most physicians would tell you to do—give a few drops of plain **CASTORIA**. No sooner done than Baby is soothed; relief is just a matter of moments. Yet you have eased your child without use of a single doubtful drug; **CASTORIA** is vegetable. So it's safe to use as often as an infant has any little pain you cannot pat away. And it's always ready for the crueler attacks of colic, or constipation, or diarrhea; effective, too, for older children. Twenty-five million bottles were bought last year.

### Britain Speeds Air Liner to Beat Germans to Sea

Hundreds of Workmen Rush Huge Ships in Race to Start Atlantic Service

London.—Great Britain has thrown her last reserves of science into the fight to wrest from Germany the honor of launching the first trans-Atlantic air liner.

Two giants of the air, the British R-100, now being built at Howden, and the German LZ-127, nearing completion at Friedrichshafen, will make their first flights soon. The one finished first will be recorded in history as making the first commercial flight over the Atlantic.

The Germans are now in the lead. Their Zeppelin is expected to be in the air before the middle of August, whereas it will be toward the end of September before the British are ready to test the R-100. Constructional difficulties, the failure of materials to arrive and other factors may alter this prospect.

For many months in the giant sheds at Howden and Friedrichshafen hundreds of workmen have been climbing like spiders over the largest metal sausers in the world. Each of the new dirigibles is bulkier than an ocean liner. The metal skeleton is covered with cotton fabric, which has been treated with aluminum paint. Each has cost millions of dollars to construct. When completed the two ships, each on its own route, will inaugurate a line of commercial air travel across the Atlantic. The R-100 expects to make a direct crossing from Cardington, England, to New York, and the Graf Zeppelin from Friedrichshafen to the Azores and then to New York.

The dimensions and carrying capacities of the two airships are equally astounding. The R-100 is 709 feet long, practically a seventh of a mile, the Zeppelin is 770 feet long and 116 feet high. Both ships are about half again as large as the American dirigible, the Los Angeles.

These bare figures, however, tell only the outline of the story. Imagine an airship comprising three decks, the two upper decks for the passengers and the lower for the crew. Imagine a dining room capable of holding fifty persons, floor on which the entire passenger list can dance, promenade decks, comfortable cabins, all in an airship.

Each airship is capable of carrying a passenger list of 100 and a crew of forty, but the Germans plan to carry only twenty passengers and concentrate on mail and valuable cargo.

Meanwhile in the background looms up the tremendous shape of what will be the greatest airship in the world, the R-101, which is building at Cardington, England. It will not be ready until next year, and will then be placed in use on a route to India.

Chivalrous Gentleman (to man who has just settled in the seat he has vacated)—"Pardon me, sir, but I meant that seat for this lady here." Big Man—"It's quite all right; that's my wife!"

Stage Manager (to new stage-hand)—"Now then, everything's ready. Run up the curtain." Stage-Hand—"Wot yer talkin' about? Run up the curtain? I'm a stage-hand, not a bloomin' squirrel!"

## GOITRE

Write for Free Booklet describing a home treatment for Goitre which has proven remarkably successful throughout Canada during the past ten years. Used and endorsed by many prominent physicians.

Suite 55A at 32, Richmond St. W., Toronto, Ont.

## When Pain Comes

One spoonful of this harmless, tasteless alkali in water will neutralize instantly many times as much acid, and the symptoms disappear at once. You will never use crude methods when you learn the efficiency of this. Go get a small bottle to try.

Do sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 60 years in correcting excess acids. Each bottle contains full directions—no druggstore.

### Tiniest Tot There

### ARE YOU RUN-DOWN?

All That is Needed is a Tonic to Build Up the Blood.

There are many people who have been semi-invalids so long that they accept their condition as a life burden. They have endured nervousness, broken sleep and a generally run-down feeling so long that they have given up hope of enjoying good health. In most of these cases a well chosen diet, fresh air and a tonic to build up the blood would do wonders. And as a blood-building tonic no other medicine can compare with Dr. Williams' Pink Pills. There is scarcely a spot in Canada where you will not find some formerlyailing person who has found new health through the use of this medicine. The experience of Mrs. Thomas Ahearn, St. Malo, Que., bears out these statements. She says: "I have the greatest reason to be thankful for what Dr. Williams' Pink Pills have done for me. I was in a very weak and run-down condition. Frequently I felt faint and my legs would swell to any housework. It seemed as if my blood had turned to water. In this weak and dependant condition I began taking Dr. Williams' Pink Pills. A few boxes proved that they were helping me, but I continued taking the pills until I had used a dozen boxes, by which time I found myself completely restored to normal, able to do my work without fatigue, a better appetite and a sense of cheerfulness, where before I had been dependant. For all this, thanks to the health-giving qualities of Dr. Williams' Pink Pills."

If you are feeling run-down, give Dr. Williams' Pink Pills a fair trial and new health will be yours. You can get the pills from any medicine dealer, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

### Indians in Bison Rodeo

Ellensburg, Wash.—A bison rodeo has furnished historic interest at the annual rodeo here. The buffalo came from the Gibson herd on Somers Creek, one of the few herds left in North America. It has grown to 200 during the last few years. Yakima Indians performed with bow and arrows in the show.

### France Equips Two Planes for Paris Riot Duty

Observers, Through Wireless, to Inform Police in Streets of the Presence of Mobs

Paris.—Aerial police for riot duty and the pursuit of airplane bandits have recently been organized by French authorities with an eye to the future.

Two airplanes equipped with wireless are kept at Le Bourget Field. There are three pilots and four observers, all men air-trained in the war. Far above the city on every May Day and whenever there is danger of a Communist or disorderly gathering swooping down for a close look even now and then. The observer, with strong glasses, scans the streets and reports constantly by wireless to two police cars below equipped with sending and receiving sets. The Prefecture of Police also is in wireless touch with both the airplanes and the cars, so that the thousands of police and mounted Gards Republican, hidden in courtyards and blind streets, can be concentrated in a few minutes whenever there is trouble.

The two airplanes work in relays. The observers are specialists in riot work and they seem to sense the gathering of a crowd. This is more difficult than it seems, say police officials, because the Communists, the main offenders, know they are watched and sometimes organize concentrations quite as cleverly as the police prevent them from becoming dangerous.

### Corsicans Permit Capture of Bandit Lacking "Style"

Ajaccio, Corsica.—Banditry is a lost art in Corsica. Perfidino, the latest of the robber chieftains, has been shot down by gendarmes and they were able to get him only because the Corsicans didn't like "Perfidino's style of banditry."

They considered his methods too low-brow. He and his band robbed and killed in the ordinary manner. His acts were regarded as "crime," while the Corsican bandit, Romanetti, also killed by gendarmes two years ago, occasionally held for big ransom some unpopular person or killed in vendettas.

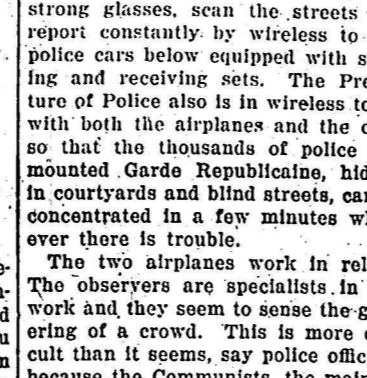

But he did things in a grand and picturesque manner that made him something of a popular hero.

A man who had been asked to make his after-dinner speech as short as possible, arose and said: "I am asked to propose the toast of Mr. Dodson, and I am told that the legs said about him the better."

### Engaged Sister—"When we are married, dear, we must have a honeymoon name—it's so much smarter. What would you go with Eaton?" Her Small Brother—"Moth."

### Word "Boycott" Was Man's Name

The term "boycott" has cropped up generally only during the last few years. Few people realize that this word originally was the name of a man.

Captain Charles Cunningham Boycott was the agent of an estate in Ireland. His harsh methods of collecting the rents from the tenants caused him to be unpopular. In 1880 the tenants, feeling that they were overburdened with high rents, banded together and fixed the rent at prices they could pay. Boycott refused to accept the new rates. As a result his life was threatened, his food supply interfered with, his fences torn down, his letters intercepted and his servants compelled to leave him.

All those who were found helping Boycott in any way were ostracized by the tenants. As a result when harvest time came there was no one to gather Boycott's crops. He was forced to apply to England for help and his harvest was gathered by a crew of "emergency men" sent to accept the new rates. As a result his life was threatened, his food supply interfered with, his fences torn down, his letters intercepted and his servants compelled to leave him.

This campaign of persuasion was later adopted by the Irish Nationalists. The term "boycott" soon came into common English use.

### Seek Tomb of Ancient Queen, Famous for Her Love Affairs

Leontina, Greece.—Archaeologists are in search of the tomb of the ancient Queen of Naupactus, a famous beauty in the days of her heyday, who was buried in a tomb which she had built for herself. The tomb is believed to be in the ruins of the city of Leontina.

### Syrian Council Plans to Form Republic

Jerusalem.—A member of the Constituent Council of the Syrian National Assembly is authorized for the information, given in Damascus newspapers, that the council has decided upon a Republic of Syria.

The draft of the constitution. It is understood, will be ready shortly for submission to the National Assembly. News of the pro-Republican leanings of the National Council has spread among distant Bedouin tribes and have provoked demonstrations among those who had candidates for the throne in view. Encounters between these tribes and government troops resulted in a few casualties among the soldiers.

### Corinthians Permit Capture of Bandit Lacking "Style"

Ajaccio, Corsica.—Banditry is a lost art in Corsica. Perfidino, the latest of the robber chieftains, has been shot down by gendarmes and they were able to get him only because the Corsicans didn't like "Perfidino's style of banditry."

They considered his methods too low-brow. He and his band robbed and killed in the ordinary manner. His acts were regarded as "crime," while the Corsican bandit, Romanetti, also killed by gendarmes two years ago, occasionally held for big ransom some unpopular person or killed in vendettas.

But he did things in a grand and picturesque manner that made him something of a popular hero.

### A New Industry Workers in Europe Resent Plan to Cut Diamonds in South Africa

The recent announcement that the Government of the Union of South Africa has decided to conclude a contract with an Antwerp firm under which the concern is to erect a diamond-cutting plant in South Africa and employ special privileges calculated to give it an advantage over the existing diamond-cutting works has aroused deep resentment in the ranks of the organized diamond-cutters.

In a pronouncement issued by the Executive Committee of the World Association of Diamond Workers from its headquarters in Antwerp, it is pointed out that while it is quite natural for the South African Government to try to promote diamond-cutting at home and thus build up a diamond industry, the method to be employed is contrary to every principle of fair competition and trade. Consequently, the affiliated unions are urged to forbid their members to go to South Africa to work for the firm in question, or any other firm which may make similar contracts.

The great majority of the some 23,000 union diamond workers live in Belgium and Holland (about 12,000 in the former country and 6,000 in the latter). It is understood that the diamond-cutting concerns of those countries are well pleased with the union's stand, as the prospect of seeing the bulk of the work shaping up the rough going done near the mines has caused considerable trepidation in Belgium and Holland.

### MEDICINE FOR YOUNG GIRLS

Mothers Endorse Lydia E. Pinkham's Vegetable Compound

Sydney, N.S.—"My seven-year-old daughter took Lydia E. Pinkham's Vegetable Compound for weakness and pains. She felt and acted normal. With the other girls she was not strong enough. We put six bottles and it did her a great good. She was called out now in a store and walks miles every morning and back in the evening. —Mrs. MARY A. LINGAN Road, Sydney, N.S."

"My own child, six years old, had pains in my back and side and spent two days in bed every month. I have called three boxes of Lydia E. Pinkham's Vegetable Compound and she has done the good and I am a large girl in the house. I have recommended your good medicine to my friends and have given it to my 17-year-old girl. —Mrs. ALMA L. LITTLE, 'Pinewood, Ontario."

Lady cat children's progress. Well by little man, who was a very fat baby when you first got it. Lydia E. Pinkham's Vegetable Compound is a very good thing. When anything goes wrong with you, I feel that it is my duty to recommend it to you. —Mrs. L. M. B. LITTLE, 'Pinewood, Ontario."
