OWL LAFFS

BY O.W.L. (ON WITH LAUGHTER)

Oh, horse, you are a wonderful no buttons to push, no horns to honk; you start yourself, no clutch to slip; no spark to miss; no gears to strip; no license buying every year with plates to screw on front and rear; no gas bills climbing up each day to steal the joy of life away; no speed cops chugging in your rear, yelling summons in your ear. Your inner tubes are all okey, and thank the Lord they stay that way; your sparkplugs never miss and fuss; your motor never makes us cuss; your frame is good for many a mile; your body never changes style; your wants are few and easy met; you've something on the auto yet.

Fable: Once upon a time a girl washed her hair and didn't mention it to nobody.

"You have only to mumble a few words in church to get married," says a writer. And a few in your sleep to get divorced.

Another way to reduce is to use a shorter swatter so you must jump higher to get flies on the ceiling.

When a woman gets sick she puts on a newly ironed nightgown and fixes up her hair, but when a man takes down he just piles into bed looking like something the cat dragged in.

"Erwin said that I was the handsomest and cleverest girl he had ever known."

"You should not marry a man who deceives you during the engagement."

Ma and Paw now get home at 3 a.m. Sister and Brother at 5 a.m.—who the heck is going to let Grandma in?

Honest intentions won't pay honest debts.

"Well, daddy," said the pretty girl excitedly, "I am engaged."

"You don't mean it!" her father exclaimed.

"Certainly not," said the pretty girl, "but it's great fun all the same."

Keeper (speaking of new arrivel at asylum): "What's the matter with this fellow?"

Superintendent: "He says the air is free and goes around releasing it from people's automobile tires."

INS AND OUTS OF IT.

He came and borrowed five, and I
Was out. It's just a sin;
I wouldn't have been out if I
Had not only been in.
—Boston Transcript.

I have no coin to fill a cup
In which my woes to drown;
The wretch came in and held me up;
That's why I'm out and down.

When better ones are built the musical comedies will sign them.

We will now render that old ballad entitled "Drink To Me Only With Thine Eyes—And You'll Stay Sober To-night."

UP-TO-DATE CHILDREN

"When I get married," said little Bess, "I'm going to marry a minister and then it won't cost anything for a wedding fee."

"When I get married," returned her playmate, "I'm going to marry a lawyer and then it won't cost anything for a divorce."

The married couple that does not pull together soon pulls apart.

It is pretty hard these days to tell whether it is opportunity knocking at your door, or another pedler.

"Give till it hurts" was a good slogan. Another one is "Pay till it hurst."

One reason golf is expensive is because the custom of dressing in a public locker room necessitates the discard of holey socks and ragged undies.

She was only a street cleaner's daughter, but she'll never have white wings.

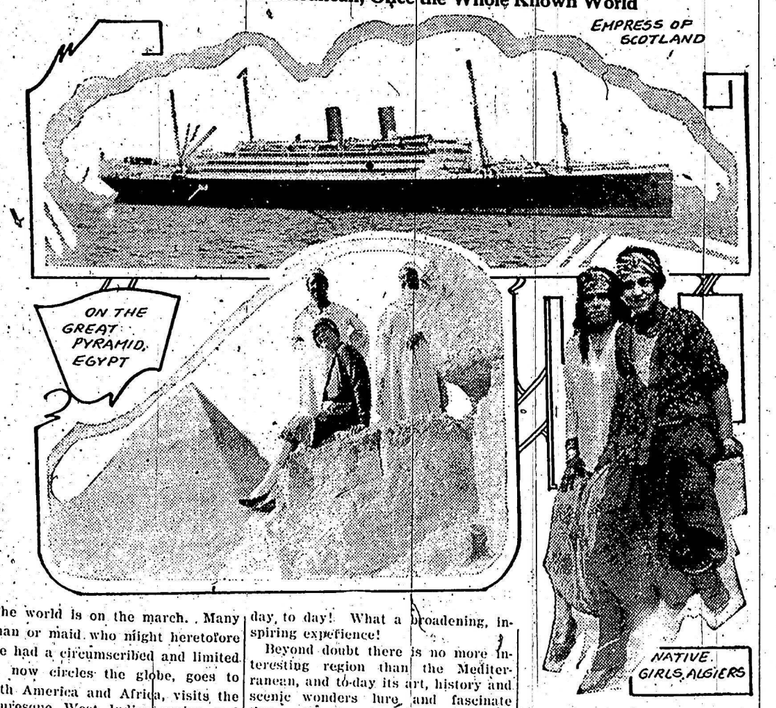
Why telegraph when it's cheaper and quicker to telawoman?

Veterinaries use Minard's Liniment.

Our standard of life is no longer our acreage, but our brain capacity and our science.—Sir Arthur Keith.

I've got it all over Senator Curtis; I belong to an Indian tribe of my own.—Governor Smith.

The Mediterranean, Once the Whole Known World



The world is on the march. Many a man or maid who might heretofore have had a circumscribed and limited life, now circles the globe, goes to South America and Africa, visits the picturesque West Indies region and enjoys the scenery and fathoms the mysteries of the Mediterranean which several centuries ago was the entire known world. What a thrill from day to day! What a broadening, inspiring experience!

Beyond doubt there is no more interesting region than the Mediterranean, and to-day its art, history and scenic wonders lure and fascinate thousands of tourists annually. Name but a few of its attractions—Egypt, Italy, Spain, Turkey, Syria, Palestine and the Isles of Greece where "Sappho loved and sung," and you have stirred a memory of longing in many hearts—hearts which yearn to have their wonderful dreams, covering the birthplace of the world, come true.

RHEUMATIC MISERY

Relief Can Only Come Through Better Blood—Liniments of No Use.

In no other disease does the blood become thin so rapidly as in rheumatism. Not only does it become thin but it is loaded with impurities—rheumatic poisons. Without the proper rheumatic poisons. Without the proper treatment these poisons increase, the inflamed joints swell and the patient becomes a cripple. Most treatments simply aim to keep down the pain, hence with every unfavorable condition a renewed attack follows:

To cast out rheumatism the blood must be enriched and the rheumatic poisons driven out with the natural secretions of the body. This can best be done through a course of Dr. Williams' Pink Pills, which have a specific action on the blood, giving it new richness and redness. Thousands have tried this treatment with beneficial results. That every sufferer from rheumatism who does not try Dr. Williams' Pink Pills is neglecting the most hopeful means of recovery is shown by the statement of Mr. David Carroll, Pictou, N.S., who says:—"For years I was troubled with rheumatism. The pains were not continuous, but they always returned, and kept getting worse. I tried so-called electric belts and many medicines, but did not get more than temporary relief. Only those who have suffered from this trouble will realize what I suffered at times. I had begun to despair of getting better when a friend urged me to try Dr. Williams' Pink Pills. In a short time I could feel this medicine helping me, so I gladly continued taking the pills and soon found that every trace of the trouble had disappeared and there was a great improvement in my general health. It is now two years since I took Dr. Williams' Pink Pills and I have not had the least twinge of the trouble in that time. That is why I confidently recommend the pills to other sufferers."

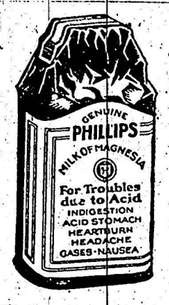
You can get these Pills from any medicine dealer or by mail at 50c a box from The Dr. Williams' Medicine Company, Brockville, Ont.

I am no longer a Congressman; I am now an institution.—Rep. John Q. Tilson.

Why should clever women be talked about and singled out as if they were performing dogs?—Dame Helen Gwynne Vaughan.

I have completely given up the game and I do not care whether I ever see another racquet.—Suzanne Lenglen.

If you use Red Rose Orange Pekoe Tea in 1928 you will enjoy Canada's finest tea and materially reduce your tea bills. Red Rose Orange Pekoe lasts longer because its additional strength and flavor make it go further. Every package guaranteed. 5-E



Reduce the Acid

Sick stomachs, sour stomachs and indigestion usually mean excess acid. The stomach nerves are over-stimulated. Too much acid makes the stomach and intestines sour.

Alkali kills acid instantly. The best form is Phillips' Milk of Magnesia, because one harmless, tasteless dose neutralizes many times its volume in acid. Since its invention 50 years ago, it has remained the standard with physicians everywhere.

Take a spoonful in water and your unhappy condition will probably end in five minutes. Then you will always know what to do. Crude and harmful methods will never appeal to you. Go prove this for your own sake. It may save a great many disagreeable hours.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.

FINANCIAL NEWS

East Sudbury Deep Buys Important Gold Mine

The officials of East Sudbury Deep Mines, Ltd., announce the important addition to their property holdings, in the acquisition of the La Bellevue Mine in the State of Oregon, a property that has already reached an advanced stage of development, and is considered to have highly attractive possibilities. Concluding an extensive examination, a series of negotiations were started some four months ago, and have resulted in the acquisition of this property within the last few weeks. It is understood that the number of ore shoots which have been opened up to date by comparatively shallow tunnel workings have already indicated ore in excess of $1,000,000. The officials plan a further extensive development of the La Bellevue vein, as well as the immediate preparation for stoping, and the early completion of a mill. A crew of men are now at work on the property, and an aggressive campaign is planned.

East Sudbury Deep has options on some 2,000 acres North of the Frood Mines in the Sudbury Basin. Two diamond drills have been continuously employed since last spring, and over 10,000 feet of drilling has been done. Results are reported as encouraging. Holes Nos. 3, 5, 7, 9 and 12, showing replacement deposits characteristic of this district. Further diamond drilling on the property has been curtailed, pending the erection of a customs smelter in the district. Present activities will be centred on the La Bellevue Gold Mine, in order to get this property on a production basis at the earliest possible date.

Mining Briefs

It is decided that a railway is warranted into Sherritt-Gordon property, a distance of 35 miles from rail head at the Flin Flon. The construction interests who have full equipment at the Flin Flon would like to go with it without delay. It would save something like $50,000 by not bringing this equipment south. The vital question is whether Sherritt-Gordon has proceeded sufficiently with development for such a step to be taken.

A brokerage house journal has just published an interesting view on the situation surrounding the large nickel producers and potential producers of Ontario. The journal states that the outstanding development of the past year has been the entry into Sudbury of powerful unknown interests—presumably United States Steel Corporation or interests closely allied—into the copper-nickel belt, using as its agents the Sudbury Basin and Longyear interests. The object of the group is then stated to be the establishment of an industry to mine and smelt copper-nickel ores in direct competition with International and Mond.

Spectacular copper discoveries, equal to the Sherritt-Gordon when that operation was in its initial stages, are reported from northern Manitoba. The scene of the latest find is at Oxford Lake, about 160 miles east and slightly north of Le Pas. Prospectors are flocking into the field, and it is reported that several big operators are in there in a big way. Among these are mentioned the Lindsley interests, of Toronto. The ground is being staked up rapidly and many operators are rushing in supplies before the freeze-up. Further details of these finds will be forthcoming soon.

Most of Mond Nickel shares are held chiefly in England, and the outstanding success of this company, which is in the same boat as International Nickel, has recently attracted attention of British investors to International Nickel stock. This is interesting, because if the British take on stock in a big way it will be more broadly internationalized.

A somewhat similar broadening of the market for Mond Nickel has taken place, by the purchase on a substantial scale of Mond shares by Canadian interests. So large are Canadian holdings now that plans are under way to appoint a transfer agent in Toronto and elevate the stock from the mining section of the Toronto Stock Exchange to the regular board, where it will take its place beside International Nickel.

Halifax Shipyards Award Contract for Ice-Breaker

Halifax—Official notice has been received by the Halifax Shipyards, Ltd., of acceptance of their tender for construction of a new ice-breaker for the Dominion Government. The contract price is $1,220,000 and this tender, which was the lowest, was awarded over those of Canadian Vickers, Montreal, and the Davie Shipbuilding Co. of Quebec.

J. R. Nelson, manager of Halifax Shipyards, stated that work on the ice breaker will commence immediately and the vessel will be ready for delivery to the Federal Government next fall. The new contract will provide steady work for upwards of 600 men for over a year.

Halifax Shipyards, Ltd., is a subsidiary company of the British Empire Steel Corporation.

Objects to Use of Term "Rayon"

New York—The Celanese Corporation of America has taken issue with the Better Business Bureau of New York City, Inc., on the latter's recent recommendation that the word "rayon" be used in conjunction with the name of its product. Its objection is based on the ground that celanese is so distinctly different from rayon in its chemical and physical properties that the adoption of the bureau's recommendation would cause confusion between the fabrics and articles of the company and these now referred to as rayon. The company further contends that the bureau has no authority to name a product, and that its action in this case can only result in confusion and misrepresentation. The company points out, in addition, that the local bureau's recommendation is contrary to the position taken by the National Better Business Bureau about three years ago.

The same arguments apply to Canadian Celanese, Ltd.

Stock Averages Up Month of September

Prices on the Toronto Stock Exchange in the month of September made an average gain of practically three points and the average of 60 stocks at the end of the month was approximately of the same level as of January 31 last, over 5½ points above the close of 1927. Only three months in the current year have returned a higher average than at the end of September.

September average of 107.66 compares with a peak of 110.23 reached in April last and a low of 103.25 at the end of July.

Of four groups the utilities was the utilities was the only one to show a decline at 115.69, contrasted with 116.92 in the preceding month. The high for the year of 121.33 was attained in May last and the low of 115.21 in July. Passing of Twin City common dividend made for a decline of 8¼ points in the price of this issue and brought the average for the group of nine down materially.

Thirty listed common industrial stocks were up close to 3 points at 75.21, contrasted with 72.41 at the end of August. January saw the high of 79.20 established for the group and July the low of 70.94.

The unlisted group advanced over four points from 43.36 to 47.70. Goodyear Tire common gained 25, Farmers Dairy 4, Service Stations 8 and Hiram Walker-Gooderham and Worts 5. The oils were up in a body, Imperial advanced 6 and British American and International Petroleum from 2 to 4 points.

Bank stock boosted their average from 311.75 to 317.75. The high for the group of eight of 325.62 was attained in April last and the low of 300.75 in January. Striking gains were made by individual members of the group. Royal was up 23, Dominion 6, Imperial 5, Montreal 10 and Nova Scotia 10.

I don't know anything about politics, but I am emphatically at the disposal of the Democratic Party.—Bobby Jones.

You never can tell the sinner from the Christian. They drink the same drinks and smoke the same cigars.—Aimee Semple McPherson.

40-Day Cape Town-Cairo Record Sought in Car

Cairo, Egypt.—G. S. Bouwer, a South African motorist, has left here by ordinary sedan automobile in an attempt to make the Cairo to Cape Town journey of 9,000 miles in forty days, thus breaking his own record from Cape Town to Cairo, the fastest journey yet recorded, of 117 days.

The route is as follows: London, Paris, Simplon Pass, Milan, Florence, Rome, Brindisi, by boat to Alexandria, Cairo, Wadi, Halfa, Khartoum.

A PROBLEM FOR YOUNG MOTHERS

Stomach troubles cause most of the distress of babyhood and childhood, and are the greatest problem that a young mother has to solve. The treatment for these digestive disturbances that make baby cry continually and disturb his sleep must be quick and effective, and, above all, perfectly safe.

The absolutely safe treatment for disturbances of the stomach and bowels is found in Baby's Own Tablets. Thousands of mothers have had their problem solved through them. They are guaranteed to be free from all injurious drugs and cannot possibly do harm to even the youngest babe—they always do good.

Baby's Own Tablets regulate the stomach and bowels; banish constipation and indigestion; break up colds and simple fevers and promote that health-giving sleep which is so necessary to the welfare of the baby or growing child. The Tablets are sold by all medicine dealers or by mail at 25c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Belgrade to Raze Birthplace of War

Belgrade.—The Club Narodna Obrana, Europe's most famous "plot house," where plans for the assassination of Archduke Franz Ferdinand and his consort were perfected in 1914 will soon be torn down to make room for an office building.

It was in this crumbling shanty that some of the darkest political plots in history have been hatched. Under its roof final instructions were given to Tchavrilovitch and Princip concerning the crime which precipitated the World War.

From this clubhouse as a centre most of the agitation against Austria-Hungary was carried on. Since the war it has been used as a headquarters for the dissemination of propaganda against Italy.

Minard's Liniment for Every Pain.

Children can fool the parents, but the parents can't fool the children.

Any Woman Can Look Stylish

By MAE MARTIN

Most stylish looking women know simple ways to make last season's things conform to this season's styles. Thousands of them have learned how easily they can transform a dress or blouse, or coat, by the quick magic of home tinting or dyeing. With true, fadeless Diamond Dyes, anyone can do this successfully. The "know-how" is in the dyes. Diamond Dyes don't streak or spot like inferior dyes. New, fashionable tints appear like magic over the out-of-style or faded colors. Tinting with Diamond Dyes is easy as blueing, and dyeing takes just a little more time. Only Diamond Dyes produce perfect results. They have been perfected by over 50 years' experince. Insist on them and save disappointment.

"Color Craft," my big new book of dollar-saving hints, will be sent you FREE. Write Mae Martin, Diamond Dyes, Windsor, Ontario.

Headaches

For a headache, however painful, inhale a little Minard's and bathe forehead. Speedy relief.
