Farm Notes

FINISHING BEEF CATTLE

It is impossible to market the best kind of beef-producing cattle unless the proper type of steer is given the right kind of feed. Many Ontario feeders raise a few steers and supplement them with a few steers who concentrate upon finishing, purchasing stockers for this purpose. The cheap or common feeder, one that is inferior in breed and type, is nearly always a loser. Steers of good breeding and type should always be bought in preference to the inferior. They will cost a few cents more, but they will make full use of their feed and produce results.

POULTRY BREEDING RECORDS

The live stock breeder knows that he will not get very far in his business unless he breeds well-bred stock, and further, in breeding such stock, he must know exactly what he is doing. If he wishes to correct some defect in individuals he selects sires that are liable to give him progeny that does not have the particular defect he is trying to avoid. The whole matter of breeding is of a very definite plane, and there is now no longer a belief that the color of their barns influences the color of their calves.

USING SCALES ON COWS

Cow-testing is a simple plan of finding out just what return each cow makes for the feed and labor expended on her. It is a common-sense, logical system, for every dairyman needs to know definitely, judging by actual weights, not by ordinary external appearances, which are his best cows, and also what profit each one makes. The principle at the base of bullfank up a good dairy herd must always be, make each cow in the herd pay a good price.

WATER AND THE FARM WELL

It is a rule to locate them so that they have their own wells. Although any particular pond may be better than the water from these wells, it is better to be sure than sorry. If the water has never been tested it ought to be, and the Dominion Department of Agriculture, through its Division of Chemistry, offers a service which is free. Instructions on collecting and shipping will be supplied on application to the Experimental Farm, Ottawa.

BARNYARD MANURE

Applying all the manure made on the farm at the right time and in the right place, lessens man labor, increases yields per acre, and lowers cost of production per ton or bushel. Manure should be hauled to the fields day by day from fall to spring, and if the snow is not too deep disturbed broadcast; if the snow is too deep put it in small piles through the fields.

ST. VITUS DANCE

A Trouble That Usually Attacks Young Children

St. Vitus dance is the name generally given to a disease described by medical men as chorea. This trouble usually attacks young children, though older people may be afflicted with it.

SAVING SUBS

Civilian and Naval Board Will Witness Experiments With New Boat's Devices

Washington.—Submarine rescue and escape tests will be conducted off New London and off Key West during the winter months by the submarine S-4 and the new submergence rescue boat S-40.

THEATRE MAY AFFECT SOUTHERN RHODESIA

Acting Premier Doubtful of South Africa's Part with Germany

Bulawayo, Southern Rhodesia, Dec. 2.—A determination to "buy British" was expressed by Acting Premier H. H. Flynn, treasurer in the Government of Southern Rhodesia, in a speech here yesterday.

SPURNS BRIBE

London "Bobby" is Commended, His Would-Be Corrupter Fined

For offering a bribe to a London "bobby" named Johnson, W. E. Munden was fined \$25 with \$25 costs at Bow Street Police Court on Nov. 12.

DO NOT LIKE MOVIES

Man-Eating Tigers Are Scared by Motion Picture Camera-Man

San Francisco.—Man-eating tigers of Siam have been subdued by American motion picture cameramen and the death toll from the animals has decreased 95 per cent.

NEW JOBS FOR GIRLS

First Race for Women Jockeys at Tanforan

It was the Hillsboro Town Plate. From left, Jockey "Doina" Gown, Hazel Deane, who presented the trophies; Lorena "Trikey" winner of the race, and Paris Williams, who rode third.

There is a new game in town called "lemons." When there is a party a young man catches the prettiest girl and squeezes her. That makes the other girls look sour.

The slogan, "No metal can touch you," probably originated with the installment houses, who are now getting most of the contents of the pay envelope direct.

The words aren't synonymous. "Bologna" is pork; "bologna" is bull.

For having the greatest pull of anything of its size we nominate the safety razor.

A young chap has invented a machine that hands out a lighted cigarette for a penny. Naturally he expects many profits from the newspapers.

Nobody is ever pleased with the weather and the neighbor's new house.

The marriage ceremony needs one more question: Will you love her when she's fat?

It makes no difference if it is made of silk, georgette or thin pongee. For when it's finished and put on, there's just as little dress to see.

Accidents will happen. And that is why there are so many kinds of falls.

You have a creature? The spirit faded. What would you do if I should stab you in the back with a knife?

In a small town a garage man burst out this sign: "Use Genuine Parts. No Substitutes Are as Good. Ask the Man With a Wooden Leg. He Knows."

Did you ever notice that the less people know the more anxious they are to make it known?

A chicken fancier is a man who buys chickens and sells them from the same crocker.

The work of a large number of people is like the show window pictures.

Life would be a lot better if they'd only put those "Post No Bills" signs on better houses.

A SIMIAN SEMAPHORE

Many monkeys, perched on a wire ladder attached to a dead tree form a sort of semaphore railway signal tower at the Milwaukee Zoo.

Don't Like Movies

Man-Eating Tigers Are Scared by Motion Picture Camera-Man

San Francisco.—Man-eating tigers of Siam have been subdued by American motion picture cameramen and the death toll from the animals has decreased 95 per cent.

Three years ago there were 100 deaths a year in my district of 20 square miles due to raids by tigers," Dr. Collier said.

Foot Ills

For aching feet, for chilblains and bunions, rub with Minard's. A sure relief.

Singapore's Huge Floating Dock Tries Facilities of Suez Canal

The first part of the new floating dock for the new British naval base at Singapore, which left England in June and reached its destination according to a local cable dispatch Oct. 12, had not been expected to arrive until Oct. 21. It had been expected to arrive on the 23rd and there was a fortnight's delay. The parts then entered the Suez Canal traffic being stopped.

The passage of the whole through the canal, where there are only fifteen feet to spare on each side and where the dock was so high of the water as to be liable to the wind, was accomplished in days. The parts, each towed by Dutch tugs, then proceeded separately, the second part reaching Singapore on Oct. 15. Into the entire which is capable of holding the battleship, went 20,000 tons of cargo, 3,500,000 rivets, the net tonnage of the dock is 50,000; its cost, including transportation, \$60,000,000.

Do Speed Limits Insure Safety

It is yet to be proved that raising a speed limit insures safety," says an editorial in the member issue of "Successful Farmer." The smaller the town, the more must autos run on the streets. seldom a car or pedestrian is injured by a passing car. The larger the town, the greater the danger that speed will get out of the way. Pedestrians are completely out of the picture. A jay-walker is a man in this age of swift travel.

WHEN IN TORONTO

Eat and Sleep at SCHOLES HOTEL

Cafeteria and Short Order Service YONGE ST., Opposite EYON'S Hotel Rates: \$1 Per Day and Up

AVOID WINTER ILLS AND DISCOMFORTS

THE SOUTH

The Gulf Coast

Rich in legend and history, the various hotels, apartments, cottages, The Pan-American Pullman train, leaves Cincinnati 7:20 A. M. daily and arrives at Gulf Coast points next morning.

NEW ORLEANS

Every day is "holiday"—every night is "carnival" in New Orleans. All sports, historic shrines, elegant hotels, World famous restaurants. Reached in less than 24 hours from Cincinnati on Gulf Coast points next morning.

FREE INFORMATION AND SERVICE

H. E. Parrett, T. P. M., 225 R. P. 605 Transportation Bldg., Cincinnati, Ohio. Write for literature. Also quote water rates.

Man as Critic

London Morning Post: Men have grown accustomed to see women looking nice. They like to have neat, trim, pleasant maid-servants, employees, wife, daughter, friends. They like the woman to look neat with them to be well dressed. Yet they wear an air of indifference when women make a fuss about what they are completely ignorant of. It means in fact that they are not interested in a woman's appearance, but they are interested in a woman's intellect.

Naval Program

London Daily Express: The American program of naval expansion will, when completed, give the United States a superiority in sea power which she already possesses in a very high degree. The program is so well known to our people that we need not dwell upon it. We understand how it is to be carried out, and we know that it will be carried out. It is a program of the highest importance, and it is one which we should all be interested in.

Check Cakes

The check cake is a new variety of cake which is made of check material. It is a very popular variety of cake, and it is one which is well known to our people. It is a very interesting variety of cake, and it is one which is well known to our people.
