According to residents here, we do not expect any time from the day, winter promises to be very bright and I shall have enough money to satisfy my needs.

Another interesting trip was a walk down the lake in a motor launch.

The launch had had trouble with

the engine, but after a long

wait, the launch started again.

After two hours of waiting,

we finally got away.

The launch was composed of big logs, the last of which served

as the driving board. One large table

and chairs, and granite dishes,

were used for serving the

lunch, and after eating the lake and

spent two hours of the

day in the boat, we arrived

back to the hotel.

After a short rest, we

had a walk around the

village.

The walk was very pleasant.
