

First-crop Japan teas are admirably the finest that come out of the land of blossoms. "SALADA" Japan green tea is comprised only of first-crop leaves.

Fresh from the Cargoes

Barrie's Birthplace to Become Property of British Nation

Cottage in "Thrumns" Includes Wash House Which Served as His First Theatre—Eminent Author's Debt to Woman

London.—The little cottage where was born Sir James Barrie was to be given to the Midland daily paper, it or which is located in Kirkrum, which under some of the name of "Thrumns" figures in "Peter Pan," much of Barrie's earlier work, and remember has been acquired by Maj. R. D. Lauder, who bought it, lest its continued existence might be threatened by "the building operations."

The cottage includes the wash-house, which served Barrie for his first theatre, and in which his first play was performed by his youthful playmates. Major Lauder has suggested that the wash-house might be brought to London and erected near the Peter Pan statue in Kensington Gardens, but will take no action without Sir James's approval. Barrie does not appear to have described the cottage in any of his works, and it did not contain the "Window in Thrumns," although there are a few slight references to it in the book he wrote to describe his mother, "Margaret Ogilvy."

At the last annual meeting of the Society of Authors, Sir James, in a whimsical presidential address, touched upon his debt to women. "I am going to do justice to my own career," said he; "interest in your president at last spurs up in your society. What manner of man is he? you ask, and indeed I have sometimes wondered myself. How did he begin?"

Women Taken By Air From Kabul to India Evacuated Successfully Carried Out as Rebels Encircle Legation

London.—Dramatic details of an aéronautic rescue of women and children from the British Legation at Kabul appear in the news. The Legation has been encircled by the rebel advance, and information now received shows that the British had been under fire from rebels from the revolted camp of King Ammanullah's army which had destroyed the building occupied by the military attaché.

The moment chose was a lull in the heavy winter storms which had been sweeping over Afghanistan from the north.

Airlanes From Irak. There was no plane in India big enough to convey so large a party. A fortnight ago therefore two troop carriers of the Victoria type, fitted with "Napier Lion" 990-horsepower engines, with accommodation for 23 passengers each, were flown from Irak, where they formed the heart of the garrison, and were held in readiness at Peshawar to make a dash across the mountains to Kabul as soon as a combination of favorable weather and a clear route between Sheur air-drome in Kabul and the British legation two miles outside the city should render such an attempt likely to succeed.

When a sortie by the Amérée pushed the rebel forces sufficiently back to restore communication between the aéronaut and Legation, the first opportunity was taken to carry out the flight, which was completely successful. It was accomplished in the morning, when the heat still lay over the cold Khyber Pass at a minimum. The 650 miles separating Kabul from Peshawar were thus covered in 90 minutes and the party was landed in British territory without mishap.

The entire contingent of four English women, with three children, and eight Indian women, with five children, were carried in one plane, escorted by four smaller machines.

Situation Obscure. The situation in Afghanistan, mean while is obscure; the conflicting reports alike from the Indian frontier, which is always alive with rumors, when Afghanistan is disturbed, and from Moscow, which is not regarded here as in any better position than Peshawar to obtain reliable news, being both suspect. The stories of the fight of the Queen Mother Ubha Hazrat, also queen Squira, by airplane to Kundahar to raise support for Ammanullah in South Afghanistan, also of the breaking out of a fresh revolt against him are therefore to be regarded with reserve.

The general view taken now is summed up in The Times, which concludes: "Beyond this the best informed of the British press is disclaimed to go."

"Can you distinguish 'classical music?'" asked Mrs. Newell. "I think so," replied her husband. "When a piece threatens every minute, be a tune and always disappoints you, it's classical."

Salesman—"Yes, I can thoroughly recommend these pyjamas, sir. You simply can't wear them out." Customer—"No, I suppose I should cause rather a sensation if I did!"

Millard's Liniment is good for colds. Always keep Millard's Liniment handy.

AN ARTILLERY SQUAD OF THE PARAGUAYAN ARMY.

The Pan-American conference has been trying to dissipate the Bolivia-Paraguay war cloud, arising from the border dispute, which has been referred to the League of Nations.

Aviation Notes

Flying in Canada.

Flying has now become a recognized part of practically every conservation, development, and engineering service in Canada. The activities of Canadian pilots and aircraft range from observing for the sealing fleets off the Atlantic coast and forest destruction in Cape Breton Island to forest protection and fishery patrols on the Pacific coast; from "air mail service" to Pelee Island, the southernmost point of Canada, to the observation of ice conditions throughout the winter in Hudson strait and transportation in the Yukon. Nowhere in the world has the aeronautical been put more practical and varied use.

London.—During the winter past season, in Switzerland, Imperial Airways are operating a service to favorite resorts. The planes will be fitted to carry skis and the trip will be made in 8 hours.

Airlines carry some quiet headlines nowadays. One arrived recently with a cargo consisting of a small bear, parrot, a monkey, and a tank of rare tropical fish. Air transport is now used so often that insurance companies charge a lower rate than by boat.

Brown Koening, who arrived recently in Karachi laid down in a little Indian port holding with a .303 machine gun. He bought a tree, Berber and Persia, 16 feet high, which he had to pay £400 for his machine.

A movement is about to establish a system of gliders in Britain to link up with the Imperial Airways Continental Services. Manufactured wings may be brought within the hours of 24 hours.

The British Air Minister said recently how he had tried to link Britain and Irak by air.

The many difficulties in the way held him back, and a regular service between London and Prague in about 8 hours is to start in the spring.

France is to have the first woman air taxi pilot. Miss Mary Blatch has obtained her certificate enabling her to carry passengers by air. She has purchased a light airplane and intends to make her living with it.

The British Royal Aero Club has delegated its power of granting aviators' certificates in India to the Aero Club of India. These will be accepted by the Director of Civil Aviation as authority for "A" certificates in India. Members of the Aero Club of India are now also temporary members of the Royal Aero Club when visiting Britain.

Concerning the Tablets Mrs. John Arthur, R. R. 1, South Monaghan, Ont., says: "We have three fine, healthy children, to whom, when a dentist's certificate is needed, we have given Baby's Own Tablets. The tablets are the best medicine you can keep in any home where there are young children."

Baby's Own Tablets are a mild but effective laxative which regulates the stomach and bowel, banishes constipation and indigestion, breaks up colds and simple fever and relieves toothache.

They are sold by leading dentists or direct by mail at 25 cents a box from Thos. Dr. Williams' Medicine Co., Brockville, Ont.

Canada's Newest Playground

The region now within Prince Albert national park, Canada's newest playground, was once the hunting ground of the Cree Indians, and a band of this tribe is now located in a park.

The new park has an elevation of about 1,800 feet above sea-level and enjoys in summer a climate which makes it possible to live under canvas for months at a time.

Situated as it is near the city of Prince Albert, less than 600 miles from Winnipeg by motor highway, and 500 miles from the International Boundary, the main port of entry for United States visitors is North Portal, Saskatchewan.
