
Genuine Westinghouse
Electric Iron
FREE

If your wife has always wanted a genuine Westinghouse Electric Iron, here is your opportunity to obtain a fine one for her, FREE. A "Poker Hand" is attached to every plug of Big Ben Chewing Tobacco. Enjoy this rich, full-flavoured chew—save only ten sets of "Poker Hands"—and the Electric Iron is yours.

Buy Big Ben by the Vacuum (air-tight) tin, which keeps the plugs in the same perfect condition as they were when they left the factory.

Chew BIG BEN
and Save the "Poker Hands"

It may be that it's the goodness of the good that does young.

What Will you do When your Children Cry for It

There is hardly a household that hasn't heard of Castoria! At least five million homes are never without it. If there are children in your family, there's almost daily need of its comfort. And any night may find you very thankful there's a bottle in the house. Just a few drops, and that colic or constipation is relieved, or diarrhoea checked. A vegetable product; a baby remedy meant for young folks. Castoria is about the only thing you have ever heard doctors advise giving to infants. Stronger medicines are dangerous to a tiny baby, however harmless they may be to grown-ups. Good old Castoria! Remember the name, and remember to buy it. It may spare you a sleepless, anxious night. It is always ready, always safe to use; in emergencies, or for everyday ailments. Any hour of the day or night that Baby becomes fretful, or restless, Castoria was never more popular with mothers than it is to-day. Every druggist has it.

Fletcher's CASTORIA

The Chinook

Spring comes early in southern Oregon and, beginning with the first days of February, those who dwell in the valleys are apt to think of winter as past. The rains may not be over, because nominally it is still the rainy season for some weeks to come, but sunshine plays a heavy part in the program, and then there is the Chinook. Soft as any breeze of summer is this wind that comes down from the mountain ranges, carrying with it the feel of melting snow.

A few weeks hence the green that covers mile after mile of landscape will be emerald in tone; now it is a yellow-green with its unnatured growth shining topaz in the sunshine. Wild azalea, broom and rhododendron are beginning to bud; the branches of the fruit trees already have a promising look, and the spruce, pine, fir and hemlock are rich in contrast to the new green of the land.

Farther north where the Columbia and Willamette Rivers sweep on to the sea, spring arrives later. True the crocus, the hyacinth and the Shasta buttercup may now be making tiny spots of color along garden paths and the stems of the flowering quince are garnet in their challenge. The valleys of these great rivers, protected by their eastern mountain range and tempered, it is believed, by the Japan current in the waters of the Pacific, are not far behind in their heralding of the spring.

The great tracts of southern Alberta and the British Columbia valleys are the first to feel this breathing sign that winter was over. So it is to-day. Be it late January or early astir, the rider of the foothills knows that spring has come.

Use Minard's Liniment for the Flu.

Maybe they are just trying to move Salvation Army headquarters to the land that needs the most salvation.

FARMERS

Requiring British help—Single men, women or families, to assist with farm work, should write Rev. Alex. MacGregor, 43 Victoria St., Toronto. These people will be arriving after March 15.

VENO'S LIGHTNING COUGH SYRUP

WARD OFF INFLUENZA

Thousands are finding relief with Veno's Lightning Cough Syrup.

35¢ & 75¢

Acid Stomach

Excess acid is the common cause of indigestion. It results in pain and sourness about two hours after eating. The quick corrective is an alkali which neutralizes acid. The best corrective is Phillips Milk of Magnesia. It has remained standard with physicians in the 50 years since its invention.

One spoonful of Phillips' Milk of Magnesia neutralizes instantly many times its volume in acid. It is harmless and tasteless and its action is quick. You will never rely on crude methods, never continue to suffer, when you learn how quickly, how pleasantly this premier method acts. Please let it show you—now.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acidity. Each bottle contains full directions—any druggist has it.

Jews Flocking Into Palestine, Trade Reviving

Warsaw Said to Have Waiting List of 10,000 Approved Candidates

Jerusalem.—After a lull of nearly two years there has been organized a large-scale Jewish immigration into Palestine and a fresh batch of 150 pioneers arrived toward the end of January in time to join their comrades working on large Jewish plantations in Judea. Their arrival is said by Zionist authorities here to be proof that the economic depression which set in toward the end of 1926 is past and that Palestine is entering a period of expansion which may equal the rapid development of the boom years preceding the crisis.

Permits for new immigrants were obtained by the Zionist organization toward the end of 1928, and immediately afterward the Zionist offices of central eastern Europe began selecting suitable candidates from long waiting lists. In some places, especially Warsaw, the number of applicants approved as fit for early immigration into Palestine is said to reach more than 10,000.

Some 500 pioneers, or halaziz as they are called in Hebrew, are expected before the end of February, the first group of 50 being from the training farms of Germany, Poland, Lithuania, Latvia, Galicia, Austria, Czechoslovakia, all had quotas assigned them from Jerusalem. Although immigration was not actually suspended by law, there is only a very small trickling of immigrants of the laboring class with no means of their own during the time of depression.

Prospective settlers with means are at the same time subjected to very severe control, and there have been loud complaints against the policy of the immigration authorities, which was said to divide families as well as keep potential wealth out of the country.

The Jewish settlers eagerness to adopt Palestine nationality is reflected in the 2,678 certificates of naturalization issued in the three months ending December. The Government was obliged to increase the naturalization staff and bring a special officer to deal with the large accumulation of citizenship applications.

KEEP YOUR BABY HAPPY AND WELL

Every mother wishes her child or children to be well and happy, to be bright-eyed, rosy-cheeked boys and girls. No mother, though, can expect her children to escape all the ills of babyhood and childhood, but she can do much to help them in their battle for health.

All prudent mothers constantly keep at hand the means of aiding their little ones when sickness comes suddenly—as it generally does in the case of children. In every home where there are infants and young children Baby's Own Tablets should be found. Read what Mrs. Mary Hill, Centre Dummer, Ont., says concerning these Tablets:—"I am the mother of six children and would not be without Baby's Own Tablets. They are a wonderful medicine for little ones."

Baby's Own Tablets are a mild but thorough laxative which regulate the bowels and sweeten the stomach and thus break up colds and simple fever, banish constipation and indigestion and allay the irritation accompanying the cutting of teeth. They are absolutely safe and are pleasant to take. The Tablets are sold by all medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Egypt to Raise Assuan's Dam by Eight Feet

New Irrigation Project Held Safe Owing to Strength of Dam's Foundation

London.—The report of the international technical commission on the raising of the Assuan Dam in Egypt has now been published here, with the news that its recommendations have been accepted by the Cairo Government and will now be put into effect. The commission finds that the dam has been so strongly constructed, structed, and upon such excellent foundations, that it can safely be raised by no less than 29½ feet.

In making the recommendation, the commissioners say they keenly appreciate that the security, health and happiness of more people than ever before depend almost entirly upon the safety of the dam, but taking this into consideration, they still hold that this great work should be done.

The Cairo Cabinet has decided to intrust its supervision to Sir Murdoch Macdonald, the engineer responsible for the splendid original work, subject to his accepting all the conditions laid down by the commission. It is understood that, as a result of the heightening of the Assuan Dam, it will be necessary to strengthen the Esna-Assiut and Delta barrages at a probable cost of about £E3,500,000, to convert land in Upper Egypt and improve drainage in Lower Egypt at a probable cost of a further £E12,500,000.—(E stands for Egyptian.)

In Great Britain a limited liability company has been formed to purchase all the stocks for all retail grocers through the country.

The United States Biological Survey has increased the meat supply by cross-breeding Alaskan reindeer with caribou and thus producing animals of heavier weight.

Minard's Liniment for Coughs Colds.

NERVOUS INDIGESTION AS A RESULT OF FLU

A Severe Sufferer Overcame This Trouble by Taking Dr. Williams' Pink Pills.

No ailment of recent years has proven so treacherous as has the Flu. The disease itself is bad enough, but the after effects is where the real danger lies. The Flu leaves behind it a weakened body, impoverished blood, shattered nerves and an impaired digestive system. Too much stress cannot be laid on the importance of rebuilding the blood and strengthening the nerves during convalescence. Until the blood is built up there can be no recovery of health and strength. The one sure blood-builder is Dr. Williams' Pink Pills. Start a treatment of them to-day and see how soon you show signs of robust health again.

Among the many victims of the terrible Flu epidemic of 1919 was Mrs. Irving Maxwell, of Bancroft, Ont. Read what this lady has to say concerning what Dr. Williams' Pink Pills did for her:—"After an attack of the Flu I was left in an extremely weak state. My blood was impoverished; I was seized with indigestion and stomach trouble; my nerves were shattered and nothing my doctor gave me seemed to help me in the least. I continually grew weaker and weaker till finally I lost all control of my nervous system. My mother, who had used Dr. Williams' Pink Pills with good results for anaemia, strongly advised me to give them a trial. I did so, and after using three boxes I noticed some improvement. I persisted in the treatment and by the time I had used seven boxes I was fully restored to health again, and although I am a mother of six children I am now able to do all my work around the house and feel as well as ever I did in my life before. What these Pills have done for me they will surely do for others."

Dr. Williams' Pink Pills are a tonic, not a stimulant. They build up the blood and are a specific for such troubles as indigestion, rheumatism, women's ailments and this general worn-out feeling that affects so many people. They are sold by all medicine dealers or direct by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

British Working Boys Interested

Many Employed Youths Show Desire to Come to Canada

It is among the boys of the more prosperous areas of Great Britain, where many of these lads hold good jobs, that the keenest interest is shown in Canada and its opportunities for young settlers, rather than among the distressed areas where hundreds of lads are on the unemployed register, and where the apathy towards opportunities for a new start in life in Canada has been very marked.

This, according to information, reaching the Colonization Department of the Canadian National Railways in Montreal is the experience of R. M. Pym, who is the special representative of the railway company in Britain for the recruiting of juveniles for Canadian farms.

During a recent tour among the juvenile welfare centers of South Wales, reports Mr. Pym, he had occasion recently to address twenty-eight meetings of boys who were on the unemployment registers. The response to his appeal was practically nil. In marked contrast to this he reports that interviews held more recently in Cairdiff, Birmingham and Dover, were attended by large numbers of lads, many of them in good jobs, who nevertheless appeared willing to throw these up and try their fortune in the Dominion.

How to Fool the Rats

An ingenious way of catching rats is as follows: In setting the rat trap this article advises the covering of it with tissue paper. Rats are too intelligent to walk into an open trap. However, they are curious to know what is under the paper, and will soon find out.

We know a member of the younger generation who declined an invitation to attend a horse show recently, on the ground that he'd already seen a horse.

Minard's Liniment for Grippe and Flu.

London County Council ruled that knitting by members at sessions is out of order, whereupon Dame Lyall stuck her needles in a ball of yarn and left the chamber.

Eyes of Blue —true to you
Eyes of Gray —love while away

What are YOUR eyes saying to-day?

Your eyes have no voice, but they speak — they show moods and temper. They do more, they show your physical condition. Are they clear, bright, sparkling with health—or dull, with a yellowish tinge to the whites? This yellowish tinge is the signal of intestinal sluggishness—auto-intoxication and liver trouble. Don't neglect this warning of poor health to follow.

Beecham's Pills

Try a regular daily course for a short period. Your eyes will tell the story. A Vegetable Product

Radio Crime Net for Whole State Proposed in Bill

Swift Warnings Over Low-Wave Stations Would Hasten Captures

WILL ONTARIO FOLLOW?

Radio will be called into state-wide use to aid crime control by outdistancing the law violator who seeks escape by the speed of the automobile, it is planned if a bill just filed in the Massachusetts Legislature is enacted. The bill proposes to require every city and town police headquarters in the State to install a receiving set, to pick up broadcasting from the new low-wave radiocasting station of the State Department of Public Safety.

According to its sponsors the measure would make Massachusetts the first state to inaugurate radio police communication on such a broad scale.

At present, General Foote said, when it is desired to spread an alarm, an officer must sit at the telephone and repeat the story time after time on a series of long distance calls and the process is so slow that a criminal in a fast motor car frequently may keep ahead of the warnings.

The proposed method is already in use for communication from the department headquarters in the State House to barracks of the state police in many parts of the State. Jesse F. Stevens, adjutant-general of the Massachusetts National Guard, pointed out that the system would be of great value in emergency and relief work, being used in connection with the portable radio transmitting sets of the national guard to establish communication with areas which might be isolated by storms or floods.

Commissioner Wilson, who already is enthusiastic over the results of use of the teletype communication system, installed a year ago to connect the 22 Boston police divisions, said he would favor installation of radio receiving sets not only in the Boston headquarters but also at every division station. "We understand a similar system is under consideration in Toronto for Ontario use."

Druggists Observe

Buckley's Cough Mixture Week.

The week of February 28th to March 6th is being observed by the retail druggists of Canada as "Buckley's Cough Mixture Week."

This week has been arranged by the Retail Merchants' Association of Canada and the Provincial Boards of the Retail Merchants' Association, in co-operation with Messrs. W. K. Buckley Limited, the manufacturers. This product has been on the market for many years and because of its rapidly increasing favor with Canadians during the last few years, "The Week" is being featured this season to focus additional attention on this fine cough remedy.

S... where to go on my honeymoon.
Olga Alimony: Why not go to the Riviera? That's where I always go on mine!

London to Paris

(By Airway)

England lies below like a gigantic picture puzzle;
Its pieces—the meadows—rimmed by hedges, roads and streams,
Fit perfectly each into the others.

The oblong fields of France, precisely laid,
Shading from saffron gold to indigo,
Are like nothing so much
As a multicolored patchwork quilt.

—Margaret Nellis.

To Prevent Breakage When Moving

When packing china, glass or canned fruit for moving, it is wise to use excelsior and dampen it well. As it dries it will shape itself to the articles which are enclosed, forming a safe and solid framework.
