Vanishing Isle First Seen Off Trinidad in 1911

Recent Rise and Disappear-
ance of Volcanic Area
Recalls Earlier Ex-
ploration

Soon Lost in Heavy Seas Emergence Accompanied by Terrific Gas Explosion

Port-Spain, Trinidad.—The recent appearance of a volcanic mud island off the island of Chatham and its sudden disappearance a few days later recall the "first night" performance of this remarkable submarine volcano on Nov. 4, 1911, the mud island having then appeared, accompanied by terrific explosions.

That emergence of the island was during the governorship of the late Sir George Le Hunte, and a party, including the Governor, the Chief Justice and other officials from Trinidad went by steamer to explore it. Great care had to be exercised in making a landing, as it was found that the crest of mud was very thin and treacherous. The mud under the surface was still very hot.

The Governor and his party explored the entire island, which was of whale-back formation. The party remained for more than an hour. The island was fourteen miles from Icacos and two miles from Chatham. Two craters were discovered on its summit near the northern extremity.

The total area of the island was about three acres, and the heavy seas washed it away in the course of a few weeks.

A few weeks ago the second appearance of this volcanic island occurred, parties steamed to the spot where the explosions took place, but no attempt was made to land, as the island was slowly disappearing under the pressure of the heavy seas.

A PERFECT MEDICINE
FOR LITTLE ONES

Baby's Own Tablets Should be
in Every Home Where There
Are Children

The perfect medicine for little ones is found in Baby's Own Tablets. They are a gentle but thorough laxative which regulates the bowels, sweetens the stomach; drives out constipation and indigestion; break up colds and simple fever; promotes healthful and refreshing sleep. It is impossible for Baby's Own Tablets to harm even the newborn baby, as they are absolutely guaranteed free from opium or any other injurious drugs. Concerning them, Mrs. Earl Taylor, Owen Sound, Ont., writes: "I have four children and have always used Baby's Own Tablets, and never without the tablets in the house, they are the best medicine that I know for little ones."

Baby's Own Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

The Sunday Times

About the time we bought the saxophones were going out, the movies began to talk.

Minard's Liniment for Coughs, Colds,

Civil servants in Yugoslavia have been forbidden to curse the public. The killjoy spirit appears to be spreading.

BABY NOT GAINING? LOOK TO HIS DIGESTION

Babies can't gain when souring waste in a clogged digestive tract is forming gas, making them colicky, constipated and miserable. Just try the method doctors endorse, and millions of mothers know, and see how your baby improves. A few drops of pure vegetable, harmless Fletcher's Castoria makes the most fretful, teething baby or child comfortable in a jiffy. A few doses and his digesting perfectly and gaining as he should. To get genuine Castoria, look for the Fletcher signature on the wrapper.

When Pain Comes

What many people call indigestion very often means excess acid in the stomach. The stomach nerves have been overstimulated, and food souring. The corrective is an alkali which neutralizes acids instantly. And the best alkali known to medical science is Phillips' Milk of Magnesia. It has remained the standard with physicians in the 50 years since its invention.

One spoonful of this harmless, tasteless alkali in water will neutralize instantly many times as much acid, and the symptoms disappear at once. You will never use crude methods when once you learn the efficiency of this. Go get a small bottle to try.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any druggist.

LIMERICK CORNER

Joyous Jingles By Gifted Rhymers

The longer the contest continues, the more popular it becomes. We are still compelled to discard a great many entries because sufficient care has not been taken in securing the proper rhyme and rhythm.

Following are our selections from this week's winners:

Milk of Magnesia
Why Milk of Magnesia is huddled,
Just test it and know like my Paw
did.

And now he will vow
That there's no other cow
Can yield him such milk since his
Maw did.

Red Rose Tea

When you're feeling depressed and
you're weary,

No use to sit down and get tears,

"Red Rose Tea is good tea,"

Try a cup then with me,
See if it doesn't make you feel
cheery.

Magic Baking Powder

There once was a girl named May
Crowder,

Or her cakes she got powder and
powder.

"It's Magic, you know,"

For "Magic" is my Baking Powder.

Minard's Liniment

There was an old man named
McNeil,

Who broke both his toe and his
knee.

But quickly he sent
For Minard's Liniment.

And healed them up right off the
reef.

Alberta Coal

From the coal fields of Sunny
Alberta,

Comes a superlative fuel, I assure, Ah.

A trial proved it so,
Even at fourteen below.

Now we always use coal from
Alberta.

Wrigley's Gums

A young man nicknamed Piggy
Wrigley,

Had a girl who was silly and
silly,

He'd give her some taffy
She'd chew half a ton.

For she is none quite
Like Wrigley.

Baby's Own Tablets

There's a wonderful nurse who's
named Graham,

Healthy babies have won her much
pride.

Whatever their habits,
Use Baby's Own Tablets.

Says sensible, careful Nurse Graham,

Makes a very fine MILK OF MAG-

NESIA.

For heretofore it's fine,
For heretofore sublime.

So try Phillips' Milk of Magnesia.

Big Ben's Chewing Tobacco

Said at foxtore and weary Che-

shako,

"I'm out of Ben's chewing tobacco."

I've walked eighty miles."

Then his face wrinkled in smiles.

"By gosh, here's a plug in my
pack."

The storm showed no sign of less-
ening, and deep concern was written
on the face of the three men.

Suddenly one of the men spoke.

"See here, I don't know the way home, but
I do know horses. We have been
trying to lead the horses home. I
suggest that we let them lead us home."

So the driver gave the animals a
free rein and the three men tramped
doggedly on behind. Thirty minutes
passed and this time they did not re-
turn to the wagon. Another thirty
minutes dragged by and all at once
the dim, ghost-like forms of ranch
buildings appeared before them. A
few minutes later the horses were
in the stalls and three thankful men
were within the warm shelter of a
ranch kitchen telling their story to
caged listeners. Once more the in-
telligence of the horses had been de-
monstrated.
