I noticed in last week's Standard a letter signed by the three Commissioners for 1928. I had decided to say no more about this controversy but there are so many statements in their letter which are not correct I am in duty bound to reply to defend myself. I don't know whether one composed the letter or whether the three had a hand in it. They say I got a chance to speak at the annual meeting and used it with anything but credit to myself. The nineteen or twenty subscribers who were at the meeting knew that statement is not correct. As for Mr. Douglas, he sent in his resignation before the meeting and was not there. The next item in the borrowing of \$500 from my wife. When they say I have for material, amounting to a little over \$226.00 came to hand I had no money on hand to meet it. I and others which were likely to follow so I called on Mr. Douglas and went home from Markdale and told him the situation. He said I must have money to meet the bills and I instructed him to get what was required. I got the money on an account as term as possible, and I don't think any one of the Commissioners would draw that amount out of the bank for an accommodation for two or three months. Mr. Douglas, as one of the Commissioners, knew I had to get that loan early in September, instead of Jan. 16th, as stated in their letter. Mr. Douglas, as one knows that firm like Northern Electric Co. and other firms sell the material on a 30-day term and mail statement about the first of every month and expect the account paid. I would like to know how Mr. Douglas expected me to stand those firms off until the money was available on the 15th of December. In regard to the debenture, I saw the party who sold the debentures before the auditors came on the books and asked him to let me know how many more there were and he said that one had been sold after the one due on Jan. 1st, 1929. They speak of the expenses in 1928 being lower than in 1927. They want to take another look at the reports and they will find that we paid two of the \$497.50 debentures in 1927, which makes the difference in the miscellaneous column. The payments which are to be counted in this construction work are as follows:—Wages paid in 1927 were \$415.09 and in 1928 \$611.42, a difference of \$196.33. In 1928 the amount was \$497.50, a difference of \$294.97. Add together \$294.97 and \$196.33 and you have \$491.30, which is nearly the unnecessary expense (than \$359.12 as stated in their letter. They accuse me of circulating a report that the cost was \$600.00 which is not correct. They also say I wrote the Railway Board that the cost of the work was \$500.00, which I don't think is correct as I don't remember writing any such letter to the Board. They say my dismissal was under consideration for some time but the first I knew about it was after the annual meeting was adjourned. This is my last letter on this affair. If necessary I can furnish proof for every statement I have made in this letter by the auditors' reports and invoices which are in their hands. Thanking you, Mr. Editor, for the space in your valuable paper, I am Yours truly, T. I. Fawcett.

GRHAM

With spring approaching and another cream season at hand we again ask you for your patronage and in return we promise entire satisfaction.

During our time of operating the Markdale Creamery, on the beginning as well as to-day, our aim was to give the farmers of the community a Creamery Service that cannot be duplicated.

Our system of receiving and gathering is so arranged that it is possible for every farmer to sell much or little, summer or winter, with the least time lost after the cream leaving your place until it is received for grading, thereby receiving best results as to grade, weight and price.

Our method of paying is the most satisfactory as we pay cash. All these privileges and advantages await any farmer who is not yet our patron. Give us a trial and you too will be convinced of the correctness of our claim.

If it is not handy for you to bring your cream to the creamery our trucks will call as soon as the roads will permit.

For entire satisfaction sell your cream to
The Markdale Creamery and Produce Co.
