dangerous for us.

Considerable and crippling tariff changes adopted in the present Congress would certainly strengthen the hands of every political party and group in Canada and in America hostile to the United States

Canada is our greatest present and prospective market. The Canadian people are our closest neighbors and the nation most friendly to us of all on this planet. We and the Canadians instinctively think the same thoughts

about many subjects and primarily about European problems.

Both our friendship with Canada and Canadian markets are involved in the question of farm relief which is coming up for final adjustment at Washington. Certainly nothing could be more absurd than a good-will tour of the President-elect, with all its immediate and prospective benefits sadrifided to satisfy the demands of few linseed-oil producers in the Northwest.

The proposal solemnly advanced, that we should put a heavy duty on bananas in order to encourage our people to consume oranges and apples instead, furnishes a fair sample of present-day tariff conceptions in INTRODUCTION—The tragic story of the siege and capture of Jerusalem, and the carrying iway of the captives and the spon is told also in 2 Circum cattle interests of o American them to replace the Jerusalem, and the spon is told also in 2 Circum cattle interests of o American them to replace the United States in the manufacture of the banana-raising
