A Growing Grain Port

Calgary Herald (Ind. Cons.): The steady extension of the cultivated area in Alberta is an assurance of Vancouver's continued growth as a grain port. The shipment of grain from this province to the head of the lakes is a thing of the past. The opening up of the famous Peace River country will contribute to the volume of western grain shipements, and the increasing demand in the Orient for Canadian wheat is another important factor in stimulating the trend of wheat westward to the sea.

Railway Construction

Windsor Border Cities Star (Ind. Lib.): One of the most optimestic signs in Canada today is the energy being displayed by both the Canadian Pacific and Canadian National Railways towards branching out and expanding their services. Each company looks forward to a busy season and hundreds of miles of new tracks are to be started. Particularly in the West is there intense activity. Not only does this centre around the Hudson Bay route, but both lines are making plans to give better service to the mines and the farms.

MADE HER BABY PLUMP AND WELL

Nothing makes a mother more grateful than a benefit conferred upon her child. Mothers everywhere who have used Baby's Own Tablets for their children speak in enthusiastic terms of them. For instance, Mrs. Zephirin Lapierre, Three Rivers, Que., writes:—Baby's Own Tablets are a wonderful medicine for little ones. They never fail to regulate the baby's stomach and bowels and make him plump and well. I always keep a box of the Tablets in the house and would advise all mothers to do likewise." Most of the ordinary ailments of childhood arise in the stomach and bowels, and can be quickly banished by Baby's Own Tablets. These Tablets relieve constipation and indigestion, break up colds and simple fevers, expel worms, allay teething pains and promote healthful sleep. They are guaranteed to be free from injurious drugs and are safe even for the youngest and most delicate child. The Tablets are sold by medicine dealers or by mail at 25c a box from The Dr. William's Medicine Co., Brockville, Ont.

The Task is India

Manchester Guardian (Lib.): Enough has been said about the difference of caste, creed, language and race existing in these territories, but we are apt to think too little of other fundamental difficulties which have to be taken into consideration by statesmen who would construct a political system suitable to India's need. These are the difficulties which arise from the vastness of the country's population, combined with its poverty and ignorance, all three connected in a vicious circle. The sums required to enable the next generation in India barely to reach the standard of literacy are big enough to appal the financiers of New York. Yet India's credit depends ultimately on the productivity of her workers, and that productivity cannot be increased till they have received an education good enough to give them a new outlook on life.

"How sweet and gracious, even in common speech,
Is that fine sense which men call Courtesy!
Wholesome as air and genial as the light!
Welcome in every clime as breath of flowers,
It transmutes aliens into trusting friends
And gives its owner passport 'round the globe."

"How do you get rid of these cooties?"

"That's easy. Take a bath in sand and rub down with alcohol. The cooties get drunk and kill each other throwing rocks."

No matter what's the matter, fishing's good for it.

Clothes don't make a man, but his wife's have been known to break him.

When postage stamps are sticky it will rain within twenty-four hours, regardless of what the weather man says.

"My sister is awfully lucky," said the little boy to another.

"Why?"

"She went to a party last night where they played a game in which the men either had to kiss a girl or pay a forfeit of a box of chocolates."

"Well, how was your sister lucky?"

"She came home with 13 boxes of chclocates."

By the way do you remember the names of the winners in the channel swimming stunts. We thought so, but such is fame.

Nobody can build a fire to suit anybody else.

Why Some Men Fail

Too much talk;
Not enough walk.
Too much sigh;
Not enough try.
Too much bask;
Not enough ask.
Too much blow;
Not enough go.
Too much blink;
Not enough think.
Too much mope;
Not enough hope.
Too much shirk;
Not enough work.
The result is;
You miss the biz.

WHAT TO DO FOR YOUR BABY'S COLD

When the cold is in Baby's head, you can make his breathing easier by putting a few drops of liquid albolene in his nostrils several times daily. But to throw off the cold completely, keep him warm, and make his bowels move freely. For this purpose doctors advise Fletcher's Castoria, because it's purely vegetable and harmless. It acts as quickly as castor oil and doesn't gripe or sicken. Millions of mothers know how easily Castoria soothes crying, fretful babies and children to sleep, how quickly it relieves those common ailments, such as colic, gas, constipation, diarrhea, etc. To protect you from imitations, the Fletcher signature is on every bottle of genuine Castoria.

The Pigs at Weaning Time

Hog raisers who make it a rule to remove the litters at four or five weeks of age can have no correct idea of the extent of the mistake they make. Unless one has new milk and is very skilful in feeding the young pigs they are bound to be given a "setback" that is quite unnecessary and which requires a lot of time and much feed to make up during the following weeks. Mr. Eric D. McGreer, Sheep and Swine Promoter of the Dominion Live Stock Branch, with headquarters in Kingston, in addressing special hog breeders' meetings in Eastern Ontario, recommended keeping the litters on their mothers for at least six weeks when two litters a year are being raised, or eight weeks when the litters are to come at periods wider apart.

To prepare the young pigs for weaning a good plan is to feed a mixture of equal parts of middlings and finely ground oats with the hulls sifted out. It is well to start feeding the mixture dry a handful or so at a time. Skim milk should be given in a separate trough. This should be given sweet and not too cold during the first few weeks. Afterwards it may be fed slightly sour, but it is a mistake to feed sweet one day and sour the next as this is apt to bring about digestive troubles. After the pigs have been removed entirely from their mothers the daily ration for the next two or three months may well consist of a mixture of 1 part of sifted crushed oats, 1 part shorts, 1 part middlings, and 5 per cent. linseed oil meal—all soaked for 24 hours in skim milk. Another mixture may consist of equal parts of middlings and sifted crushed oats supplemented with 5 per cent. linseed oil meal; all mixed with skim milk. If skim milk is not available digester tankage, which can be purchased at feed stores, may be substituted at the rate of 6 per cent. to 8 per cent. of the meal ration.

It is a good plan with pen fed pigs to scatter a little dry grain, oats or cracked corn in the litter.

Use Minard's for the rub down.

Are you miserable and run-down?

WOMEN of all ages, all over the world, are finding new health in Dr. Williams' Pink Pills.

Actual microscopic tests have shown that the medicinal elements contained in them *increase the blood count* and build up and revitalize the entire system. Miss Juliette Seguin, of Dalkeith, Ont., testifies as follows:—

"Two years ago I became weak, nervous and run-down. Various prescribed treatments did not help me. I began taking Dr. Williams' Pink Pills and it was not long before I noticed a big improvement; and soon I was in the best of health. A year ago also my mother was badly run-down; her nerves were shattered and life became a burden. She began taking the pills and as a result she is in perfect health."

Buy Dr. Williams' Pink Pills now at your druggist's or any dealer in medicine or by mail, 50 cents, postpaid, from The Dr. Williams Medicine Co., Brockville, Ont. 6-37

Dr. Williams' PINK PILLS
"A HOUSEHOLD NAME IN 34 COUNTRIES"

Duna,

By Marjorie Pickthall.

When I was a little lad
With folly on my lips,
Fain was I for journeying
All the sea in ships.
But now across the southern swell,
Every dawn I hehr
The little streams of Duna
Running clear.
When I was a young man,
Before my beard was gray,
All to ships and sailormen
I gave my heart away.
But I'm weary of the sea-wind,
And I'm weary of the foam,
And the little stars of Duna
Call me home.

A Complacent Victim

Leo Maxse in the National Review (London): All political parties have done extremely badly by the British taxpayer, who, as we have frequently had occasion to point out, is "let down" over every international cash transaction, because while everybody is out to "do" him, he has no one to champion his interests except "Internationalists," who are too "broad-minded" to adopt a "selfish" British standpoint, or sentimentalists, who conceive their whole duty as consisting in getting some other Power "on its legs" regardless of the fact that its main object is to knock us off ours.

Sees Evolution of Motor Roads

Predicts Present Type Highway Will Be Obsolete by 1932

Speed traps in which touring motorists get legally enmeshed were condemned and better highways, suited to higher speed traffic, were urged at the United States Good Roads Association's convention just held in Memphis, Tenn.

"Speed traps where officers, anxious for fees, lie in wait for their victims who more often than not are tourists unfamiliar with the local regulations, constitute in some parts of the country one of the gravest menaces possible to promotion of friendly relations with the touring public," declared Thomas B. King, of Memphis, State director of the association. "Such traps must be eradicated if our highway system is to reach its highest end of usefulness."

"Build highways for faster automobiles, for faster cars are sure to come," was the plea of Mrs. Charles Townsend, of Washington, D.C. Her appeal followed the declaration of Floyd A. Allen that hard-surfaced highways, now the boast of highway builders, will be as obsolete as 30-pound railroad rails by 1932.

Must Remove Curves

"Highways must go through the same evolution as did railroads," he declared. "Construction must withstand an enormous amount of high-speed travel under all weather conditions. Sharp turns and curves must be taken out or banked so as not to retard speed. Grades must be cut down, bottle-neck bridges and viaducts widened, towns and cities skirted on the edges by our through highways, in order to avoid urban traffic.

"The same eight-mile-an-hour horse and buggy ideas that held back automobile development for years are holding back our highways now. They wind in and out over hills and across narrow bridges, forgetting the automobile entirely."

Allen described the arteries as boulevards, with the "hot dog eyesores" largely removed, with trees and shrubbery added for beautification and with separated lanes for fast and slow travel.

"We've got to teach the business value of beautification before we do that, however," he pointed out.

The public wants no more immigration.—U.S. Representative Johnson.

A Girl Worth Knowing

In these days of convention it's a breeze from the ocean or the mountains to meet a girl who disdains powder-puff and lipstick, and whose hand grasps a pistol or a sword more readily than a golf club or tennis racket.

Such a girl is Tiger Dawn, fascinating heroine of Selwyn Jepson's latest novel. Beautiful in face and form, she disdains to use loveliness as a weapon, fighting her right to a fortune with the valor of an adventurer of old.

"Tiger Dawn" is a book to read on holiday. It is full of that quick movement and thrilling plot which every novel-reader likes. There are heaters, love and love. So don't miss "Tiger Dawn," or you'll miss a thing.

In a mountain of truth you may climb in vain. Either you reach a higher point to-day, or exercise your strength in order to be able to climb higher to-morrow.

England has abolished the duty on tea, but it's too late now. It is set in her ways.—"Lloyd's Times."

AEROXON
With The Pin
The Honey Fly Catcher

You Must Enlist in the War Against Flies

If flies were only a nuisance, we wouldn't ask you so urgently to join in the fight against them.
But flies are disease carriers. They carry germs of typhoid, cholera, etc., into your food.
This is a danger not only for you but for the whole community.
You must act or be branded as a slacker.
Now, it is proven that one of the most efficient and convenient means of exterminating the fly evil is the AEROXON HONEY FLY CATCHER.

IT HAS ALL THE ADVANTAGES:

Convenient: -because of the push-pin.
Hygienic: once caught, the flies never get away to die elsewhere.
Lasting: Each spiral give three weeks' perfect service.

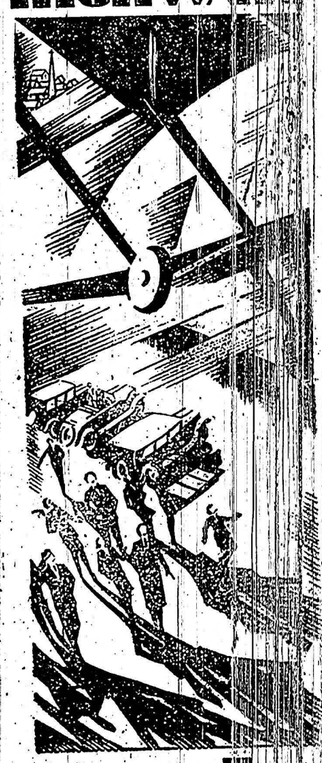
SKYWAYS AND HIGHWAYS



In the sky and on the highways, transportation moves at a faster tempo. The speed records of yesterday are commonplace today.

Greater speed is made possible by better and faster motors which call for a new margin of lubricating safety. Oils that were "good enough" ten years ago won't do today. Marvelube, a pure, carbon-free, full-bodied oil made from Peruvian Crude, is the preference of Canadian aircraft operators and motorists.

Over half a million motorists in Canada have proved Marvelube's superior qualities. 90 out of every 100 miles flown by aircraft in Canada are travelled with Imperial Products.

There is a grade of Marvelube refined to meet exactly the specifications of your car, truck or tractor. Consult the Marvelube Chart at Imperial stations and dealers.
