St. Mark's, Markdale
 Mr. Rorke of Clarksburg, a student of Hurd College, is assisting Rev. E. D. Dickson, for a few months. The Guild meeting was held at the home of Mrs. W. E. Drayton on Thursday, June 13, with Rev. E. D. Dickson presiding. Four members and three visitors were present. After the opening hymn, the Rector led in prayer. The principal item of business under discussion was the annual garden party and bazaar to be held on Tuesday, July 9, for which arrangements were made. The remainder of the afternoon was spent in a social way. Misses Wilma and Jane Dickie and Margaret Harvey assisted with the serving of refreshments. Tea money \$1.11.

Born

LEITCH—In Glenelg, on Tuesday, June 18th, 1929, to Mr. and Mrs. Jas. W. Leitch, a daughter (Lorna Devonia).

Jr. Pr.—Arlene Laughlan.

Beginners—Malcolm McKeown, Blanche Sweeney.

Mayme Sullivan, teacher

Get Copy in Early

While this paper is dated Thursday it is printed Wednesday evening of each week, which necessitates everything being ready Wednesday afternoon. Of necessity quite a portion of the matter for the paper must be in our hands by the end of the week or by Monday noon in order that we may have any chance to handle it in regular hours. Display advertising should never be later than noon on Monday. The public having fallen more and more in the habit of holding off matter until Tuesday, we must request a change. If you have matter for publication in future, kindly do your share to help by getting it to us as early as possible. We aim to please, but all the work of preparing this paper for publication each week can not be done in one day.

Rheumatism no Part of Nature's Plan

She offers her healing herbs to stop suffering

When America was wilderness, Indians were using herbs successfully. From the Redmen, 150 years ago, James Gallagher learned herbal secrets and compounded Gallagher's Herbal Household Remedies. His famous Kidney Remedy has helped many a sufferer from Rheumatism. This fine, time-proved remedy, drawn from the heart of Nature, heals and cleanses kidneys. Quickly stops backache, dizziness and other nagging kidney and bladder ailments. Try it! For sale by

It is a powerful and reliable remedy for all ailments of the system. It is a powerful and reliable remedy for all ailments of the system.

Here and There

(259)
 Although Canadians have been styled strong "silent" men there seems little to support the reputation in the recent announcement that they are the world's greatest telephone conversationists. There are 1,250,987 telephones in Canada, recently published statistics disclose, allowing for a phone for every eight persons. If all the conversations that took place during the past year were placed end to end they would be heard in Mars, for every citizen held on an average of 221 conversations during 1928. Presumably this does not include wrong numbers.

One of Montreal's first big buildings that was demolished to make room for one of the latest skyscrapers downtown has appeared on an entirely new site, to the amazement of the citizens. So carefully the building taken down that it was re-erected in its new location. It was re-erected in its new location. It was re-erected in its new location.

To December 31, 1928 the Canadian Pacific had spent in construction and Canadian development work, land settlement, etc., nearly \$30,000,000 of its own money.

Sr. Charles Gordon, G.B.E., resident of the Bank of Montreal, has been appointed to the board of directors of the Canadian Pacific Railway to fill the vacancy caused by the resignation of Mr. J. K. Ross, Senator the Hon. P. L. Beland, also, has been appointed a member of the executive committee of the board.

A shipment of animals that will assemble the cargo of livestock on South Arm will take place shortly from Moose Jaw, Wild Animal Park, when a number of buffalo, antelope, elk and other animals will be sent to the Rocky Mountain National Park at Banff, Alberta.

Steel Cars Now for Freight Service

Steel is replacing wood in freight service and seventy-five hundred of the new freight cars now on order for the Canadian Pacific will set a new standard in grain and general freight service. These cars are not in replacement but in addition to the wood cars already in use, and will furnish a greater margin of safety, more speed and longer service while eliminating leakage.

They will have a capacity of 2,000 bushels of wheat and will considerably speed up the movement of grain. Riveting of all joints and connections will reduce to a minimum possibility of loss of grain and the car itself will be more solid and will possess greater rigidity. The roof of the car will be steel as will also the whole structure, but the sides will be wood lined inside.

Additional safety will be provided by a new type of truck having a cast steel frame. These truck side frames which represent a new standard of Canadian Pacific equipment.

Elimination of noise, noteworthy feature. Dimensions of the new cars are length, 8 feet 7 inches wide. They will have a capacity of 120,000 bushels.

The new cars represent an important step in the development of the railway freight car. They have been developed with the development of the acreage has increased. Like measure, improvements have been made in the handling of grain. In recent years, the investment in machinery and new methods of handling grain has increased. The new cars will be made in Canada and will break the record of handling.

FORD CAR HOUDAILLE HYDRAULIC SHOCK ABSORBERS

Positive—Smooth—

HOUDAILLE HYDRAULIC SHOCK ABSORBERS are the only shock absorbers that have been designed and built for the Ford car since they were first introduced in 1914. They are the only shock absorbers that have been designed and built for the Ford car since they were first introduced in 1914. They are the only shock absorbers that have been designed and built for the Ford car since they were first introduced in 1914.

HOUDAILLE SHOCK ABSORBERS were not adapted to the Ford car after it was built, but were part of the specification laid down by the Ford engineers as they planned the car. Therefore, HOUDAILLES, their powerful operation coordinated, become integral parts of the complete chassis. It is for this reason that they function with such perfect efficiency on the Ford car.

HOUDAILLES absorb both the upward and downward thrust of the shock through slowing the spring action by means of a heavy glycerine solution, which is forced through a small valve from one compartment to another. They check the rebound of the car, softly, exert no tension on the springs and are always ready to offer resistance to the blow when and as required. In fact, the more severe the shock, the more effectively HOUDAILLES operate.

Different from any other shock absorber, the HOUDAILLE connecting link between the frame and the axle of the car is a steel arm, not just a fabric strip to wear out and be replaced. Adjustable to suit differing road conditions and various loads, the HOUDAILLE is more than a shock absorber and more than a snubber.

Inspect the Ford car carefully part by part. Then know the thrill of driving it. By its performance you will realize the easy riding comfort of an HOUDAILLE equipped Ford.

Drive Yourself there it is Better

Ford Car Features

- Choice of colors
- 35 to 45 miles an hour
- 10-horse power engine
- Full balloon tires
- Fully enclosed air-brake system
- HOUDAILLE hydraulic shock absorbers
