New British Speed Boat Being Built

Estelle IV. Will Be Shipped to Montreal Next Month

90 MILES AN HOUR

Montreal.—That the much-coveted Harmsworth Trophy for motor boat racing will be held by an English woman after the first week in September is the firm opinion of Herbert Pitchburn, one of the best known speed and pleasureboat builders on this side of the Atlantic, who, with Mrs. Pitchburn, landed recently from the Cunarder "Andania" following an extensive tour of Europe.

While in England, Mr. Pitchburn inspected Miss Betty Carstair's "Estelle IV.," her new racing craft which is now nearing completion and with which she hopes to wrest the valuable trophy from the Americans.

The new craft, said Mr. Pitchburn, has been designed by A. H. Hawker, an Englishman with considerable Canadian experience in boat-building, and will be capable of a speed of over 90 miles an hour. The type of engine used will be the Napier "Lion," similar to that used by Sir Henry Seagrave in his Golden Arrow when he covered 231 miles an hour on Daytona Beach recently, though the actual number of engines and the horsepower developed is still a secret.

Mr. Pitchburn explained that England is at a disadvantage where trials are concerned, owing to the fact that the engines are fitted with very thin sea water jackets tests can not be made in salt water and there are no fresh water lakes in Great Britain large enough for such a high speed craft. Accordingly arrangements have been made for the Estelle IV to be shipped to Montreal on a Cunarder early next month and on arrival here it will be unshipped by rail to Gravenhurst, Ont., where it will be put through its trials over Muskoka Lakes before entering the international race at Detroit on Labor Day. At the same time Miss Carstairs will arrive in New York on the Cunarder Berengaria and proceed to Gravenhurst.

While at Gravenhurst, said Mr. Pitchburn, the British representative will be able to take advantage of the extensive body of water there and will also have the co-operation of the Pitchburn Yards at Gravenhurst. A special crew of experts will accompany Estelle IV all the way from England and will take care of the craft until its return to England after the races.

Prior to leaving England for the United States Miss Carstairs will enter for the outboard motor boat races in the English Channel.

IS THERE A BABY IN YOUR HOME?

Is there a baby or young children in your home? If there is you should not be without a box of Baby's Own Tablets. Children ailments come quickly and means should always be at hand to promptly fight them. Baby's Own Tablets are the ideal home remedy. They regulate the bowels; sweeten the stomach; banish constipation and indigestion; break up colds and simple fevers—in fact they relieve all the minor ills of little ones. Concerning them Mrs. Moise Cabotte, Makamik, Que., writes: "Baby's Own Tablets are the best remedy in the world for little ones. My baby suffered terribly from indigestion and vomiting, but the Tablets soon set her right and now she is in perfect health." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Aviation at Exhibition

Another giant stride has been taken in the Canadian National Exhibition's program for Aviation, Transportation and Commercial Travellers' Day, Thursday, September 5th. The distant drone, diving roar and intricate evolutions of fleets of planes will make a spectacle of the sky above Exhibition Park on that occasion. Deputy Minister G. J. Desbarats of the Department of National Defense has notified the Canadian National Exhibition that permission has been granted for the Canadian Air Force to operate over the park with a fleet of Avion, Avro, Courier, Fairchild, Atlas, Siskin and Moth planes.

Major Wilson, Controller of Civic Aviation, will send an inspector from his department to be attached to the Canadian National Exhibition for the two weeks period of operation from August 23rd to September 7th.

Rapid progress is being made in the negotiations for an airplane Derby from Cleveland to Toronto, sponsored jointly by the Canadian National Exhibition and other local organizations and the United States national air race committee. Cleveland will be the rendezvous for hundreds of planes during the Exhibition. If present negotiations are brought to a successful issue the greatest international congress of the air ever seen in America will be one of the attractions at the Exhibition.

Angus MacArdie could not be persuaded to attend the village kirk on any pretext whatever. "How is it, Angus?" asked the minister ane day. "How is it ye won't come tae church?" Angus made answer that the sermons were far too long to please him." "Och," retorted the minister wrathfully, "You'll probably end up in a place whaur ye'll hear no sermons either long or short." "Ah, weel, maybe you're richt," agreed Angus placidly. "But it'll no be for want of meenisters, yo ken!"

Too Much ACID

Many people, two hours after eating, suffer indigestion as they call it. It is usually excess acid. Correct it with an alkali. The best way, the quick, harmless and efficient way, is Phillips' Milk of Magnesia. It has remained for 50 years the standard with physicians. One spoonful in water neutralizes many times its volume in stomach acids, and at once. The symptoms disappear in five minutes.

You will never use crude methods when you know this better method. And you will never suffer from excess acid when you prove out this easy relief. Please do that—for your own sake—now.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.

The goring novice, after disturbing much turf, turned for reassurance to his caddy and said: "I have a brother in Australia who plays this game awfully well."

"Well, carry on, sir," was the dry reply. "You'll soon dig him up."

THE ONLY GIRL

First she's on your thoughts a lot,
She has many charms;
Soon she's in your motor car;
Then she's in your arms.

Then she's in your family;
Oh, a lackaday!
Then, of course, for evermore
She is in your way.

No country can keep out undesirables without the hearty co-operation of the stork.

Joe: "I've got an invention that will make me millions!"

Boe: "What is it?"

Joe: "A liquid which, when applied to a girl's lips makes her kisses taste like oranges."

Boe: "That's not so good; why not a liquid that'll make an orange taste like a woman's kiss?"

A good credit can't stand much abuse.

OUR FRUITFUL LANGUAGE

A girl shows her raisins when she makes a date with a prune for whom she doesn't care a fig. She may be a peach, but they make a funny pear. She may be the apple of his eye, but she hands him a lemon, although she may have a cherry disposition. It is plum wrong, and if her name is Anna he ought to ban Anna. By this time he would realize that his efforts had been fruitless.

Hush money probably talks loudest.

Some people try to learn so much by watching the mistakes of others that they never see their own.

The station-master rushed out of his room after hearing a crash on the platform. He discerned a dishevelled young man sprawled out perfectly flat among a confusion of overturned milk cans and the scattered contents of his travelling bag.

"Was he trying to catch the train?" the station-master asked a small boy who stood by admiring the scene.

"He did catch it," said the boy, "but it go away again."

What part of speech is a kiss? Well, it is a pronoun provided "she" stands for it.

Sunday School Teacher: "And why did Noah take two of each kind of animals into the ark?"

Bright Child: "Because he didn't believe the story about the stork."

Nature fishes too, with a bait called love on a hook called matrimony, and what a string of suckers she does catch.

Going Home

Going home? Then you will see again
The wonder blue of woods in early May;
Watch April blow with beauty in the lane,
Breathe the shy scent of willow palms asway.

The soft enchantment of the cuckoo's note
Will break the quiet of the dawn-lit copse;
June fields, with saffron buttercups afloat,
Will shake from glistening blades the rainbow drops.

Lime flowers, mist mornings in September,
Beech trees and oaks burnt copper, scarlet chrome—
And frosted nights—all these things I remember
Because you say to me, "I'm going home."

The Way It Works

Detroit Free Press: Thugs who entered a drinking place in Hamtramck recently commenced their operations by shooting the proprietor without warning. From their callous standpoint there was no reason why they should not do that. They place no value on lives except their own lives, and the law in this State is no more severe on robbers who kill than it is on robbers who abstain from killing. The Legislature did its best, but the open season for murder continues.

MINARD'S "KING OF PAIN" LINIMENT

Dreaded anaemia can be banished!

IN middle life, when vitality is not as great as it once was, and the blood stream is naturally thinned and devitalized, anaemia easily gets hold on the system. At first, just a tired feeling, it quickly results in bodily weakness that ordinary tonics cannot avail.

Dr. Williams' Pink Pills then become a wonderful aid. They supply the necessary oxygen to the blood, increase the blood count and renew waning vigor.

"I was seized with anaemia," writes Mrs. Charles Lambert of Port Hope, Ont., "and was in a very bad state. As a girl I had taken Dr. Williams' Pink Pills for a run-down condition and decided to take them once more. Again the result was marvellous. In a little while I was fully well again."

You cannot begin too early to check anaemia. Dr. Williams' Pink Pills are sold at your druggist's or by mail, postpaid, 50 cents, from The Dr. Williams Medicine Co., Brockville, Ont.

"A HOUSEHOLD NAME IN 24 COUNTRIES"

Empire or League?

National Review (London): If a tithe of the attention that has been lavished on the Geneva League of Nations had been devoted to the consolidation and development of the British League of Nations, not only would the Mother Country and Dominions be appreciably more prosperous, but the peace of the world would be far more assured. This Swiss obsession has had a pernicious effect both upon British and Overseas statesmanship by suggesting that so long as the British Empire eats a dash at Geneva and stands well with Scandinavian Socialists and Norwegian explorers, every inter-Imperial tie can be allowed to go by the board; and as a consequence, we see the centrifugal or separatist, forces overtaking the centripetal or unifying forces, and diplomatic disunity deliberately stereotyped under the auspices of an Imperial Conference, to the glee of every unfriendly foreign power who regards the gradual break-up of the King's dominions as the solution of their problem in world policy.

Fate

You shuffled and stacked the cards, O Fate!
I cut with my courage high;
Your smile was as cruel as death, O Fate!
But my heart it did not die.
You won the game—it was fairly played,
I had no chance from the start;
You held the stakes—both Love and Fame,
I played with a single heart.
Played and lost—lost everything—
But a sense of void and pain.
O Fate, when you shuffle the cards aright,
Deal me my life again.

Moscow Cancels Chinese Immunity

Soviets Take Action Following Raids on Harbin Consulate

Moscow.—The Moscow Embassy of the Chinese Nationalist Government and Nationalist Consulates throughout the Soviet Union were deprived of normal extra-territorial immunities by the Soviet Government.

The action was the result of a series of alleged provocations which were climaxed by the raid of the Soviet Consulate at Harbin this week and the arrest of more than forty persons, including two Soviet consuls-general.

At the same time, the Soviet Government warned Nanking to avoid "further tests of the Soviet Governments' patience by provocative acts and violations of agreements."

A note couched in indignant terms was handed the Chinese Charge d'Affaires here last night by L. M. Karakhan, assistant foreign commissar.

The Colonial Empire

London Spectator: We are only at the beginning of developing our vast Colonial Empire. It will give us the opportunity to write a fresh chapter of Imperialism, and to write it very differently from the old chapters. The vision is of white men and men of other colours co-operating in mutual respect for the wealth and health of mankind. The wealth of the tropics cannot be withheld, for it belongs to humanity; but when the well-being of the native has been secured as the first charge on and the first duty of the developers, there will be an ample share for those, including men now unemployed, who will help to build and to provide the equipment for these great new countries.

There is oil on the lower Mackenzie, an dpossibly further up. There are fish in the Arctic lakes. There are reindeer pastures that have not yet been exploited. There are furs, of course, and possibly other resources as wel. The Arctic slope is sure to come into its own sooner or later, and its development will give Canada a breadth she has lacked from the beginning.
