Jr. Pr.—David Kirk, Billie Henry, Eddie Bailey and George Ransome equal.

E. English, teacher.

Vandeur W. I.

Vandeur Women's Institute held their monthly meeting at the home of Mrs. Geo. Buchanan on Thursday, June 20th. A large number of members and visitors were present. The meeting was opened in the usual manner and the minutes of last meeting were read by Mrs. Raxcliffe. The roll call was answered by "Dogs for the sick room." During the business part of the programme it was decided to accept an invitation to visit Barrhead Institute at their next meeting on July 4th at the home of Mrs. S. S. Hill; also another invitation from the Vandeur Ladies Aid to attend their meeting on July 24th at Mrs. (Rev.) St. John's Markdale, was accepted. The programme consisted chiefly of a very interesting address by Miss Agnes MacPhail, M.P. She chose as her subject the question of Canada bringing liquor into the U.S.A., a much discussed problem at the present time. Miss MacPhail stated several reasons why this practice put Canada in a serious situation, as well as causing trouble for the people in

the neighboring country. If allowed to continue it is almost certain to upset the peace harmony between Canada and the U.S.A., which would be disastrous to both countries. Miss MacPhail pointed out the evil effects it is having on the young people of Canada. It is bad for them to see such a typical case of international bootlegging. It is not only a dishonest trade but many dishonest officials are on both sides of the border. She stated that our young people were dead to disrespect their own laws by observing the disrespect shown to the laws of the U.S.A. This evil trade is threatening the moral well-being of our Canadian people. Miss MacPhail closed with the appeal that all should unite in an endeavor to stop this business of Canada exporting liquor into the U.S.A. Mrs. Landy Johnston and Mrs. Will Johnston then sang "Some day I'll wander back again." A poetry contest followed. Mrs. W. Swanton winning the first prize. The next meeting is at the home of Mrs. Alfred Hill, where Mr. Trout, of the Children's Shelter, Owen Sound, will give an address. After the closing of the meeting, a delicious lunch, provided by all members, was served on the lawn.

How I Was Freed of Hemorrhoids

after 25 years of suffering

"I had protruding piles or hemorrhoids for over twenty-five years," writes Dr. H. S. Huxell, Graduate Veterinary Surgeon, of Upper Canada, N.B. "I bought medicines from all parts of the world and went under the knife twice—at Portland, Maine, and Sherbrooke, Que. I had spent hundreds of dollars and was about to go to the hospital at Campbellton, N.B., for another operation, but was in such a weakened condition that the doctor advised me to wait a few days.

"My wife happened to pick up Dr. Chase's Ointment and read about someone being freed of piles by using Dr. Chase's Ointment. I got a box, was so much better next day that I ordered three more boxes. In one week I was able to resume my practice. It is now four years since I have felt any effect of the piles, so I feel justified in believing the relief permanent."

Dr. Chase's Ointment is the standard, time-proven treatment for piles or hemorrhoids. Dr. Huxell's experience is similar to that of many thousands of people who have been positively freed of piles by this soothing, healing, antiseptic ointment. All dealers or The Dr. A. W. THE FORD CAR SIX-BRAKE SYSTEM. Grips with Silent Power. THE greatest safety feature on any automobile—the braking system—has been developed on the Ford car to a degree that insures absolute driving confidence. Being fully enclosed, the internal expanding brakes on all four wheels are free from any danger of impaired performance from mud, sand, road dirt, grease or other foreign matter entering the mechanism or between the bands and drum. The four wheel system is operated by a foot pedal, while the emergency or parking system of two brakes, one on each rear wheel, is distinct and separate, operated by a hand lever. This added security is made possible through the unique design of the Ford steel spoke wheels to which drums are fitted to accommodate two sets of internal brakes on the rear wheels. The smooth, even braking of the Ford car yields more advantages than maximum safety at all times, since it makes tires last longer and adds immeasurably to riding ease and driving comfort. Arrange for your demonstration ride with the nearest Ford dealer. R. DOWN Ford Dealer Markdale
