### Argentina Renews 100-Year Claim to Falkland Islands

**Centenary of "Rule" in British Group is Celebrated in Buenos Aires**

Buenos Aires.—The first centenary celebration of "Argentine rule" over the Falkland Islands was recorded here June 11 with various patriotic acts, beginning with ceremonies attended by the Argentine Governor.

News-papers published documents, on which the Argentine claims to the archipelago are based, viewing the Falkland as a natural prolongation southward of the Republic's territory.

The islands are now part of the British Empire, which they were as a naval base, but annually the Argentine lays its protest before the British Government for what it considers an illegal occupation.

In 1770 the French explorer de Bougainville took possession of the islands for France, but this country ceded them to Spain in 1777, two years after an Englishman had taken possession for England, on the ground of prior discovery. Spain in 1771 yielded them to England on a conventional treaty.

In 1820 the Buenos Aires Government contending the British had not acted in the name of the Argentine republic, laid claim to the group, but on the representations of Great Britain withdrew in 1833.

The islands are 300 miles east of the Straits of Magellan and have a population of about 2000.

The short skirt is making changes everywhere. Out in Indiana several churches have decided to place curtains around the lower part of their choir lifts in an effort to put over the ideas that knees should be looked upon as adjuncts to prayer.

Silk stockings will last twice as long if they are allowed to soak in cold water a few hours, before being worn for the first time.

Ammonia added to rinsing water restores colors to erecenes, curtains, and quilts. It removes red ink stains from white fabric. It will remove obstinate soot marks from hearth tiles.

## Reduce the Acid

Sick stomachs, sour stomachs and indigestion usually mean excess acid. The stomach nerves are over-stimulated. Too much acid makes the stomach and intestines sour.

Alkali kills acid instantly. The best form is Phillips' Milk of Magnesia, because it is harmless, tastes good, neutralizes many times its volume in acid. Since its invention, 50 years ago, it has remained the standard with physicians.

Take a spoonful in water and your unhappy condition will probably be relieved in five minutes. Then you will always know what to do. Grade and harmful acids will never appeal to you. Go to the store for your own sake, and save a great many disagreeable hours.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acid. Each bottle contains full directions—any druggist.

Of great interest to the livestock industry throughout Canada is the erection at Montreal of the fine exhibition buildings now nearing completion at Point St. Charles.

### Sweden Richest In Prehistoric Finds

**Nature of Landscapes Preserves Treasures, Says Professor**

Stockholm.—Sweden's prehistoric relics are the richest in the world and this is because the same race has inhabited the country for about 15,000 years, say Professor Curman, state antiquarian.

### A WARNING TO MOTHERS

**Watch the Health of Your Little Ones at All Times**

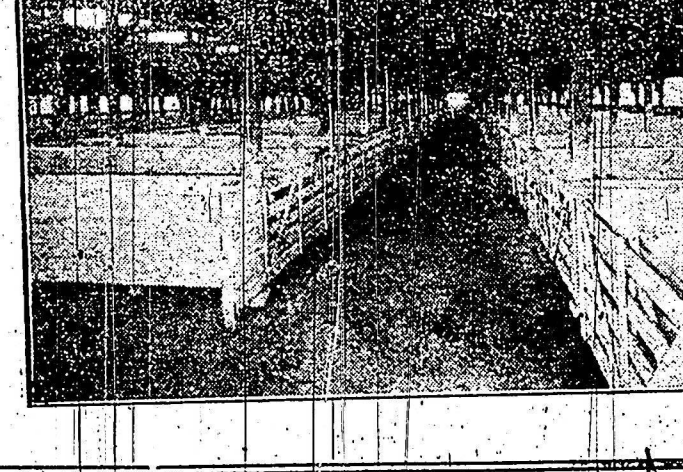

No mother can expect that her child will escape all the ills to which babyhood and childhood are subject, but she can do much to lessen the severity of these troubles.

Baby's Own Tablets are a mild but thorough laxative. They regulate the bowels, sweeten the stomach and thus banish constipation and indigestion.

The British Navy people, of all classes and parties, have been and are still fully aware of the vital importance of naval efficiency.

A man who has been the undertaker to some of the most famous men in the history of the United States, such as Tex Rickard, Woodrow Wilson, and Rudolph Valentino, came over the Falls View Bridge at eight o'clock this morning, dressed in a ten thousand dollar blue Rolls Royce and chauffeur to match.

Use Minard's for the rub down. The flavor of carrots and turnips will be improved if a pinch of sugar is added to them while cooking.

### The Garden of Spain Hints for Housewives

**Mrs. Fanny T. Hicks of Ellrods Farm, R.R. 2, Niagara Falls South, who has been an interested contributor to Limerick Corner, sends in the following recipes and suggestions.**

To make your own floor wax: Take a pound of beeswax to a quart of turpentine. Place on the back of the stove in an old pan and heat slowly until all are dissolved together.

Flora and Fauna Colors Fruit, flowers and animals are well represented in the color chart for the present season.

The Autogyro Donald F. Rose in the North American Review: The autogyro is, in itself, like nothing yet seen in heaven or earth.

Canada and the Tariff Boston Transcript: The present friendly Government in Canada derives its strength chiefly from Quebec and the Prairie Provinces, and it is directly at these that the latter are being aimed from this side of the line.

American Civilization Detroit News: If the world is to be Americanized, we ought to be a bit strict as to the pattern.

Minard's Liniment for sick animals. Carrots, beetroots, and parsnips can be preserved in dry sand or earth in dark cellars.

OF INTEREST TO CANARY STORES AND BREEDERS The New Issue of Brock's Book on Birds going to press shortly (14th edition) will contain a F. E. C. list of names and addresses of retail Bird Stores.

### BOOK NEWS by Arthur Kentel

Here is a book that has failed utterly to live up to its name. It will no doubt be ranked with the finest books about war written in the past century and a half, upwards of a million and a half copies will be sold and it will leave a definite and lasting impression on whoever gives it an intelligent reading.

Obviously, "All Quiet on the Western Front" is a document of propaganda, written to condemn war and organized slaughter.

What he has really done is what every man who knew anything about his subject and ever wrote a really good book about armed conflict has done.

No man has ever written the whole truth about war and it is doubtful if any man ever will. Or else war is a fine and glorious thing.

What Remarque has done, what every man who has attempted truthfully to chronicle the life of arms has done, is to sublimate the emotional side of conflict.

What Remarque has done, what every man who has attempted truthfully to chronicle the life of arms has done, is to sublimate the emotional side of conflict.

### The Pebble

There's nothing unimportant in this wondrous world of ours. From its mountains and its rivers to its butterflies and flowers, so you need not be downhearted.

And the gift of chance imparts. If you're very undisturbed, just a pebble on the beach.

You may long to be a mountain, Or a cliff or towering tree, Or a bright and radiant flower. Quite the biggest in the line; But the least and oft the lowest.

Great lessons have to teach, And the stormy waves are baffled By the pebbles on the beach.

Perhaps Life never meant you. For a place of rank and power, For a mighty, moving century, But only for an hour.

But it gave you form and beauty, And a place a child can share, When it made you just a pebble, One of many on the beach.

—A. B. Campbell

Ripe Tomatoes for Green Ones

Often times Jack Frost catches a tomato vine with an about green fruit crowding their. These may easily be turned tomatoes if the owner cares a few minutes with them.

After being picked from each tomato should be carefully wrapped in a newspaper. Then, in a place, they should be laid on a shelf or table which has space, so that it does not touch any side, any of the other.

In a surprisingly short time will begin to show signs of ripeness. When they are ready for salad use, which, will be perfect as if ripened on the vine, yet compare favorably with house tomato.

For sunburn, apply Minard's Liniment. Starch should be kept in a place and well covered, to prevent mold.

A Friend to Women

If Lydia E. Pinkham's Vegetable Compound is alive today she would be one hundred and fifty years old. Her descendants continue to manufacture her famous Vegetable Compound and its integrity is behind the fact. In many families today, mothers are bringing their thirteen year old daughters to consult upon the same medicine their grandmothers praised back in 1870.
