

Markdale Bakery

During the formative years of childhood and adolescence nature's plan provides for storing up bodily resistance. This is needed in adult life to pull us through periods of sickness, worry and fatigue. Thinking parents are not blinded by claims of selfish interests, who urge that stimulants replace the known nutritive value of good food.

Going Home for Dinner

What Will Your Home-going Be Like Ten or Fifteen Years from Now?

The subject of the above sketch made proper preparation in youth by getting a thorough Business Education at the Northern Business College. This enabled him to meet the problems of his successful career and enjoy the fruits of his labors later on.

The subject of this sketch no doubt had a "good time" in his youth but he neglected to get the necessary education that would have helped him to get a lighter job at larger wages. How many young people have missed the good things of life by neglecting to get a little education in youth?

A nail will go no further than its head will let it. A young man or a young woman will go no further than his or her head will allow. People do not succeed by chance or by luck but by getting a practical education and using their knowledge.

The very best place to go to get up-to-date Business Education is the Northern Business College, Owen Sound, where thousands of young people have been educated for successful business careers.

Canada's Leading School of Typewriting

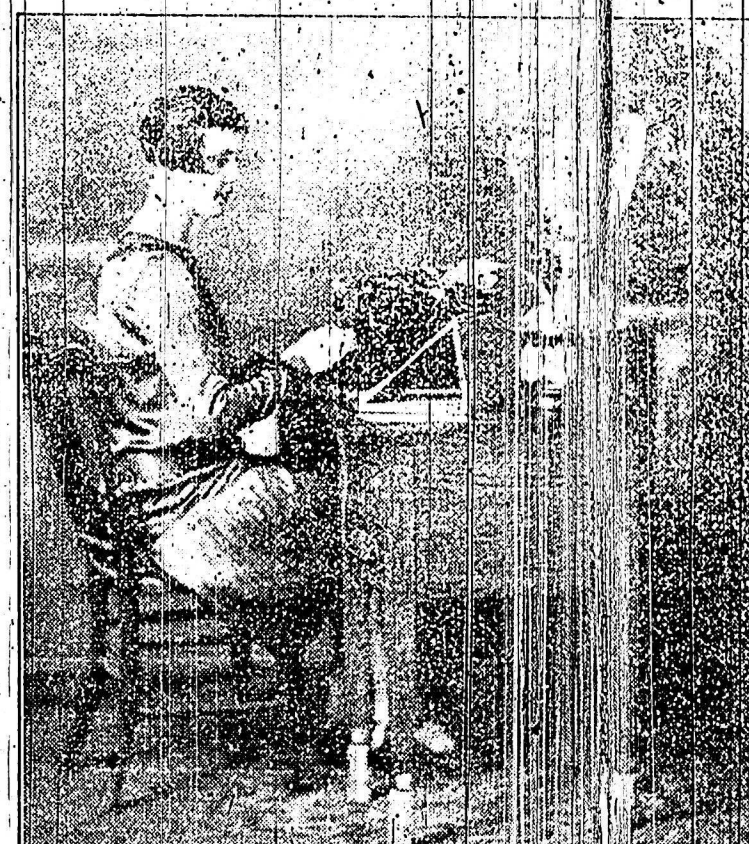

Here is the Proof: No. 1

1928

1929

MISS BERNICE SMITH of Shelburne won the 1928 typewriting contest, held at Massey Hall. Miss Smith wrote for 15 minutes at the rate of 72 words per minute, net, thus establishing a new world's record.

MISS AGNES McLENNAN of Toronto, writing at the rate of 80 words per minute, won the 1929 typewriting contest, held at Massey Hall. Suffering the penalty of 29 errors, she set the next highest net record by six words per minute.

FOR TWO CONSECUTIVE YEARS the Weller Business College, Orangeville, carried off the United Typewriter Company's Silver Challenge Cup, thus proving its superiority over the leading schools of Canada. The above accomplishment is convincing proof of the proficiency of a Weller Business College graduate. While it is not expected that every student will attain the championship class, we have many other students with un-

usual records, and the average student graduates with a higher average standing and demands a higher average salary than the graduates of any other college in the world. The best evidence of the general ability of our students is the unqualified statement made by G. I. Weller that each and every graduate holds a successful and permanent position.
