

## British Dominions In The Atlantic

The possibilities of inter-Empire trade are dealt with by Rev. Alexander Sharpe in a series of articles published in the Western Morning News and Western Daily Mercury of Plymouth and Exeter, England. In the issue of that newspaper of July 11 last Rev. Mr. Sharpe discussed "The British Empire in the Atlantic: A Vast and Splendid Realm" which is hereby reproduced so that Canadian readers may realize the extent of the Commonwealth of Nations of which Canada is an important member.

In previous articles Rev. Mr. Sharpe, viewing the British Empire in its oceans, I described its territories in the Pacific and the Indian. In those which have followed, the Atlantic is the ocean of our race. The heat efforts to create a new Empire were made strange to say, it is Oceania that our Empire's greatest aggregate of sea power and ports in the far Atlantic stand behind that in the far Atlantic stand behind that in the Pacific. Over

of that ocean's shores Power. We have the family of free and prosperous British States extending from the Arctic to the Antarctic.

I here omit any

British home country, we

built up this gigantic

to remark that it is

the strong heart of

the real heart of

commercially, politically,

our concern at present is

British countries.

Following in the first

pioneers of Empire, we

look first up to the

North. Here

we find, dreary

the Dominion of

Canada, an unex-

plor'd territory

which we hope to

revel in. Passing

the arm of Hudson Bay

Mediterranean, we find

a Canadian

three of Cana-

atching up to

than a thousand

Quebec, the

has large as

colonies equal in

in the

is thus not

particular prov-

erries, and

likely world's great

boundaries.

Passing into the

ocean, we

find the Atlantic

and the

Europe, where

we find the

most valuable

minerals in the

world, and whose

minerals are

the most valuable

minerals in the

world, and whose

minerals are

the most valuable

minerals in the

world, and whose

minerals are

the most valuable

minerals in the

world, and whose

minerals are

the most valuable

minerals in the

world, and whose

minerals are

the most valuable

minerals in the

world, and whose

minerals are

the most valuable

minerals in the

world, and whose

minerals are

the most valuable

minerals in the

world, and whose

minerals are

the most valuable

minerals in the

world, and whose

minerals are

the most valuable

minerals in the

world, and whose

minerals are

the most valuable

minerals in the

world, and whose

minerals are

the most valuable

minerals in the

world, and whose

minerals are

the most valuable

minerals in the

world, and whose

minerals are

the most valuable

minerals in the

world, and whose

minerals are

the most valuable

minerals in the

world, and whose

minerals are

the most valuable

minerals in the

world, and whose

minerals are

the most valuable

minerals in the

world, and whose

minerals are

the most valuable

minerals in the

world, and whose

minerals are

the most valuable

minerals in the

world, and whose

minerals are

the most valuable

minerals in the

world, and whose

minerals are

the most valuable

minerals in the

world, and whose

minerals are

the most valuable

minerals in the

world, and whose

minerals are

the most valuable

minerals in the

world, and whose

minerals are

the most valuable

minerals in the

world, and whose

minerals are

the most valuable

minerals in the

world, and whose

minerals are

the most valuable

minerals in the

world, and whose

minerals are

the most valuable

minerals in the

world, and whose

minerals are

the most valuable

minerals in the

world, and whose

minerals are

the most valuable

minerals in the

world, and whose

minerals are

the most valuable

minerals in the

world, and whose

minerals are

the most valuable

minerals in the

world, and whose

minerals are

the most valuable

minerals in the

world, and whose

minerals are

the most valuable

minerals in the

world, and whose

minerals are

the most valuable

minerals in the

world, and whose

minerals are

the most valuable

minerals in the

world, and whose

minerals are

the most valuable

minerals in the

world, and whose

minerals are

the most valuable

minerals in the

world, and whose

minerals are

the most valuable

minerals in the

world, and whose
