tles. We dislike square things, or anything with angles. Our furniture, even, has no angles—like that," pointing to a square table beside us. "If a man is displeasing to us we will say, maybe, that he is angular."

The Japanese adjective meaning square, "shikaku," as a noun is tlanslated "assassin." With magnificent inconsistency, however, the Japanese admire poets and yet use "slikaku" to mean poet.

"This thing," he continued, "is in our language—our likes and dislikes.

"This thing," he continued, "is in our language—our likes and dislikes.

our language—our likes and dislikes, of ale.

The Japanese think and speake like writers, they are—I think you would say literary-minded.

"So just like they call something six years old. Find me another disc." We want to my quality that is displayed another six years old. Find me another disc. So just like they call something that is displeasing angular, something that they like is round, or Maria. Years ago, too, this was true. The Japanese liked round things, and they tiked Maru after the name of some one or something they liked. A prince of royal blood, perhaps, would have liked they have a fine swood and like of the name of some of royal blood, perhaps, would have liked they have a fine swood and like on the name of some of royal blood, perhaps, would have liked in the name of some of royal blood, perhaps, would have liked in the name of some of royal blood, perhaps, would have liked in the name of some of royal blood, perhaps, would have liked in the name of some of royal blood, perhaps, would have liked in the name of some like in the name of some like in the name of some of royal blood, perhaps, would have liked in the name of some like in the name of some liked in the name of some like in the name of some liked in the name o
