Lose your temper and you shorten your life. Flying into a rage poisons the brain, strains the heart, unstrings the nerves. A bad temper and good health cannot go permanently hand in hand. In the days of one man organizations violent tempers were more than they are to-day. Harmony oils the machinery of business; discord casts sand into the gear box. Temper kills teamwork. Therefore, for the sake of your own health and for the sake of the health of your business, don't let your temper get out of control. An uncontrollable temper is as destructive as an uncontrolled engine.

MOTHER

By Ralph Watson

Dreaming, wistful, tender, true;
Musing o'er the needle's gleam;
Weaving hope and prayer into
Dainty tuck and silken seam.

Bending o'er the cradle's side,
Softly crooning lullaby
Till the weary lashes droop
O'er the sleep-beleaguered eye.

Mending little rips and rents;
Soothing childish hurts the while;
Balming little woes that smart;
Healing sorrows with her smile.

Angel court as years go on;
Merciful to little sins;
Teaching that the road of right
Feels the feet of him who wins.

Grieving if the shadows come;
Loyal if misfortunes fall;
Enraptured when the fates are kind;
Yielding heart and soul and all.

Mother, sweetheart, fragrant flame
Shining on my altar—See:
Kneeling at thy shrine I come,
Lifting heart and lips to thee.

Its Extra Traction Cuts Down Fuel Costs

IT just takes one look at a "Caterpillar" to see why it does so much work on so little gasoline. Look at the *traction* it gets, with those long, wide tracks. It simply *can't* slip or sink, whether the going is rough or smooth, level or sloping, wet or dry . . . . . A full 80 per cent. of its engine power is delivered at the draw-bar.

Best for Farm or Road Work

The "Caterpillar" is without a peer for farm work—economical to operate—abundant power—remarkably low cost of upkeep—long life—goes anywhere—works close to trees and fences—turns almost "on a postage stamp"—easy to steer—comfortable to ride.

On the road job—construction or maintenance—it works in any weather—uphill or down—along the ditch, or anywhere you want it to go—doing the work at the lowest possible cost.

Look for the Name "Caterpillar"

There are various tractors on the market. But the genuine "Caterpillar" has the name on the radiator. Look for it. That's your assurance of sturdy dependability.

Send your name and address, and we will mail you the "Caterpillar" Magazine, FREE. Shows you actual photographs of the "Caterpillar" in action. It's interesting.
