News and Information for the Busy Farmer.

Ontario Department of Agriculture

Reports received from practically all corn-growing districts convey expectation of increased planting.

The agricultural representative in Lambton county reports that fertilizers are coming into more general use there each year.

Clovers, which make up the most valuable part of our hay crops, require sweet soil.

In an attempt to meet the demand of sugar beet growers in the southwest counties for information on the kind and quality of commercial fertilizer to increase the yield and improve the quality of sugar beets.

Weed Situation Serious In a recent conference of weed inspectors, A. H. G. Smith of New Hamburg, District Weed Inspector of Western Ontario, declared: "We are slow to comprehend the serious situation that confronts us."

Alfalfa and Clover Good This year alfalfa and sweet clover are very moderate in price and both will produce an abundance of late pasture or may cut as hay.

Heavy Winter-Killing Of the 670,000 acres of winter wheat sown in Ontario last fall, only 509,000 acres will be harvested, according to an official estimate.

Tobacco Acreage Grows Approximately 15,000 acres of flue-cured tobacco will be under cultivation in Norfolk County this year, according to an official computation by J. K. Perrett, department field man.

Soy Bean Tested The Department of Field Husbandry of the O. A. C. is planning to have four plots of two acre extent for the demonstration of soy bean growing in Kent county this year and will use two varieties to determine the most practical type.

It is stated that a number of mills in Ontario are willing to purchase soy beans from the farmers for the purpose of extracting the oil from the product and for the manufacture of meal.

Turkeys Found Profitable Turkey breeding is not the difficult undertaking that is generally supposed when the breeding stock and poults are properly handled.

Trap the Borer The suggestion has been advanced, that a trap crop of corn consisting of about half a dozen rows of early sown rapid growing corn, if put in as early as the ground is fit, will in most years lessen the amount of injury done the main crop by corn borers.

Chicken Stealing Unprofitable This business of robbing hen roosts is becoming more and more precarious. The Provincial Government through the Provincial Police are making every effort to apprehend those who steal chickens, and to punish them with a penalty that the crime deserves.

June Meetings at O. A. C. The month of June is well known as a busy one at the Ontario Agricultural College and this year, judging by the meetings already announced, it is going to be even busier than ever.

County and District Meetings June 10—Dairy Cattle Breeders' Field Day. June 11 and 12—Poultry Breeders' Meetings. June 13—Yorkshire Breeders' Field Day. June 14—Wellington County Jr. Farmers' Judging Competition.
