GOODYEAR'S EXCEL In the TWO Main Parts of a Tire

THERE are two main parts of a tire—the tread and the carcass. Goodyear Tires excel in both!

There is greater traction in the Goodyear All-Weather Tread. There is greater elasticity in the Goodyear Superwrist carcass. What proves this? These two tests.

1 Press the palm of your hand down on the Goodyear All-Weather Tread and feel how the deep-cut, sharp-edged blocks under pressure grip and pinch the flesh.

2 Have us show you on our cord-testing machine the greater stretch in Goodyear Superwrist Cord which gives it its unmatched superiority over standard cord.

These advantages in Goodyear Tires cost you no more, yet they are indispensable in the utmost economy of your car. Come in and talk it over.
