OUT-OF-TOWN CALLS—QUICKER AND CHEAPER THAN EVER

Less than a ticket to the talkies!

In 1929 we added over 14,000 miles of talking circuits to our long distance facilities. Over 80 per cent of all calls are now completed "while you hold the line."

Mrs. Mills was thrifty! She would dearly like to talk to her mother back home, as her friend told her she was doing every week, but think of the expense—

She was astonished when she learned that a call for the distant number during the day would cost only 60 cents, and after 7 p.m. only half a dollar.

She actually made her call after 8.30 and it cost her only 35 cents—the night rate!

Now the weekly 3-minute talk with her mother is a regular thing. And what a joy it is both to Mrs. Mills and her mother. Both declare it is almost as good as a visit!

Many people are like Mrs. Mills—they think long distance expensive!

Just run over the rates quoted in the opening pages of your telephone book—especially those for "Anyone" (station-to-station) calls during the evening and night periods! It will convince you.
