Super-Bee With Sweeter Nature And More Nectar Capacity Sought

New York.—The United States Department of Agriculture is attempting to develop a new race of superior honeybees. Specialists in the government bee laboratory near Washington are testing and attempting to improve various methods for the artificial insemination of queen bees derived within the last few years in this country and abroad. One such technique is made more perfect by the use of important species of honeybees and will make innumerable possibilities for the combination of desirable characteristics of all of them and the production of new races.

Dr. J. H. Beesley, head of the government bee laboratory, says that the bee cannot be classed as a domestic animal. It leaves for the woods on the slightest provocation and is just as wild as the wild bee. "We believe we can really do something to improve the bee," says Beesley. "The hope for a bee with a larger thorax and a greater wax ex-

Canada Joins Ranks In World Aviation

Canada is one of the world leaders in aviation. Owing to the fact that it is covered by the characteristic climatic conditions of the north, the Canadian flyer has gained most valuable experience. This not only calls for all the courage and stamina to be found in the world but also shows how important the need for ever progressive scientific instruments to guide him where his senses are thwarted by fog, darkness and foul weather. The advance in scientific research, therefore, has been rapid and, at the present time, the instrument board of an aeroplane is often adorned by more than twenty different dials. It is behind the aviator as the ocean compass is behind the sailor.

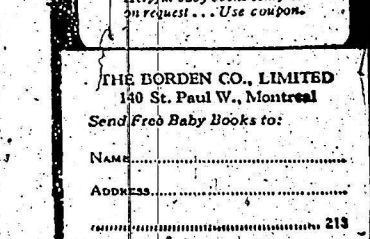

As an instance of the difficulties to be overcome in air travel, the figures indicated on the air-speed dial do not always show the true speed over the ground, because the indications on the dial depend also on the density of the air and upon the effect of the wind. So far as safety is concerned, however, the actual stalling speed (the speed below which the plane will become uncontrollable) is shown whatever the height may be, as the forces acting on the aeroplane also change with air density.

Berlin Has More Cars And Fewer Deaths

Despite the fact that there were about 18,000 more motor vehicles in use in the city of Berlin last year than in 1928, the number of persons killed in motor accidents declined by a dozen to a total of 204 in 1929, according to data recently made public in the German capital. Compared with 1925, when there were only about 35,000 motor vehicles in the city, the number of fatal accidents had risen only about 30 per cent, against a trebling of the number of vehicles. This is held by the Berlin papers to be due mostly to improved traffic control and partly to increased agility on the part of the public. It is pointed out that 93 per cent of the accidents last year resulted from violations of traffic rules. From the beginning of this year to July 1, the number of motor vehicles registered in Berlin rose from 96,082 to 107,312. A feature of the registration in May and June was the fact that 10 per cent of the licenses were issued to women, against about 5 per cent last year.

German Vacation Cost Paid In Installments

Schwartzingen.—If goods can be bought on the installment plan, why not also vacations? This city, famous alike for its palace and parks and gardens and for its spas, has decided to issue coupon tickets, good for a two weeks' visit, half to be paid down and the balance in monthly installments of ten marks (\$24.00). The coupons include not only board and lodging, but also excursions to Heidelberg and the Neckar Valley, to the Rhenish Palatinate, noted palaces in Baden, and an automobile trip through the Odenwald.

Additional Historic Sites to be Marked

Department of the Interior Continues Work of Preserving Our National Historic Ruins

Since the year 1919, when the Historic Sites and Monuments Board of Canada was instituted, the Department of the Interior, through its National Parks Service has marked, by the erection of suitable memorials, 159 sites pertaining to the history of the Dominion. From time to time, among the various sites acquired are the site of Fort Wellington at Prescott, Ontario; Fort Stanwix at Chamblay, P.Q.; and Fort Lennox, near St. Johns, P.Q., on which are situated interesting structures erected by the French and the English for defensive purposes along the Richelieu and St. Lawrence rivers. Considerable restoration and improvement work has been carried out at these sites and they are visited by streams of tourists. It is the intention of the Department of the Interior ultimately to mark throughout Canada all those sites that have a distinct bearing on the history of the Dominion.

Chinese Use Bean As Source of Milk

How could we get along without milk? Yet in a large part of the world its use for human food is unknown. In China its place is taken by a liquid prepared from the soy bean.

And thus, the almost universal source with us, is replaced elsewhere by a formidable list of other animals; milk is the food of all young mammals. "The Uses of Milk in the Home" is the subject of one of eight radio talks issued in pamphlet form by the University of Pittsburgh under the title "Science in the Kitchen." This talk was given by Lawrence W. Bass of the University, and runs, in part, as follows: "Few of us realize the important place of milk in our diet. Yet the total consumed annually per person in the United States exceeds fifty-five gallons. The products of the dairy industry are now estimated to have a value of about three billion dollars per year.

Dirty Water Menace To Public Health

Dirty water is always dangerous; it may contain the germs of disease. The careful bather avoids badly managed swimming-pools and streams full of city sewage.

In France at present, a special and dangerous germ has been identified transmitted by rats and lurking especially in the muddy bottoms of streams, where it is stirred up by careless bathers and particularly by hardy divers. In Candide (Paris), a French physician, Dr. Thomas, writes as follows of it and its other characteristics: "For several years past, attention has been directed to the dangers sometimes present in certain swimming-pools. Cases of ear and sinus troubles and of angina have been reported, arising from these conditions. Reference is not made to malades due to simple chilling, resulting from immersion, but to contagious diseases, such as diptheria and conjunctivitis.

Boys Turn Green Parents Frantic

Ansonia, Conn.—Health authorities and private physicians here were besieged recently with telephone calls from frantic mothers who exclaimed, "Oh, doctor, what shall I do? My son has turned green!"

Eight boys who had gone to bed one night, appeared at the breakfast table with light green hair, green eyebrows and green eyelashes. The first attempt to restore the boys, who ranged from eight to thirteen years of age, to their natural colors, was made with soap and water, but the green appeared to be fast. All that a good shampoo did was to add some iridescent gleams to the greenness. Some of the boys, as they passed from sun to shade, altered their hues like the chameleon. By this time the startled parents were seeking medical advice. Physicians were baffled to explain why a flesh-colored child should suddenly turn to a greenish opalescence. The clinical thermometers showed no signs of fever, but some of the boys showed marked quickening of the pulse as they looked in the mirror at their ghastly phosporosence. It was dimly thought that the child should be bathed with a greenish opalescence. The clinical thermometers showed no signs of fever, but some of the boys showed marked quickening of the pulse as they looked in the mirror at their ghastly phosporosence. It was dimly thought that the child should be bathed with a greenish opalescence.

Keep Children Well During Hot Weather

Every mother knows how fidgety the hot summer months are to small children. Cholera, infantum, diarrhoea, dysentery, colic and stomach troubles bring the baby safely through a few hours little life is lost after only a few hours illness. The mother who keeps baby's Own Tablets in the house feels safe. The ordinary use of the Tablets prevent stomach and bowel troubles, or if trouble comes suddenly—as it generally does—the Tablets will bring the baby back to normal. They are sold by medicine dealers or by mail at 25 cents a box from The Williams' Medicine Co., Brockville, Ont.

Was Run Down Now Well Again

Takes Pleasure in Recommending Dr. Williams' Pink Pills. To the woman in the home illness is almost a calamity. Many a woman keeps on with her household duties when she is feeling ready to drop. Her nerves are easily tired, she is depressed and nervous and has no more life. In a word, she is anemic and badly needs help—the health-help that only Dr. Williams' Pink Pills can give her. These pills make rich, red blood which brings new strength and energy to weak, despondent sufferers. Convince them, Mrs. Paul Rati, Coteau du Parc, Que., says: "I was badly run down, slept poorly, and awoke as tired as when I went to bed. My appetite was poor and I felt miserable. I took six boxes of Dr. Williams' Pink Pills and they completely renewed my health."

How One Woman Lost 47 Pounds of Fat

I have been taking Kruschen Salts for nearly 3 months. I have continued taking one teaspoonful in warm water every morning. I then weighed 217 pounds, so always bothered with pains in my back and lower part of abdomen and sides. Now I can get to say I am a well woman, feel much stronger, years younger and my weight is 170 pounds. I do not need any more pills. I look better, so all my credit says. I shall never be without Kruschen Salts. It never ceases taking my daily dose and more than glad to highly recommend it to me as great good that is in it. Mrs. S. A. Solomon. (P.S. I may think I am exaggerating or writing such long letters but I am so indebted to you for putting me such wonderful cures that I cannot say enough.")

When Food Sours

It has remained the same since its invention. It is the quick method, it comes almost instantly. It is the proved method. You will find another when you know. Be sure to get the genuine Milk of Magnesia prescribed by the class for 50 years in correcting acids. Each bottle contains all reaction—no druggists.

"Please Teacher—"

Only teachers know how times to deal with a room of children. What a relief when class hour comes. Take time a cup of tea. Nothing so soothing for tired nerves.

sea, and a larger model No. 389, with 4450 H.P. engine, with a view of the sea, and a larger model No. 390, with 4475 H.P. engine, with a view of the sea, and a larger model No. 391, with 4500 H.P. engine, with a view of the sea, and a larger model No. 392, with 4525 H.P. engine, with a view of the sea, and a larger model No. 393, with 4550 H.P. engine, with a view of the sea, and a larger model No. 394, with 4575 H.P. engine, with a view of the sea, and a larger model No. 395, with 4600 H.P. engine, with a view of the sea, and a larger model No. 396, with 4625 H.P. engine, with a view of the sea, and a larger model No. 397, with 4650 H.P. engine, with a view of the sea, and a larger model No. 398, with 4675 H.P. engine, with a view of the sea, and a larger model No. 399, with 4700 H.P. engine, with a view of the sea, and a larger model No. 400, with 4725 H.P. engine, with a view of the sea, and a larger model No. 401, with 4750 H.P. engine, with a view of the sea, and a larger model No. 402, with 4775 H.P. engine, with a view of the sea, and a larger model No. 403, with 4800 H.P. engine, with a view of the sea, and a larger model No. 404, with 4825 H.P. engine, with a view of the sea, and a larger model No. 405, with 4850 H.P. engine, with a view of the sea, and a larger model No. 406, with 4875 H.P. engine, with a view of the sea, and a larger model No. 407, with 4900 H.P. engine, with a view of the sea, and a larger model No. 408, with 4925 H.P. engine, with a view of the sea, and a larger model No. 409, with 4950 H.P. engine, with a view of the sea, and a larger model No. 410, with 4975 H.P. engine, with a view of the sea, and a larger model No. 411, with 5000 H.P. engine, with a view of the sea, and a larger model No. 412, with 5025 H.P. engine, with a view of the sea, and a larger model No. 413, with 5050 H.P. engine, with a view of the sea, and a larger model No. 414, with 5075 H.P. engine, with a view of the sea, and a larger model No. 415, with 5100 H.P. engine, with a view of the sea, and a larger model No. 416, with 5125 H.P. engine, with a view of the sea, and a larger model No. 417, with 5150 H.P. engine, with a view of the sea, and a larger model No. 418, with 5175 H.P. engine, with a view of the sea, and a larger model No. 419, with 5200 H.P. engine, with a view of the sea, and a larger model No. 420, with 5225 H.P. engine, with a view of the sea, and a larger model No. 421, with 5250 H.P. engine, with a view of the sea, and a larger model No. 422, with 5275 H.P. engine, with a view of the sea, and a larger model No. 423, with 5300 H.P. engine, with a view of the sea, and a larger model No. 424, with 5325 H.P. engine, with a view of the sea, and a larger model No. 425, with 5350 H.P. engine, with a view of the sea, and a larger model No. 426, with 5375 H.P. engine, with a view of the sea, and a larger model No. 427, with 5400 H.P. engine, with a view of the sea, and a larger model No. 428, with 5425 H.P. engine, with a view of the sea, and a larger model No. 429, with 5450 H.P. engine, with a view of the sea, and a larger model No. 430, with 5475 H.P. engine, with a view of the sea, and a larger model No. 431, with 5500 H.P. engine, with a view of the sea, and a larger model No. 432, with 5525 H.P. engine, with a view of the sea, and a larger model No. 433, with 5550 H.P. engine, with a view of the sea, and a larger model No. 434, with 5575 H.P. engine, with a view of the sea, and a larger model No. 435, with 5600 H.P. engine, with a view of the sea, and a larger model No. 436, with 5625 H.P. engine, with a view of the sea, and a larger model No. 437, with 5650 H.P. engine, with a view of the sea, and a larger model No. 438, with 5675 H.P. engine, with a view of the sea, and a larger model No. 439, with 5700 H.P. engine, with a view of the sea, and a larger model No. 440, with 5725 H.P. engine, with a view of the sea, and a larger model No. 441, with 5750 H.P. engine, with a view of the sea, and a larger model No. 442, with 5775 H.P. engine, with a view of the sea, and a larger model No. 443, with 5800 H.P. engine, with a view of the sea, and a larger model No. 444, with 5825 H.P. engine, with a view of the sea, and a larger model No. 445, with 5850 H.P. engine, with a view of the sea, and a larger model No. 446, with 5875 H.P. engine, with a view of the sea, and a larger model No. 447, with 5900 H.P. engine, with a view of the sea, and a larger model No. 448, with 5925 H.P. engine, with a view of the sea, and a larger model No. 449, with 5950 H.P. engine, with a view of the sea, and a larger model No. 450, with 5975 H.P. engine, with a view of the sea, and a larger model No. 451, with 6000 H.P. engine, with a view of the sea, and a larger model No. 452, with 6025 H.P. engine, with a view of the sea, and a larger model No. 453, with 6050 H.P. engine, with a view of the sea, and a larger model No. 454, with 6075 H.P. engine, with a view of the sea, and a larger model No. 455, with 6100 H.P. engine, with a view of the sea, and a larger model No. 456, with 6125 H.P. engine, with a view of the sea, and a larger model No. 457, with 6150 H.P. engine, with a view of the sea, and a larger model No. 458, with 6175 H.P. engine, with a view of the sea, and a larger model No. 459, with 6200 H.P. engine, with a view of the sea, and a larger model No. 460, with 6225 H.P. engine, with a view of the sea, and a larger model No. 461, with 6250 H.P. engine, with a view of the sea, and a larger model No. 462, with 6275 H.P. engine, with a view of the sea, and a larger model No. 463, with 6300 H.P. engine, with a view of the sea, and a larger model No. 464, with 6325 H.P. engine, with a view of the sea, and a larger model No. 465, with 6350 H.P. engine, with a view of the sea, and a larger model No. 466, with 6375 H.P. engine, with a view of the sea, and a larger model No. 467, with 6400 H.P. engine, with a view of the sea, and a larger model No. 468, with 6425 H.P. engine, with a view of the sea, and a larger model No. 469, with 6450 H.P. engine, with a view of the sea, and a larger model No. 470, with 6475 H.P. engine, with a view of the sea, and a larger model No. 471, with 6500 H.P. engine, with a view of the sea, and a larger model No. 472, with 6525 H.P. engine, with a view of the sea, and a larger model No. 473, with 6550 H.P. engine, with a view of the sea, and a larger model No. 474, with 6575 H.P. engine, with a view of the sea, and a larger model No. 475, with 6600 H.P. engine, with a view of the sea, and a larger model No. 476, with 6625 H.P. engine, with a view of the sea, and a larger model No. 477, with 6650 H.P. engine, with a view of the sea, and a larger model No. 478, with 6675 H.P. engine, with a view of the sea, and a larger model No. 479, with 6700 H.P. engine, with a view of the sea, and a larger model No. 480, with 6725 H.P. engine, with a view of the sea, and a larger model No. 481, with 6750 H.P. engine, with a view of the sea, and a larger model No. 482, with 6775 H.P. engine, with a view of the sea, and a larger model No. 483, with 6800 H.P. engine, with a view of the sea, and a larger model No. 484, with 6825 H.P. engine, with a view of the sea, and a larger model No. 485, with 6850 H.P. engine, with a view of the sea, and a larger model No. 486, with 6875 H.P. engine, with a view of the sea, and a larger model No. 487, with 6900 H.P. engine, with a view of the sea, and a larger model No. 488, with 6925 H.P. engine, with a view of the sea, and a larger model No. 489, with 6950 H.P. engine, with a view of the sea, and a larger model No. 490, with 6975 H.P. engine, with a view of the sea, and a larger model No. 491, with 7000 H.P. engine, with a view of the sea, and a larger model No. 492, with 7025 H.P. engine, with a view of the sea, and a larger model No. 493, with 7050 H.P. engine, with a view of the sea, and a larger model No. 494, with 7075 H.P. engine, with a view of the sea, and a larger model No. 495, with 7100 H.P. engine, with a view of the sea, and a larger model No. 496, with 7125 H.P. engine, with a view of the sea, and a larger model No. 497, with 7150 H.P. engine, with a view of the sea, and a larger model No. 498, with 7175 H.P. engine, with a view of the sea, and a larger model No. 499, with 7200 H.P. engine, with a view of the sea, and a larger model No. 500, with 7225 H.P. engine, with a view of the sea, and a larger model No. 501, with 7250 H.P. engine, with a view of the sea, and a larger model No. 502, with 7275 H.P. engine, with a view of the sea, and a larger model No. 503, with 7300 H.P. engine, with a view of the sea, and a larger model No. 504, with 7325 H.P. engine, with a view of the sea, and a larger model No. 505, with 7350 H.P. engine, with a view of the sea, and a larger
