News and Information for the Busy Farmer

Furnished by the
Ontario Department of Agriculture

All farm products were reported moving slowly on the market with prices low the middle of September. Prices were selling at 75 cents to \$1.00 per 11-quart basket; eggs, bushels, \$2 cents per dozen; bacon, 75 cents per bushel; barley, 25 cents; oats, 27 cents; wheat, 31.75 to \$1.10 per bushel, and maize, 15.25 cents per

bushel.

In the market, the price of

lamb, 25 cents per pound.

They may then

expect to sell at low temper-

ature a little higher for the

balance of the storage season.

WHEAT

Weekly Crop Report

Reports from representatives

throughout the province indicate

that due to long-continued drought,

the average sown to fall wheat this

year will drop almost 50 per cent be-

low the average. In many sections

it has been "almost impossible" to

sow and where cultivation has been

accomplished there is not enough

moisture to sprout the seed. The

wheat and root crops have also suf-

fered severely during the dry weather

and many farmers have been filling

their wells early because the corn is

drying up and depleting in food

value. Grain yields throughout the

province have been generally good.

Wheat has yielded from 25 to 40

bushels per acre and oats from 45

to 80 bushels per acre. Several down-

towns report average yields of

from 25 to 30 bushels per acre with

the quality exceptionally high. Lin-

coln County reported a very large

crop of oats with Prince Ed-

ward's, Owen Sound, 45

bushels per acre.

There is a smaller area in West-

Ontario ready after harvest cut-

this year due to dry weather.

Eastern and Northern Ontario,

where more rain has fallen, report

that farmers are paying more atten-

tion to summer fallowing and after

harvest cultivation and are making

an effort to keep in conser-

vative weed that have become so

troublesome on most Ontario farms.

Loss From Smut.

A survey of 250 farms in Oxford County made during the past sum-
mer under the direction of the local agricultural branch, showed that ap-
proximately 41,000 bushels of wheat
was the annual loss to Oxford County
out of a total production of
527,000 bushels. The loss was
estimated about 8 per cent of what
is grown in the county.

Why should the writer—who has
not sufficient honor to sign his or
her name—ask if the "Local Agricul-
tural Representative is not giving
good leadership" without first in-
quiring what has been done without
telling to the medium of the press?

Is the writer endeavouring to create
doubt as to the efficiency of the De-
partment of Agriculture or to be-
ittle myself and staff in the eyes of
Grey County people whom we have
tried to serve as duty dictated since
April 1920? What is the idea of
sending to several papers this same
letter? Grey County people are too
laid to condone such contemptible
action from nameless writers.

I personally was not present at
Toronto C.N.E. this year but for the
benefit of "Old Kimberley Boy" al-
low me to say that there were not
only seven but eleven from Grey
County, everyone of which entered
the contest spoken of. The results are published elsewhere in this is-
sue. Three of the contestants did
not march in the procession. Our
team of three girls stood 9th out of
34 county teams competing. No
county team of boys competed at the
C.N.E. It is individual judging
there. Therefore, "Old Kimberley
Boy" need not look for Boys Teams
from any county at this contest.

Why should that anonymous writer
mention the "20 or 25 stalwart
young men and handsome young
ladies" from each county? Please
stand on the truth. Only nearby
counties such as Wentworth, Peel,
Halton and York were thus repre-
sented. Those, as everyone knows
can get up early in the morning of

the contest, drive to Toronto in from
one half to two hours time then re-
turn home the same night. The re-
sult is no expense for lodgings. Is
that the truth?

The department is shipping a car-
load of sows to Alton Craig district
towards the end of October with a
view to bettering the stock of that
district. The stock were selected
from Ontario packing plants by the
Department swine grader.

Sets Good Example

The township of Hollowell in
Edward County has set
example to other municipalities
in the way of enforcing wine
laws. A portion drawing atten-

tion to the following:

"The Township of Hollowell
has passed an ordinance which
prohibits the sale of beer, wine
and liquor in its limits."

It is to be hoped that

other municipalities will follow

the example of Hollowell.
