### A VISIT WITH HIS DADDY

Evening rates on "Anyone" (station-to-station) calls now begin at 7 p.m. Night rates begin at 8:30 p.m. Just give "Long Distance" the number you want—it speeds up the service. If you don't know the distant number, "Information" will look it up for you.  
"twice a week Jimmy stays up until eight-thirty—Daddy is on the road, but he doesn't want to become a stranger to his son. And so, every Monday and Thursday evening, he pays a visit by telephone."  
It doesn't cost much because he waits until eight-thirty when the lowest night rates begin. It amounts to about the price of a movie for a call and in return he gets something beyond money—the voices of his wife and his little boy—a touch of home—moments of affection for them all to remember and look forward to.  
Many people away from home are using the telephone these days to have regular visits with their families. Out-of-town calls are so simple to make and they are quick and inexpensive. They are the next best thing to being really home.
