Tones and invigorates the whole

the Busy Farmer

Ontario Department of Agricultur

A Word to Junior Farmers "Hats off to the past, coats off to the future," was the slogan given to Junior Farmers by Mr. J. B. Fairbairn, Deputy Minister of Agriculture, in an address at a banquet tendered this organization in Toronto ast week. Mr. Fairbairn impressed that money was not everything. "The greatest force in the world to-day is intelligence," he said, in urging his audience to develop an ideal. Honesty and straightforwardness than monetary returns.

Current Crop Report

Live stock throughout the prov nce is reported to be in a generally appears healthy in Bruce but some somewhat because of the poor grass. In Essex a complete clean-up of the tion and the report states that live stock will go into winter quarters in fine shape. Cattle are moving briskly in 'Oxford with many head being shipped to Quebec and the United States. Between 30 and 35 roots per 100 pounds live weight. carload of cattle have been shipped out of Temiskaming so far and all live stock is reported in first-class condition. Farmers in Welland are fearing a water famine this winter as a result of the absence of rain. Many wells and streams are already

Fertilizer Tests on Potatoes During the past summer the De partment of Chemistry, O.A.C., in co-operation with the Boys' Training School at Bowmanville, has conducted an extensive test with fertilizers of varying analyses on the potato ing brethren cordially invited crop. In the experiments two sets of plots were used. On the first set, the fertilizers were applied at the rate of 1000 pounds per acre and on 1016 meets in the Orange Hall on the second set at the rate of 500 Tanveday evening on or before the wounds. In each set one plot was full moon in each month. Visit: 1.11 without fertilizer for comparison. In these tests and on this soil. a 2-12-6 dertilizer seems to give materially better results than any other. 28. Mosts in the Orange Hall, the provider were applied at 1000 pounds per acre, the average M. kduis, on the Treadily evening after the full moon in each menth. Field of potatoes was 241.5 bushels tion of a far-reaching nature affect-Tietres brettern alware coreinly against an average where no fertiliing agriculture would be introduced Works brethron alwars cordially against an average where no return ing agriculture would be introduced.

A. C. Stewart, W.P.; zer was applied of 162.1 bushels.

This figured out at a net gain of and that a committee would shortly and that a committee would shortly zers were applied at the rate of 500 tario to investigate every phase of pounds to the acre, the average yield agriculture. County councils was 190.6 bushels as compared with throughout Ontario will be asked to 162.1 where no fertilizer was used help the department in spreading

· Junior Judging Contest In connection with the 1932 World's Grain Conference a junior grain judging competition will be held according to a recent announceexhibition from agricultural societies embrace the whole province eventand junior grain clubs throughout ally, Canada, while many similar organizations in various parts of the United States have signified their desire to become acquainted with the rules and regulations. Copies of the preliminary announcement may be obtained upon application, from the
