Too Much Silage

Authorities claim that silage is ar extra good feed if it is not abused. Two kinds of abuse are to feed too much and to let the surplus accumuate in the mangers. It should not be forgotten that silage is largely water. If the cows are encouraged Building, Toronto. I. B. He put them forward as the representative of a corporation which extended throughout all parts of Canada and was vitally concerned in the economic situation in any section thereof. There was in this important utterance no suggestion of anything in the nature of intended charity towards the West. The whole project, he said, should be directed by warm sympathy for a community of courageous pioneers threatened with distress and by a desire to provide just assistance when it is hadly needed. There should be full their equity in their homesteads in culture in the West, an agriculture appreciation of the fact that the
