**Marble Pool on Palatial Liner**

Above or below decks there is lots of fun on the Canadian Pacific's new record-breaking Empress of the White and Green marble swimming pool, shown above with a happy group enjoying its spacious tank. The cautious miss in the corner (left) who evidently does not believe the assurances of the two already in the tank that the water is warm need not test it for one of the features of the 26,000 ton liner is that the golden dolphin seen in the background spouts warm or cool water as desired. One hundred and sixty tons of water are needed to fill the tank. Surrounded by dressing rooms, showers, and electric baths, the swimming pool has its own cafe with rubber-cushioned chairs where attendants serve warming drinks with Oriental Impassivity.
