

**Enjoyable Garden Party**

The attendance at the garden party under the auspices of the Anglican Church Sunday School, held Tuesday evening, on Mrs. Haskett's lawn, was not as large as it had been hoped for. While the supper was being served a heavy shower stopped the proceedings and delayed the commencement of the program, which was supplied by Mr. Jack Lawrence, Scotch comedian, and Douglass Bros., sons of Mr. and Mrs. H. L. Douglass of Toronto formerly of this place. Rev. C. O. Pherrill acted as chairman. Mr. Lawrence pleased the audience with his numbers and all were delighted with the Douglass boys. Their selections on the guitars and their vocal numbers were most pleasing. It was one of the most enjoyable musical programs we have heard in a good many years. Miss Madge Lucas was the accompanist for Mr. Lawrence.

**Dundalk Old Home Week**

Elaborate preparations have been made to entertain large crowds during Dundalk Old Boys' and Girls' Re-Union—August 2, 3, 4 and 5, 1931. Girls' softball, baseball, horse races, baby show, boxing bouts, 2-mile road race, horseshoe pitching and other sports. Plenty of band music. Parades every morning. Street dancing and concerts each night. During the Re-Union, Cotton's Model Shows with 30 attractions will be in town. Don't miss the biggest event in Dundalk's history!

**C. R. Itic Comes Back**

Dear Readers,—Now that conditions are getting better and unemployment almost a thing of the past in Markdale and vicinity I have decided that I can afford to take a little time each week to keep you informed as to some of the important events which are going on in our midst.

You all know that we are going to have our two main streets paved and that the contractor is now busy getting his plant installed in the gravel pit on the C.P.R. property north of the village. There are a great number of machines but what they are for I do not know. I was over there the other day and they had a big shovel at work taking the top off the pit. It's a great worker and removes the earth in double quick time. I understand that all the gravel for the work at Meaford, work at Meaford, 10000,

Flesherton and Markdale will be taken from the pit here. If this is the case the workers here will benefit. I was going to see Mr. King—that's the contractor's name—about getting a job but the little woman has persuaded me to wait until all the other fellows have secured work before I start. She says, I'm not much use as a worker and that she has lived with me long enough to know. Mr. King must be a regular fellow because I hear quite a few of the boys around town calling him "Bill". Well, here's hoping that Bill makes a little money out of his contracts, that he makes a lot of the working men and their families happy and contented and that the pavements when completed will be the best in Ontario and stand as monuments to the knowledge and ability of Bill King, the contractor.

I was over watching the horseshoe pitching gang at Mercer's corner the other night and some of them are getting pretty good. "Murph" Mercer and Phil Kelley defeated George Snell and Dan Murdoch in a three-out-of-five contest but they had to go some to squeeze out a victory.

The little woman went over to Feversham with the Orangemen and their friends on the 12th of July and I was compelled to celebrate with the youngsters at home. One of the youngsters in connection with the day was that she got wet while I was high and dry at home. She says that if I behave pretty decently she'll let me take in the fall fair here in October provided I look after at least two of the children.

Now, dear readers, if the editor to give you a little news and interest doesn't choke me off I'll continue mailen each week so long as there is anything left to write about.

C. R. Itic.

**75 years of sound development**

At the outset of its career in 1855, this Bank's policy of "sound and conservative banking methods" was inaugurated.

At the first annual meeting on July 15, 1857, the reserve fund was created with \$2,500.

During more than three quarters of a century this Bank has consistently followed its sound policy. When bad financial weather darkened Canadian skies, this Bank weathered the storms and developed consistently by its own strength, and without mergers.

Today its Reserves are 50 per cent greater than its paid up capital.

The principles upon which this sound record was built are those by which we safeguard the welfare of our clients.
