Egremont Farmer Killed

A fatal accident occurred on the 10th concession of Egremont about 5 o'clock Wednesday afternoon, August 18th, when James W. Hunter, a prominent farmer was almost instantly killed while engaged in hauling in on his own farm. With Mr. Hunter at the time was his son, Hugh, the only witness of the tragedy; a young lad only 16 years of age.

From what the Chronicle could learn late last night, Mr. Hunter and his son were engaged in hauling

Car Tangle in Court

On Friday morning Mike Rennie appeared in police court before Police Magistrate H. Falconer. Rennie was charged with the theft of a coupe by Bill Kellettsin. The evidence of both plaintiff and accused was complicated and conflicting. The case was adjourned until Tuesday. As theft could not be proved, the case was dismissed.

Some time ago, Mr. Kellettsin became a guest of the province because of keen competition in the liquor business. At that time the car was in Bryan's garage. While incarcerated, Kellettsin notified the garage by phone that some person would call for the car. A few days after Rennie took the coupe away. Upon his release, Kellettsin laid the theft charge.

Rennie insisted that he had bought the car and had made a payment by cheque. Before the transfer was officially made Kellettsin went to the big house, Rennie took possession of the machine until the other party of the deal had obtained his liberty.

Kellettsin claimed he had not sold the car. The cheque, he insisted, was given on a liquor deal. He also argued that as the car was worth more than Rennie said was the price, it was ridiculous to think it was sold. His Worship, Magistrate Falconer, dismissed the case and left the contestants to settle the ownership themselves.

To make the case still more complicated, the car was brought from the U.S. listed as settlers' effects. It cannot be sold until in Canada for one year or until the duty has been paid. Before it can be used it must have an Ontario license. Kellettsin is the only person who can either pay the duty or obtain a license.

After court both men proceeded to the garage where the car has been held in police custody since the charge was laid. After much argument and disagreement both left at once. Later in the day Chief of Police Albert McNeill officially released the car from police custody. In the afternoon Rennie located the car away. Its present location is unknown.

Kellettsin, it is rumored, is threatening to bring civil action against Rennie. Likewise, rumor says that Rennie intends to force Kellettsin to give him a clear claim to the car.

As the case now stands, Rennie cannot use or dispose of the car. Kellettsin must take legal action to recover it. The customs inspector may seize the car if the duty is not paid. The case will possibly develop within the next few days.

Celebrated 96th Birthday

There was a unique gathering at the home of Mrs. Henry Wells of this place on Sunday, August 23rd, when four generations met to celebrate the 96th anniversary of the birth of Mrs. Robert Havers, mother of Mrs. Wells. Mrs. Havers was born in Suffolk, England, and came to Canada 56 years ago. For some years, the family resided near Orangeville before moving to the present home near St. Marys. Mr. Havers died about 13 years ago. Of a family of twelve, five sons and three daughters still survive. Mrs. Havers still enjoys good health and is able to attend church services occasionally. She is a member of the United Church. After visiting here she made the trip, 110 miles, by auto to her home at St. Marys.

There were thirty-five present at the gathering. On the table was a birthday cake decorated with 96 candles. To Mrs. Manning, a granddaughter, who also celebrated her birthday the same day, fell the honor of cutting the cake and her daughter, Miss Edna Manning, carried it to Mrs. Havers. It was a happy gathering. Those present were Mr. and Mrs. Percy Manning of Napanee; Mr. and Mrs. Wm. Jely and Mr. Thos. Garbutt of Orangeville; Mr. and Mrs. Reuben Wells of Grand Valley; Mr. and Mrs. Norman Wells and family of Meaford; Mrs. Stanley Fothergill of Meaford; Mr. and Mrs. Thos. Wells and family, Mr. Geo. Havers and Miss Evelyn Hill of Euphrasia and Mrs. F. Patterson of St. Marys.

What A Difference

(Farmers Advocate)

There are plenty who think the farmer is "fleeced", going and coming, and evidence to substantiate that theory is found in the following extract taken from the Bracebridge Gazette. For its accuracy "The Farmer's Advocate" will not vouch. Anyone attempting to check all the details would probably turn "red" or just plain mad. Anyway, here is the story:

"A short time ago a farmer brought a calf's hide to the store where I am employed. After looking up the market on hides I found the best price I could offer him was four cents per pound. The hide weighed 12 3/4 lbs., which at four cents, equals 51 cents and in exchange he took one pair of shoe laces at 20 cents; one package puff-wheat at 16 cents, and one package health bran at 15c. After the man had left the store I began to compare the values of these articles. The laces were the sort used for lacing long boots and were cut from common every-day calf skin. On weighing these I found that there were 24-pairs to the pound, at 20c. per pair, making the cost \$4.80 per pound. As leather gains five per cent. in tanning, the 12 3/4-pound hide would weigh 16 pounds when finished and would be worth \$78.60 when cut into laces. So if the farmer wished to buy his same calf hide tanned and cut into laces he would need to bring in 80 calf hides at 50c., plus 60 sheep skins at 40c., plus 20 lamb skins at 25c., plus 80 pounds of wool at 8c., and to make up the balance would have to hand over \$1.40 in cash. The package of puffed wheat was marked "4 oz. net," or 4c. per oz., or 64c. per pound, or \$38.40 per bushel. Now if the same farmer wished to take home a bushel of wheat converted into puffed wheat (which is common ordinary every-day wheat put through a vacuum gun, which does not add one vitamin or make it one particle richer in food value) he would need to bring in 50 bushels of wheat at 70 cents, plus 20 bushels of barley at 35c., and would only have to pay \$1.40 in cash. The package of bran was marked 14 oz. net, or about 1c. per oz., 16c. per lb., or \$16 per cwt. Now if this same farmer wished to take a bag of common, ordinary, every-day bran put up in cardboard boxes he would need to bring in 12 dozen eggs at 30c. plus 15 pounds of butter at 30c. plus 5 bags of potatoes at \$1 and would only be required to bor-

Soybean Demonstration

One of the most interesting new plants being grown in Grey County is soybeans. This last spring the Department of Field Husbandry, O. A. C., Guelph, sent a couple of bushels to J. H. Menary, Jr. on the 11th concession of Euphrasia.

This crop has done exceptionally well for Mr. Menary. Part of it has been cut for hay while the other is being left for seed production. It can be seen by the farmers who might be interested at Mr. Menary's home.

Soybeans can be used for forage crop or seed production. The hay is a rich legume feed like alfalfa. The seed is very high in protein. It is almost equal to cotton seed, therefore, is an exceptionally good crop to feed to growing animals. Mr. Menary would be delighted indeed to show interested farmers this practical experiment.

The Grey County branch of the Department of Agriculture who were instrumental in securing this seed would be glad to have as many Grey County farmers as possible visit the plot.

Vandeleur W. I.

The August meeting of the Vandeleur Women's Institute was held at the home of Mrs. Stodart, where Barrehead Institute visited and entertained the Vandeleur ladies with an interesting program.

After the usual business Mrs. Torry, president of Barrehead W.I., presided. The program consisted of readings by Miss Mary Bowles and Mrs. Earl Smart; duet by Mrs. Foster and Mrs. Wilson. Mrs. White gave a paper after which Miss Ada Hill sang. Two contests were put on, one by Mrs. Symes and the other by Mrs. Torry. Both were very much enjoyed by everyone. Prizes were won by Mrs. Al White and Mrs. Silas Hill. Lunch was served by all members.

Strathavon

Threshing is the order of the day.

Quite a number from here attended the shower for Mr. and Mrs. Stuart Howey (nee Lettie Mustard).

Mr. and Mrs. Arthur Torrie motored to North Bay and spent a few days.

Miss Islay Morgan has returned home after visiting relatives in Toronto and Brantford.

Here and There

More than half the fresh water of the globe is contained in inland waters of Canada and twenty different varieties of food fish are obtained from them in abundance by commercial fishermen.

Final figures of gold production for 1930 may find Canada in second place instead of the United States—following South Africa, according to estimates of the Director of the United States Mint.

Travelling health clinics operated by the Alberta Government in that province to visit remote districts and provide free medical service, went to 27 points last year including 309 school districts.

The habit of taking snuff is on the increase in Canada. In 1923 over 997,000 pounds were made, valued at \$1,250,933, an increase of over 337,000 pounds and more than \$530,000 in value as compared with 1919.

Fish as candles? Certainly, some of them, sometimes. Oulachons, small oily fish taken in British Columbia waters, are also known as "Candlefish," because the Indians used to dry them and use them as candles.

Forty-one anglers who fished the 4 1/2 miles of open water reserved for regulated public fishing on the famous Restigouche River in New Brunswick during the 1930 season caught 312 salmon weighing 5,237 pounds.

The Earl and Countess of Bessborough, Canada's new Governor-General and wife, arrived at Halifax Easter Saturday on board S.S. Duchess of Bedford. They were accompanied by their son, Viscount Duncannon, and their daughter, Lady Moyra Ponsonby.

Rocky Mountains Are Ideal Holiday Land

Beauty unrivalled, health-giving altitudes, all the comforts that modern ingenuity can devise and "something to do" all the time await the army of travellers from all over the world, which annually invades the glorious Canadian Rockies through the Banff Springs Hotel and the Chateau Lake Louise. These stately up-to-date hostels, which open on May 15 and June 1, respectively, are not only key-points to the most beautiful mountain territories in the world, but are, themselves, located in settings of a beauty which has to be seen to be truly appreciated. On the main line of the Canadian Pacific Railway, which owns and operates them, they are equipped not only to be "homes from home" to the travelling public and holiday-seekers in the generally accepted sense, but to furnish entertainment for their guests in many and varied ways. Auto drives, trail-rides, boating, fishing, swimming, golf, tennis, hiking and mountaineering—to say nothing of the famous Indian Days and the Highland Gathering, are all part of programs which years of experience have brought to perfection. Experts in all lines are in attendance to be of service to the hotel's guests and real cowboys, red-coated "Mounties" and true Story Indians lend color to a hundred variations of uniquely picturesque scenes. There is never a dull moment at Banff or Lake Louise. There is something for every taste and the rounding off of full days by dancing in cool and spacious ball-rooms, to smart orchestras, is not the least of the attractions offered.

The pictures show: (1) the Banff Springs Hotel; (2) a typical Story Indian; (3) the Chateau Lake Louise.
