Don't be a road hog!

The person who drives in the middle of the road at any speed, but especially the extremely slow driver, offers a silent insult to every other driver on the highway.

But this disregard of every rule of common courtesy is merely incidental.

The real offense of the Road Hog is that he forces others to risk life and limb. He obstructs the vision of those drivers behind him and makes them either drive at his speed or risk a head-on collision in passing him.

Probably no form of law-breaking on the highways causes directly or indirectly so varied a list of accidents as does middle-of-the-road driving.

Every man who drives a car helps to pay for the highways. Every motorist is entitled to use them safely.

Why deprive any man of his right?

Don't be a Road Hog.

PLEASE

There are a good many of the subscribers to The Standard who have let their subscriptions become in arrears and the sum of such arrearages makes quite a total. We need the money and would ask all those indebted to us to please make an effort to let us have a remittance at the earliest possible moment. The amount of each individual account when multiplied by four or five hundred means much to us.

Please let us have your little contribution.
