**News and Information for the Busy Farmer**

Furnished by the Ontario Department of Agriculture

**Buy Clover Seed Now**  
 Farmers anticipating the purchase of clover and alfalfa seeds, would be well advised to do so now. The situation is that there are many Ontario growers who are in need of ready cash, and who will accept sacrifice prices. Obviously, then, this would seem to be the time to buy clover seed; rather than wait till spring when prices may be considerably higher.

In the purchase and sale of small seeds, the Dominion Seed Act requires that such seeds must be sold by grade. The Dominion Seed Branch will examine samples free of charge.

**Titular Horseshoe Pitching**  
 A climax for horseshoe pitching this season will be reached in the Dominion championship contests at the Royal Winter Fair, Toronto, Nov. 24, 25th and 26. Players eliminated in the championship series will have a second chance for honours in the consolation singles and doubles. Ontario doubles championship, open to winning teams at county and rural fairs in 1931, will be run off at the Royal at the same time. Teams in this contest will represent one rural fair only. Where a team has won at several fairs, the runners-up will be eligible for the final contest. Fees will be one dollar for each team. They must accompany entries, which should be in the hands of A. P. Westervelt, Manager of the Fair, Toronto, by Nov. 6th.

**British Apple Market**  
 Not for many years have Ontario apples commanded such excellent prices on the British market, and this year a greater quantity of apples will be sent overseas than ever before. Hon. T. L. Kennedy, Minister of Agriculture, declares. Cold storage, grading and careful packing have resulted in the selling of Ontario apples on the British market for from two to four shillings a barrel more than the Virginia apples and from four to eight shillings a barrel more than the product of Nova Scotia. "This year Ontario will produce 750,000 barrels of apples for commercial purposes, not including the apples sold in boxes, hampers and in other forms," states Hon. Mr. Kennedy. "Of this amount about 250,000 barrels will go to the British market as compared with only 87,000 barrels last year. Ontario's apple crop this year is the finest in the province's history." Due credit for the splendid showing in Britain is also given to Mr. Andrew Fulton, fruit growers' representative overseas.

**Plowing Match Dates**  
 J. Lockie Wilson, superintendent, announces the following plowing match dates: Lincoln County at Caistor, Nov. 5th; Eramosa Tp., Nov. 4th; Frontenac Co. at Kingston, Oct. 28th; Haldimand, at Hagersville, Oct. 29th; Halton at Milton, Oct. 30th; South Huron at Exeter, Oct. 23rd; South Perth at Mt. Pleasant, Oct. 27th; Muskoka at Bracebridge, Oct. 23rd; Norfolk at Langton, Oct. 28th; Waterloo Co., at North Dumfries, Oct. 23rd; South Ontario, at Clarendon, Oct. 23th; Peel County at Brampton, Oct. 23rd; Perth County, at Stratford, Oct. 23rd; Six Nations at Ohsweken, Oct. 31st; Sullivan Tp., Grey County, Oct. 23rd; Wellesley Tp. at Crosshill, Oct. 27th; York

**Grain Show Postponed**  
 Owing to general conditions in Western Canada, the world's grain exhibition, which was to have been held in Regina in 1932, has been postponed until 1933. The decision was announced by Hon. Robert Weir, chairman of the committee, only after mature deliberation had been given every angle of the situation. More than two score countries had promised to take part in the show, for which plans had been started two years ago. Exhibits of all varieties of grain had been promised from many European countries, from Asiatic countries, Australia and New Zealand, the United States and all the provinces of Canada.

**A Prolific Apple Tree**  
 An apple tree that will give 24 barrels of first-class apples this year is the pride of Kenneth Cameron of Lucknow, who has one of the finest orchards in Western Ontario. It is a spy tree and Mr. Cameron's personal favorite in his 300-tree orchard. In the past 13 years it has produced 193 barrels of saleable apples and is today a splendid, healthy specimen of the Spy variety. Mr. Cameron, one of the most ardent orchardists in Western Ontario sprays his trees five times a year, cuts the grass in the orchard for a mulch. He uses more than 1,500 props to hold up the limbs of his profit-making trees, and finds his markets chiefly in Montreal and in latter years to some extent in the British Isles. His orchard contains Baldwin, Spies, Ben Davis, Manns, Wolf Rivers and Russels.

**R. O. P. Poultry**  
 With over two months to go, entries in Record of Performance for poultry are reported by R. W. Zavitz supervisor at Ottawa, to be well up to last year, with every prospect of a substantial increase.

**75 years of sound development**

At the outset of its career in 1855, this Bank's policy of "sound and conservative banking methods" was inaugurated.

At the first annual meeting on July 15, 1857, the reserve fund was created with £4,800.

During more than three quarters of a century this Bank has consistently followed its sound policy. When had financial weather darkened Canadian skies, this Bank weathered the storms and developed consistently by its own strength, and without mergers.

Today its Reserves are 50 per cent. greater than its paid up capital.

The principles upon which this sound record was built are those by which we safeguard the welfare of our clients.

**THE BANK OF TORONTO**  
 INCORPORATED 1855  
 The Bank for Savings

CAPITAL \$6,000,000 RESERVES \$9,000,000

The final day for receiving entries is November 30th, but in view of the fact that production records can only start one month following the receipt of entry at Ottawa, farmers and poultrymen who want to get the full benefit of the record year should have their entries in the hands of the supervisor not later than October 31st.

Anyone who has the time, inclination and ability to undertake poultry breeding work will find Record of Performance one of the best ways in which to get established on a sound basis. The records kept are simple and practical, and are accepted for the issue of certificates to those hens which lay the required minimum number of eggs to qualify. In addition to this the visits of staff inspectors at regular intervals provide a source of information and advice always available to the breeder, which is helpful in carrying on the work for best results, and is really worth many times the cost of the nominal entry fee.
