

## Macdonald College Celebrates

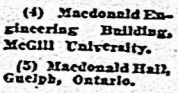

General view of Macdonald College Buildings St. Anne de Bellevue, Que.

Sir William C. Macdonald.

(2) Chemistry Building, McGill University.

(4) Macdonald Engineering Building.

(5) Macdonald Hall, Guelph, Ontario.

The Twenty-Fifth Anniversary of Macdonald College with particular emphasis on Founder's Day, February 10th, focuses attention on this institution and its founder, the late Sir William C. Macdonald who built, equipped and endowed the entire institution at an expense of more than six million dollars.

Founder's Day which this year, marks the 105th Anniversary of the birth of the late Sir William C. Macdonald, founder of the Macdonald Tobacco Company and Canada's greatest benefactor, once more draws attention to the tremendous scope of his benefactions to McGill University with which the Macdonald College at St. Anne de Bellevue is affiliated. These benefactions total more than twelve and a half million dollars, \$10,690,165 of which was given during his life.

While the Faculty of Science and of Scientific Agriculture was possibly

the dearest to Sir William's heart, every faculty of the McGill University benefited during his life and after. The Faculty of Law received \$22,500. The Conservatorium of Music \$300,000. The Faculty of Medicine was bequeathed \$500,000. The McCord Museum Building was purchased at a cost of \$142,000, while the Macdonald Park site now occupied by the Stadium, and the Student's Park was purchased at a cost of more than one million dollars and presented to the University. Student's activities came under the beneficent scope of Sir William as the McGill Union testified. Sir William spent \$219,000 on its erection and equipment. In addition to the wonderful equipment at St. Anne de Bellevue, those buildings at McGill which bear the Macdonald name and those donated by the late Tobacco Knight, stand

today, as the greatest monument to his memory.

Macdonald College was founded by the late Sir William in 1907. It was designed to include three schools—one for agriculture, one for household science and one for normal teacher training. The gift included the grounds, almost 800 acres in extent, the complete equipment and endowment. The college itself was incorporated with the University of McGill as the Faculty of Agriculture, although the teachers' training feature is possibly his best known contribution to life in the Province of Quebec.

Other sections of the country have benefited by the late Sir William's benefactions, the Macdonald Institute and the Macdonald Hall at the Ontario Agricultural College, Guelph, being among the most important.

### Japan and Manchuria

Economist (London): Time, in the second chapter of the Manchurian story, shows signs of changing sides. From the seizure of Mukden on September 19 down to the completion of the Japanese occupation of Manchuria last week, time worked in Japan's favour. While the League Council wavered, the Japanese Army carried out its operations swiftly according to plan. Now that the plan has been executed, the Japanese are faced with the new problem of holding what they have taken; and now

time may begin to work on the side of the Chinese guerrillas, to whose favourite method of warfare the Japanese have exposed themselves by the enormous lengthening of their lines of communication. We do not believe that the Japanese Army will succeed in clearing Manchuria of brigands within three months or within many times that period. And meanwhile the Nine-Power Treaty and the Kellogg Pact will be working, impalpably but potentially, upon the public opinion of the world to Japan's undoing. We have not seen the end of this Japanese adventure.

### "Toadstool" Lights to Outline Indiana Highways at Night

Indianapolis, Ind.—The Indiana State Highway Department is to test use of "cat's eye" lights for marking the center of paved highways and the outside curves of a section of state road.

The lights consist of small reflectors set in a "toadstool" arrangement of metal set in the pavement surface. White reflectors will be used to mark the center of the road and will be placed about 100 feet apart. Red reflectors will mark the pavement edge on curves.

Nothing is more destructive of individual character than for a man to lose all faith in his own abilities for the prosecution of his work.—Samuel Smiles.

### Notice to Motorists

NIGHT DRIVING NOW MADE SAFE BY THE USE OF STOP-GLARE REFLECTORS

These Reflectors can be attached to the light bulbs in the head lamps of your car. They greatly increase your driving vision, spreading the light from focus to focus, shooting it a long distance ahead, and at the same time, stopping the glare. It is a wonderful invention and makes night driving a pleasure. They are sold at a low price. They are guaranteed for the life of your car. Undoubtedly, every automobile, truck and bus will be equipped with STOP-GLARE REFLECTORS as soon as they get them. This is not a painted light bulb. Write us at once for prices, full particulars and exclusive selling rights.

Stop-Glare Reflectors, Ltd. 624-26-28 KESTER BUILDING, HAMILTON, ONT.

### What New York Is Wearing

BY ANNEBELLE WORTHINGTON

Illustrated Dressmaking Lesson Furnished With Every Pattern.

3454

Here's a slenderizing model with much youthful charm. A black velvet with ecru lace made the original.

For practical wear, it would be very nice carried out in a canton-fabric crepe silk in rich dark brown or in black.

Crepe marocain, wool crepe and supple wools are also suitable.

The diagonal scalloped treatment gives charming height to the figure. The softly draped bodice is slimming.

Style No. 3454 may be had in sizes 36, 38, 40, 42, 44 and 46 inches bust.

Size 36 requires 4 1/4 yards 89-inch with 3/4 yard 8-inch lace.

### Utterly Worn-Out

Mrs. Fitzpatrick Tells How Dr. Williams' Pink Pills Made Her Well.

"I became run-down and unable to do my work for a family of seven," writes Mrs. W. P. Fitzpatrick, Marquis, Sask. "I was told I had anemia, and I took treatment, but with very little improvement. Finally I was advised to try Dr. Williams' Pink Pills, as they had done her so much good. I have taken seven boxes. Today I'm well; able to do my own work; no more tired feeling of new red blood; I can run upstairs without puffing; I sleep and eat well. My friends are astonished at my changed appearance and never fail to ask me 'What's your secret?' My reply is: 'Dr. Williams' Pink Pills.'"

Dr. Williams' Pink Pills actually create an abundance of new red blood, which is the reason why they have given new vitality and strength to thousands of such nervously exhausted and overworked women. Equally helpful for growing girls. Try them. At your druggist's in the new glass container. 50c a package. 27c

### Owl Laffs

They were discussing dogs, and the tales were becoming "pretty tall" when one of the group took the lead. "Smith," he said, "had a most intelligent retriever. One night Smith's house caught fire. All was instant confusion. Old Smith and wife flew for the children and bundled out with them in quick order. Alas, one of them had been left behind. But up jumped the dog, rushed into the house, and soon reappeared with the missing child. Everyone was saved; but Bover dashed through the flames again. What did the dog want? No one knew. Presently the noble animal reappeared, scorched and burned, with "what do you think?"

"Give it up," cried the eager listeners.

"With the fire insurance policy, wrapped in a damp towel, gentlemen."

Glum—"Why are you so blue?"

Gloomy—"Because my boat finished first in the race."

Bad—"Why, I'd think you'd be happy."

Worse—"But the motor went dead."

Witness—"Then he upped and 'knocked me down his own back'."

Judge—"With a least a leaf."

Witness—"Yes, your Honor. With a leaf from the table."

A woman says she is troubled because her husband talks in his sleep and mumbles so that she can't understand him. Gleeeful Gladys says some women go right on chasing illusions at forty—by that time most of us are kept busy dodging disillusion. A woman seldom comes out of a sudden spell until she believes her husband has suffered as much as she thinks he should. Most of us try to put off everything except a good time. Foolishness is still foolishness, no matter how august may be the man who utters it. A lot of people don't care much what happens so long as it doesn't happen to them.

The time to start advertising is when the other fellow says: "Ah,

### Radio Now Installed In Turkish Mosque

Istanbul, Turk.—For the first time in Islamic history a radio has been installed in a Turkish mosque. Choosing one of the most famous religious edifices in all Turkey, St. Sophia, for this innovation, Mustafa Kemal has directed that the radio service be chanted from the newly adopted Turkish Koran by 25 clergymen.

This is the second notable departure from ancient custom in religious service instituted by the progressive Turkish President this year. The Arabic Koran, always unintelligible as Latin to the layman, was replaced early last month in some Istanbul mosques by a Turkish translation. These innovations are in consummation of the Nationalist Government's aim of adapting the Islamic religion to the needs of modern Turkey.

"A speculator becomes an investor when the price does not go up and he holds on."—Charles E. Mitchell.

Spades—9

Hearts—2  
Clubs—5, 4, 3, 2  
Diamonds—J, 3  
Spades—7, 8

If spades are trumps and Z is in the lead, how can Y win eight of the nine tricks against any defense?  
Solution in the next article.
