An Intelligent Dog

(The Flesherton Advance)

The most remarkable evidences of canine intelligence that has ever come under our observation occurred last week. We have before heard of incidents of the apparent reasoning powers of dogs, but no direct case had ever come to our attention until the past week, when a piece of direct evidence was presented in proof that "man's best friend" has the power of reasoning very fully developed.

Last week a team of horses belonging to Mr. Les. Chard fell through the ice on the hydro pond and were drowned. Mr. Bert Magee, who lives on the east side of the pond, took his team to help draw the others out, but they also fell through the ice. Mr. Magee's collie dog accompanied his master and when the second team fell into the water the dog suddenly disappeared. He made his way to where Mr. Harry Foester was working and barked so strongly that Mr. Foester knew something was wrong, and running followed the dog, but when Harry slowed to a walk the dog evidently thought he was not going fast enough and got behind him, pushing on his legs with his muzzle. Mr. Foester finally brought up where the trouble was and assisted in getting the second drowning team out of the water. By this one act Sport earned his keep to a patriarchal age.

Mrs. John McNally of Durham, a former resident at Zion in Glenelg, passed away at her home in Durham on Saturday. Our Traverston correspondent will have a full obituary notice for next week.

Strathmore Farm
Holds Three Milk and Butter Production Records

When milk and butter are the topic of conversation, attention must needs be directed to the Canadian Pacific Railway's supply farm, at Strathmore, Alta., where three bovine aristocrats have established outstanding production records for 1931, for the whole of Canada. There is little to choose between the three cows; a glance at their pictures tells the story. Excellent stock, well handled, has once more proven its worth and E. W. Jones, the company's Superintendent of Agriculture and Animal Industry, is justly proud of the achievement.

The Pictures

(1) Strathmore Lady McKinley.
(2) Primrose Lily Pietje.
(3) Mona Pontiac Walker.

Mona Pontiac Walker—134648—under Government regulation, led all the milk-producers in Canada by over 2,000 lbs., having completed a yearly record on November 27, 1931, with 30,464 lbs. of milk and 1,160 lbs. of butter. In 1930, as a four-year-old, she held another record, with 29,202 lbs. of milk and 1,071 lbs. of butter.

The next highest milk production record for 1931 goes to Primrose Lily Pietje—151147—who also held the butter record for the Dominion for the same year. Her performance was 23,271 lbs. of milk and 1,210 lbs. of butter. She is an outstanding show animal and took first prize in the dry cow class at Vancouver and Victoria in 1931.

The four-year-old production record for Canada, for both milk and butter is held by Strathmore Lady McKinley—143399—accorded her records under Government regulation, in 1931, with 25,569 lbs. of milk and 1,102.5 lbs. of butter. She is a remarkably fine beast of the best of Holstein pedigree, as is shown by her fine lines.
