### Here and There

Popularity of Canadian apples abroad has notably increased, and last year apple exports to Europe from Western Canada reached a new high record of 1,174,000 boxes, as compared with 550,000 boxes in 1930. Fruit growers are anticipating an even larger crop

R. Y. Daniaud, formerly Travelling Passenger Agent, Canadian Pacific Railway, Winnipeg, was appointed District Passenger Agent, Algoma District, North Bay, Ont., effective August 16th Mr. Daniaud has had a long and successful career with the Company, and is now receiving congratulations on his most recent promotion.

Numbers of anglers returning through Ottawa and Montreal report having experienced exceedingly good bass fishing. This was the expression of a group from Cincinnati, Ohio, who recently visited the bass fishing waters of the Gatineau River, north of Maniwaki, according to A. O. Seymour, General Tourist Agent, Canadian Pacific Railway.

This is evidently the peak year with partridge, one would judge from the reports emanating from various parts of the Laurentian and Gatineau districts of Quebec, according to A. O. Seymour, General Tourist Agent, Canadian Pacific Rallway. In almost every locality partridge, as the ruffed grouse and Franklin grouse are best known, are very plentiful. Most flocks hatched this year are nearly full grown. nearly full grown. . .

New freight rates on live stock with low minimum weights to meet the competition of motor trucks in the transportation of animals to market have been put into effect by the Canadian Paci-fic and Canadian National Railfic and Canadian National Railways covering movement from stations within a radius of 150 miles of Toronto, and these were effective from August 15. The new rates are being tried out as an experiment, and it is expected they will result in a very substantial increase in the rall movement of cattle, sheep, and hogs.

One of the most interesting passengers arriving in Montreal by the Canadian Pacific SS. Duck-ess of Richmond on Angust 13 was "Miss England III", the world's fastest motor-box! After world's fastest motor-boat. After the international races with Gar Wood's boat at Detroit, Kaye Don will take "Miss England IH" to Toronto, where visitors at the Canadian National Exhibition will be able to see an attempt by the powerful vessel to lower her own or any other new world's record. The big speed boat was accompanied in the Duchess of Richmond by R. E. Garner, senior mechanic, and "mate" to Kaye Don during the races. during the races.

Two hundred organizations affiliated with the governing body
of the Canadian Chamber of Commerce, whose seventh annual convention will be held at Halifax,
September 13-15, will send members to a pre- and post-convention sea cruise and land tour with
the Clarke Steamship Co., the
Deminion Atlantic and the Canadian Pacfic Railways, scheduled
to leave Montreal September 3
and return there September 19.
The sea cruise will be on the
S.S. New Northland, calling at
Charlottetown, Sydney, St. PierreMiquelon, St. John's, Newfoundland, and Halifax, prior to the
convention, and will cover the
Maritime Provinces after it.

Cost of travel to Eastern Que-bec, the Lower St. Lawrence and to resorts in the Marltime Pro-vinces has been deflated this sumvinces has been deflated this summer in a fare revolution that has never been equalled in the history of the railroads of Canada. This reduction works out at about fare and one-tenth for the-round trip to any one of a score of glorious summer centres on Canada's unsurpassed Atlantic seaboard with proportionately reduced fares to many other destinations in eastern Quebec and the Maritime Provinces which are also in effect from stations in the province of Quebec, Montreal and also in effect from stations in the province of Queboc, Montreal and west, and also in Ontario, Sindbury, Capreal, Windsor, Sarniand east. This great concession by the rallways of Canada is on offer during the month of August with a return limit of 21 days, excluding the date of sale. (862)

# the Busy Farmer

Furnished by the Department or agricultur

Preliminary estimate of the vield er acre of various crops over the province is as follows: Wheat, 30,1 and clover, tons per acre, 1.37; alfalfa, tons per acre, first cutting, 1.79.

Ontario's Pear Crop Prospects are reported to be en ceptionally good for a large pear crop in Ontario The trees came through the winter with very little injury and weather conditions have been excellent for the develop-ment of the fruit. Niagara district looks for a yield double that of last year and Burlington also expects to top last year's figures. Taken as a whole, the production for the province should be far in excess of 1931. It is interesting to note that weather conditions have not been so favorable in Nova Scotia, where the crop will be about two-thirds of that of last year while British Columbia will likely have a crop about equal to that o

New Tomato Package A report to the Ontario Market ing Board states that a new pack age for hothouse tomatoes has devised and is making a hit with the trade across the border bringing a premium of about 15c per basket over other packages The new package is a corrugated paper carton with a wood handle, giving it the appearance of a peck basket. Each tomato is labelled and cellophane wrapped. The cellophane of course is transparent and the buyer can easily see the toma toes without removing the wrapper and spoiling the appearance of the package. The cellophane wrappe: also has other advantages as it keeps the tomato firm and keeps

Lots their supply right from the field. In Lincoln hail storms caused many thousand dollars worth of damage to peaches, pears, grapes, plums and apples. A tobacco crop of 20,000,000 pounds is expected in Norfeik and harvesting operations ing no adverse effect on the mater-

Trade in Farm Products A statement just issued by the Dominion Bureau of Statistics estimates the total of Canada's trade in farm products for the fiscal year 1931-32 at \$308,480,201; of this amount \$224,728,269 represents farm products exported while \$90, 751,932 represents farm products imported.

are now in full swing. The blue-

berry crop in Muskoka and Parry

Sound districts has not been up to

expectations.

Mushroom Exploiters Busy

The unemployment situation ha proved a boon to unprincipled pro moters selling mushroom spawn says the Bureau of Plant Industry U. S. Department of Agriculture in a warning just issued. Promot ers describe mushroom growing as new and unexploited business requiring only a small capital investment and comparatively little experlence, with almost certain prospects for larger profits be-cause of the alleged scarcity and high prices of mushrooms. These claims are for the most part misleading, says the Bureau, advising anyone who proposes to grow mush rooms to thoroughly investigate market conditions and the risks of the business.

Ontario Farm Organizations Shot Large Annual Turnover

Figures reveal that during the past year 42 Ontario farmers' ce operatives embracing 28,000 mem bers did au average yearly busi ness per member of \$587. This does not by any means represent all of the co-operative effort in the province. it does tend to show however, that farmers are uniting in their efforts to keep in business The sixteen million and a half dol lars worth of business conducted by those included in the above figure represents sales of live stock, wool, dairy products, poultry products, fruit and vegetables seed and grain and miscellaneous products and the purchase for resale to members of such articles as machinery, feed, fertilizers twine and many other things.

Crop Conditions

Following is a summary of crop conditions in Ontario at the end of July: The harvesting of all wheat was practically completed. Yields were about average and the quality. of grain splendid except in Five representatives of the Fruit damaged by Hessian Fly or lodged, and Produce Exchange of Great Spring wheat, oats, barley and mixed grains were improved by rainfall rector of that organization, have but yields to unfavorable weather at The party was conducted under the and oats was under way the first Association of Ontario, and at the and the following week in Eastern Ontario. Pastures are good in the central and western districts, but poor in the western part, due to insufficient rainfall. Hay and clover damaged by wet weather Alfalfa Fruit Growers' Association, stated crops were good yields in western have improved but will not be up to resents the largest potential market usual standard. Corn. though backward, has made good growth, but, many fields are uneven and spotty. cent. less than last year and production will be below normal. age. A large acreage of buckwheat was sown and appears in first-class weather has reduced the tobacco prospects in Norfolk.

#### Welcomed to Scotland

S ix hundred Canadians who call Glasgow home, were greeted on their arrival in the Clyde city by Sir Thomas Kelly, LLD., Lord Provost, and the magistrates of the city, when they arrived recently in the Canadian Pacific liner "Duchess of Bedford" for a re-union.

Gathered together from all parts of Canada, and transported by special train to Montreal, the Glaswegians are making a two-months stay, during which they are being entertained by the City of Glasgow, its manufacturers, and their friends. Proceedings opened Twesday, July 26th, when the Lord Provost, magistrates and councillors held a reception in the Art Galleries at Kelvingrove.

The party, which left Montreal in the Duchess of Bedford, July 6, returns from Glasgow Saturday, August 20, in the same 20,000-ton liner.
