After the business and necessary correspondence were disposed of the program was given mainly by the Vandeleur ladies. It was started by all joining in community singing. Yes, 'tis true, a dandelion is really not a flower, Riverdale, although it possesses a very flowerlike appearance while in bloom, similar in shade and color to golden glow, marigolds and all other yellow flowers.

However, that was not the assertion I wished to express. I merely meant to draw attention to the unique coincidence of fragile vegetation growth at Wodehouse during its natural retiring season; but if our brother correspondent is not in a mood to respond to a mere jovial attack in a jocund manner rather than by the insinuating air so evident in the concluding works of last week's items then we shall deem it prudent to decline from further social correspondence in the future. As for your challenge to the checker "Amateurs" hereabouts, they are already waiting.
